Will Rogers Remarks:

CHICAGO, June 25. [To the Editor of The Times:] That fellow Kingsford-Smith must be a real flyer, and he prepares his flight right. He paid a fine tribute to radio, and that gives a pretty good idea of what happened to some of those other poor fellows. You just can't get over here without bucking terrible winds. We hate to admit it, but I guess we are pretty windy over here. Old Doc Eckener with his aluminum hot dog is, I reckon, about the only sure-fire way to cross that ocean either way any time. Twenty thousand Rotarians are walking the streets of Chicago here and not a one has been shot or robbed. It looks like negligence.

Yours,
WILL ROGERS.

STORM FURY IN MIDWEST COSTS LIFE

Lightning Kills Farmer; Much Damage Reported to Homes and School

KANSAS CITY, June 25. (AP)—Alternating belts of heat and cold today created storms over a wide area in Missouri and Kansas, causing one death and extensive property damage.

Lightning killed H. H. Merrill, 36-year-old farm laborer, and his team three miles southwest of Raytown, Mo.

A tornado which struck last night between Gothenburg and Cozad, Neb., killing one man and injuring several other persons, was followed today by a twister near Pratt, Kan.

Mrs. Henry Nickols and Mrs. Thadscott were injured when the tornado destroyed their homes, west of Pratt. Damage is estimated at $200,000. Approximately a dozen farm homes and one school were wrecked.

The mercury soared to 109 today in Altus, Okla., 3 deg. above the record for this time of the season. Oklahoma City recorded 98 deg., a record. Beaver sweltered under 106 deg. and Hollis reported 105. Southern and Western Kansas readings ranged from 90 to 95. The maximum in Kansas City today was 82.

SAW VICTIM DIES

LAKEPORT (Cal.) June 25. (AP)—Jeff Burke, 63 years of age, died at Upper Lake last night from injuries received when he backed into a power-driven saw. Doctors took 165 stitches to close the wounds.

LANDING FIELDS WILL BE SOUGHT IN ALASKA

SAN FRANCISCO, June 25. (Exclusive)—An aerial survey of the proposed Yukon-Pacific Highway in Alaska will be made by the Army Air Corps within the next two weeks to determine locations for favorable landing fields along the proposed road, Ninth Corps Area officials announced today.

DAM BATTLE GIVEN UP

Arizonans Drop Filibuster

Ashurst and Hayden Pledge End of Obstruction for Deficiency Measure

Jones Withdraws Request for Cloture and Bill Likely Will be Voted Today

WASHINGTON, June 25. (AP)—Threats of a filibuster on Boulder Dam such as that which surrounded the original legislation at the end of the last Congress disappeared in the Senate today and sponsors of the second deficiency bill carrying $10,660,000 to start work on the big power project on the Colorado River will endeavor to reach a vote on the bill before adjournment tomorrow.

Chairman Jones of the Appropriations Committee, in charge of the measure, withdrew his petition to invoke cloture on the bill after being assured by the two Arizona Senators opposed to the initial Boulder appropriation that they would not prolong the debate.

ONE-STRING HARP

Senator Ashurst, Democrat, Arizona, contended in a speech late in the day that the Interior Department contracts for sale of power from the project to coastal cities of California are illegal and predicted the question ultimately will go to the Supreme Court for decision. He said he will conclude his arguments in a few minutes at the outset of tomorrow's session.

It was agreed the Boulder Dam provision will be acted on first. The only other controversial item in the bill is appropriation of $50,000 for the law enforcement commission to continue its studies, but to confine them in the future to prohibition alone.

BOOST PROPOSED

Senator Jones will attempt to boost this to $250,000 for studies of all laws, as recommended by President Hoover.

The deficiency bill gained the floor in a race with the Couzens-Parker bill to regulate interstate bus lines. The Senate voted, 36 to 27, to take up the deficiency measure first after Senator Couzens, Republican, Michigan, had charged the move was an attempt to kill the bus legislation before adjournment.

LOUISIANA NEWSPAPER TAX KILLED

Committee Pigeonholes Governor's Bill Aimed at Publisher Enemies

BATON ROUGE (La.) June 25. (Exclusive)—Gov. Long's attempt to throttle newspapers of New Orleans and Louisiana, placing a 15 per cent annual tax on all advertising, which was introduced by Representative Letissier, a personal friend of the Governor, has been pigeonholed by the House Ways and Means Committee. With only twelve more days of the legislative session remaining Gov. Long will be unable to introduce another bill to whip the newspapers into line.

More than three-quarters of the newspapers of the State opposed Gov. Long's plan to float a $68,000,000 bond issue for new highways, with the Governor spending the money as he saw fit. As a result he said he would force the newspapers to support his bond issue. Then he had the bill introduced to tax their advertising. Publishers of all political factions got together and swept down on the State capital and demanded that the bill be killed. Of the seven members of the Ways and Means Committee only one is said to have favored the bill. The name was not announced.

Oliva Termed Rum-Ring Head

SAN FRANCISCO, June 25. (Exclusive)—August R. Oliva, former commission merchant, securities broker and community philanthropist, but far more widely known as a political scene shifter, familiar as "Gus" to every treader of the white-light trails in San Francisco's night life, was named from the witness stand in Superior Court at San Rafael today as the actual head of the gang which supervises illicit liquor distribution in the Bay District.

His accuser is Mrs. Grace Berri, who was shot, assertedly by Vincent Lucich, in Marin county May 21, last, at the same time M. G. Sturtevant, government star witness in the Marin county distillery case, was killed. Lucich, according to Mrs. Berri, is a self-admitted gunman for the gang.

TEXAS FLYERS TO HOP FOR CAPITAL TODAY

DAYTON (O.) June 25. (AP)—Capt. William C. Ocker and Lieut. C. J. Crane of Duncan and Brooks Fields, Texas, respectively, making a "blind flight" from San Antonio to Washington, expect to leave Wright Field tomorrow for Washington. They arrived from Scott Field, Illinois, last night and spent today in checking over their instruments.

SEA POWER TUBE GOES TO PIECES

Million-Dollar Device to Harness Gulf Stream Lost in Test Near Matanzas

HAVANA, June 25. (AP)—A giant tube built at a cost of more than $1,000,000 and designed to harness the water of the Gulf Stream, to convert it into electrical energy, collapsed when sunk into the sea near Matanzas today and was destroyed.

The tube was designed by Georges Claude, French scientist. It was built of corrugated steel, was 1800 meters long and required three months to complete.

The plan was to place the great tube in a channel on the bottom of the sea to serve as a pipe line from the Gulf Stream to a power plant erected at Prof. Claude's laboratory along the gulf shore near Matanzas.

Prof. Claude's theory was the Gulf Stream water, being subjected to vacuum, would rise to the boiling point and produce steam sufficient to turn great turbines for generating electrical power.

King Greeted by Icelanders

REYKJAVIK (Iceland) June 25. (AP)—The last hammer stroke had hardly fallen this afternoon on the large arch to welcome Christian, King of the Danes and Icelanders, to the Icelandic Parliament anniversary, when the thunder of booming guns announced the landing of His Majesty with the Queen and Prince Knud from the cruiser Niels Juel.

Wall Street Inquiry Asked

WASHINGTON, June 25. (AP)—An investigation by a special House committee of the fluctuations in the prices of securities in Wall street was asked today in a resolution introduced by Representative Dickinson, Republican, Iowa.

Perils Grow as Plane Stays Up Fourteen Days

CHICAGO, June 25. (Exclusive)—With all endurance records surpassed except that of the St. Louis Robin, the airplane City of Chicago, with John and Kenneth Hunter at the controls, is circling slowly over Sky Harbor airport after having completed fourteen days of continuous flying. At 11:40 p.m. the plane had been aloft 343 hours, seventy-seven hours short of the record of 420 hours established last year by the Robin.

Mechanical difficulties became an added hazard as the physical strain told on the pilots near the end of the fourteenth day. Early in the morning the brothers changed two faulty spark plugs.

Local Flyer Dies in Crash

NOGALES (Ariz.) June 25. (AP)—Johnny C. Wilson of Los Angeles and Paul Eberlein, student flyer of Nogales, formerly of Cleveland, O., were killed this afternoon when their airplane crashed near the Nogales airport.

RADIO RANGE BEACONS WILL BE INSTALLED

SAN FRANCISCO, June 25. (Exclusive)—Establishment of two radio range beacons between Oakland and Reno on the transcontinental air-mail route and two on the Los Angeles-Las Vegas division of the Salt Lake City route were announced today by Capt. Harry Rhodes, district superintendent of lighthouses. Similar beacons are being installed at Oakland airport, Fresno and Saugus on the coastwise air-mail line.

CALLES NOW GRANDFATHER

MEXICO CITY, June 25. (AP)—A daughter has been born to Mr. and Mrs. Thomas Arnold Robinson here. Mrs. Robinson is a daughter of Plutarco Elias Calles, former President of Mexico.

HUGE COAST FURNITURE DEAL MADE

Sixteen Concerns Merge Forming Third Largest Company in Nation

PORTLAND (Or.) June 25. (AP)—Harry A. Green, president of the Doernbecher Manufacturing Company, today announced merger of his company with at least fifteen other large furniture manufacturing plants on the Pacific Coast, under the name of Furniture Corporation of America, Ltd.

The concerns involved are located in Portland, Seattle, Tacoma, Spokane, San Francisco, Oakland and Los Angeles, and do a business of more than $10,000,000 a year. The merger, Green said, creates the third largest furniture manufacturing company in America.

All companies in the merger have not been announced but the following in Los Angeles are, or will be, in the organization, Green said: Gillespie Furniture Company, Los Angeles Period Furniture Company, Los Angeles Woodworking Company, L. C. Phenix Company, Standard Upholstering Company, C. B. Van Vorst Company and Western Furniture Manufacturing Company.

Officers of the new corporation are Harry Green, president and chairman of the board; Clarke E. Dye, Portland, executive vice-president; E. S. Beach, Portland, secretary-treasurer; vice-presidents—William A. Healy, Portland, and F. H. Gillespie, Los Angeles and Oakland.

Steel Merger Battle Begins

YOUNGSTOWN (O.) June 25. (AP) Charges of intentional fraud and dereliction of duty were made today as a formidable array of attorneys fired opening guns for and against the $1,000,000,000 merger of Bethlehem Steel Corporation with the Youngstown Sheet and Tube Company.

Principals on the battle lines are Myron C. Wick and the Continental Shares Corporation as stockholders of the Youngstown company opposed to merging, and the Youngstown company, its directors and the Bethlehem corporation as defendants.

SLAYER MAY HELP SCIENCE

New Mexico Condemned Prisoner's Aid Sought for Test to Decide Trachoma Germ Effect

SANTA FE (N. M.) June 25. (AP)—Woo Dak San, a Chinese, condemned to electrocution in New Mexico for murder, may be given the alternative of death or offering himself as a human experiment to the efforts of science to combat trachoma.

Dr. Polk Richards of the United States Indian Service at Albuquerque, and Dr. S. I. Proctor, oculist of Boston, but now of Santa Fe, have discussed the possibilities of experimenting with Woo Dak, it was learned yesterday after the State Supreme Court denied a rehearing on San's appeal.

The court referred San's case to District Judge Duniform at Silver City to have the method of death changed from hanging to electrocution to conform with the new State law and to have the date of execution set.

Dr. Richards said today he and Dr. Proctor have talked over with Atty.-Gen. Otero the possibility of obtaining the man's consent for such an experiment, and that it was suggested that they request Gov. Dillon for permission to talk to the Chinese.

Santa Fe lawyers consider that even though the Chinese consents he may gain only a stay of execution during the term of the experiment, or that he may win a commutation or a pardon for his contribution to science if the experiment is successful.

Specialists believe they have isolated the trachoma germ, Dr. Richards said, and while experiments have been made on monkeys, science needs a human specimen to obtain positive proof of whether inoculation with the germ discovered will produce trachoma.

Should Woo Dak San consent for specialists to use him for a trachoma experiment, he would in all probability suffer no ultimate effects from the inoculation, Dr. Richards said today.

Dr. Richards said trachoma is not fatal and results in blindness only when treatment is neglected.

Sandino Has Wound in Leg

MANAGUA (Nicaragua) June 25. (AP)—Gen. Augustino Sandino is said to be suffering from a wound in the leg received in a recent encounter with American marines and Nicaraguan constabulary.

Gen. D. C. McDougal, United States marine officer who is in charge of the Nicaraguan National Guard, said the insurgent leader had been operating in the mountains north of St. Rafael.

Census Shows Nevada's Gain

RENO, June 25. (AP)—The population of the State of Nevada is 90,959, according to preliminary figures released today by the Census Bureau.

This is an increase of 13,152, or 16.9 per cent, over the census of 1920.

KINGSFORD-SMITH WRITES STORY OF PLUCKY FLIGHT

Southern Cross Trip Continuous Battle With Strong Winds and Blinding Fog

Capt. Charles Kingsford-Smith here tells briefly his own story of the successful flight of the Southern Cross over the Atlantic. He will give a full story of the flight exclusively for the New York Times and Los Angeles Times on his arrival in New York.

BY CAPT. CHARLES KINGSFORD-SMITH
Commander and Chief Pilot of the Airplane Southern Cross

[Copyright, 1930, throughout the world by the New York Times Company. All rights reserved.]

HARBOR GRACE (N. F.) June 25. (Exclusive)—The Southern Cross had no difficulty in rising from Port Marnock beach and lifted at once to 3500 feet right from the start. We had radio communication. The weather until we reached the coast of Newfoundland was bad, with rain and bumps which is unpleasant with a heavily loaded machine.

Rather strong head winds prevailed 75 per cent of the flight, and generally bore out the forecast. We were able to follow a perfect course, thanks to Capt. Saul, the navigator, who nevertheless would have been helpless on account of an overcast sky prohibiting taking observations, were it not for the wonderful radio assistance given by John Stannage. Practically throughout the whole trip we were able to receive radio bearings from ships.

HIT BLIND STUFF

All went fairly well till we reached a point between 30 and 35 deg. longitude when we ran into hilly stuff, and from then on we scarcely saw sky or sea. However, by the rapid working of our radio and the compass bearings given us by Stannage we were informed of our position constantly.

About 3 o'clock (Greenwich mean time) we were in a position about 350 miles from Cape Grace and expected to reach that point in four hours. To our consternation, however, the radio bearing showed we had only made 120 miles in four hours, which even for our reduced ground speed was a ridiculously low figure. We found that owing to inability to maintain a perfect course while flying blind, added to rapid changes of variation which caused our compass to swing unusually, that we evidently were flying in a most erratic course. This is borne out by the extraordinary differing of the radio bearings we received from ships. I would like to stress that this seems to be a condition likely to be met in this locality in the air. No blame is attributable to the instruments. Had this not occurred we could have probably made a point 200 miles nearer New York as we landed with three and one-half to four hours' fuel.

HEAVY FOG UNEXPECTED

Radio advices wisely called our attention to the fact that the ground condition at Harbor Grace was free from fog, and with the limited flying range it would, in my opinion, have been most unwise to have proceeded any farther. Naturally, we are disappointed but this has been mitigated by the amazing success of our organization from the point of view of radio. The weather practically bore out the forecast, but we did not anticipate meeting a heavy fog so far from our destination, and we actually flew blind practically half the trip, and the ocean fog is apparently unlimited as to height, as we were still flying blind up to 5000 feet, while the fog held on. Usually on the Banks it is considerably lower, and frequently there is clear air over the fog at 1000 feet.

Throughout the trip we had two-way communication with shipping, and for a great part of the time, and in this way connection with ashore This more than bears out my theories as regards two-way radio being essential.

PAYS TRIBUTE TO AIDES

I would like to pay a great tribute to all the boys who worked magnificently and untiringly throughout the flight, and were each perfect in their particular spheres. An hour and a half before Harbor Grace was reached we knew that our gas was running short, and we were keeping this for emergencies. I particularly wish to thank the radio operators of all radios and ships, especially the S.S. Tranavivania, who were untiring in their efforts to assist us and to whose good offices we are deeply indebted. I express sincere thanks to the New York Times offering to send a plane which happily was not necessary, and also to everybody who sent congratulatory messages.

The trip occupied thirty-one hours from Dublin to Harbor Grace. We are now putting on board 400 gallons of gasoline which will give us plenty of radius to reach Roosevelt Field tomorrow evening, leaving here after daylight tomorrow.

SEA FLYERS TAKE AIR

Plane Winging to New York

Southern Cross Departs On Last Leg of Journey From Ireland

HARBOR GRACE (N. F.) June 26. (AP) — The airplane Southern Cross hopped off for New York from the airdrome here at 3:05 a.m., E.S.T. (5:35 a.m., Newfoundland D.S.T.)

HARBOR GRACE (N. F.) June 25. (Exclusive)—The Southern Cross, groomed and fueled for the last lap of its flight from Ireland to Long Island, rested here tonight on a sandy runway, where it sought haven early this morning after an all-night battle with darkness, fog and an erratic compass. It will be off at dawn tomorrow for Roosevelt Field, L. I., and a round of New York receptions.

After that is over, Capt. Charles Kingsford-Smith and his three companions will fly on to San Francisco to hang up a virtual round-the-world flight, for the Southern Cross and its three Whirlwind motors already have spanned the Pacific from California to Australia and England.

ALL GET SLEEP

Late this afternoon the air adventurers, refreshed by eight hours' sleep, talked briefly of their successful crossing of the North Atlantic. The drawn faces and bleary eyes with which the airmen greeted the little group of Newfoundlanders soon after daylight were replaced with smiles.

"We will leave for New York at daybreak tomorrow," said Capt. Kingsford-Smith, in command of the Southern Cross. "We were hoping to reach New York without a stop but shortage of gasoline prevented this.

"We had a rotten night. Only for the wonderful service our wireless equipment gave us, we never would have been able to land here. The weather was not exceptionally bad until we neared the Newfoundland coast. We must have flown over this territory almost all night in the fog and darkness waiting for a chance to land. We were in the air more than thirty-one hours and experienced very foggy weather and trouble with the compass. These caused delay."

Everett Van Dyk, co-pilot; J. Patrick Saul, navigator, and John W. Stannage, radio operator, agreed with their commander that it had been a "rotten night."

FEAT UNMATCHED

Landing successfully at the Newfoundland airport, the veteran Fokker accomplished a feat that no other airplane has matched. The German Junkers plane Bremen was the only other ship to span the North Atlantic on a westward flight, but the Bremen landed in a barren spot far north of here. The Bremen's flight, however, was several hundred miles longer than that of the Southern Cross.

When the Southern Cross slid down through the fog this morning its tanks held gasoline for only four hours more flying. The seven-hour

(Continued on Page 2, Column 4)

POPE'S ILLNESS MINIMIZED

Vatican Communique Cites Great Activity as Proof He's Not in Serious Condition

VATICAN CITY, June 25. (AP)—In the face of widespread reports that Pope Pius is suffering from an old bladder disorder, the semiofficial daily Vatican communique today stressed how active the Pontiff has been the last few days, although it made no denial he is troubled with the disease.

Neither did it make formal admission that physicians have been consulted and an operation is possible, as had been reliably reported.

CITES PROOF OF VIGOR

The communique instead cited ceremonies the Pope has attended lately and speeches he has pronounced as proof of his vigor, asserting that "Pius XI not only has changed nothing in his habitual regime of a life extraordinarily intense and full of occupations, but in this last period has notably multiplied his activities."

Stressing that the Pope did not feel the least inconvenience from last Sunday's long function of canonization and apparently showed no sign of fatigue, the communique said all those close to the Pontiff at the end of the ceremony and when he returned to his apartments in the Vatican noted he seemed even more fresh than in the morning, when he descended into St. Peter's.

The document recalled that on Monday besides his regular routine of audiences with cardinals and other prelates, Pope Pius received two pilgrimages—in all totaling 2000 persons—speaking at length in each case.

RECEIVES VISITORS

In addition to those pilgrimages, the communique continued, the Pontiff received at least 300 persons in a collective audience, his official day not ending until 6:30 p.m.

Yesterday, the document says, the Pope gave audiences to 500 laymen collectively and then 200 Filipino

COAST "AD" MEN PICK ANGELENO

Nater, New Leader, Heard as Conclave Closes

Early Rise of "Pacific Era" Forecast by Speaker

Long Beach Selected for Next Year's Meeting

SPOKANE (Wash.) June 25. (AP)—The Pacific Advertising Clubs' Association elected officers, chose Long Beach, Cal., for the 1931 meeting city, and closed its twenty-seventh annual convention with a banquet tonight.

In the last formal speech of the convention H. A. Nater of Los Angeles, newly elected president, said that the "Pacific era" soon will overshadow the "Atlantic era," now in its zenith.

"The center of population, the center of business activity, and the center of foreign trade," he said, "are gravitating toward the Pacific Coast. The Atlantic era, now at its zenith, is to be overshadowed by the Pacific era, even now at its dawn."

Edwin Bates of the United States Department of Commerce at Portland, said: "The West has changed from a surplus dumping ground for eastern goods to a world producing unit." He reminded the advertisers that their product is particularly needed as the vast area of the West makes it impossible to cover all parts of it by salesmen.

Miss Lillian Paul, San Francisco, won the three-minute speaking contest with a talk on "How Advertising Protects the Consumer." Other winners were Miss Jacqueline Martin, Portland, second; John Wesley Miller, Seattle, third, and Irving Brush, Los Angeles, fourth.

Officers for 1930-1931, besides President Nater, are: Miss Leila Arnold, Seattle, vice-president-at-large.; Roy Nubter, Vancouver, B. C.; Jerry L. Cundeff, Walla Walla; H. [illegible] Robinson, Portland; L. E. Townsend, San Francisco, and Sydney [illegible], Long Beach, district vice-presidents, and Phil Battelle, Los Angeles, secretary-treasurer.

HARVARD LINGUIST DIES

CAMBRIDGE (Mass.) June 25. (AP) Dr. Kuno Francke, 74 years of age, professor emeritus of German at Harvard, died at his home today.

FRANCONIA 1931 WORLD CRUISE

The Franconia . . . the inspired realization of supreme and gracious luxury . . . the ship with a long series of pre-eminently successful World Cruises to her credit.

Sail forth in her to glamorous byways never before visited by a cruising steamer . . . join the colorful pageant of Madras . . . bring back curiously wrought silver from Sumatra . . . revel in the pagan splendor of Bali . . . without change of steamer or extra cost . . . explore Samarang, Kudat, Tokyo, Peking, Colombo, Singapore, Saigon . . . just a few names along a gorgeous itinerary.

138 pleasure crowded days under the auspices of two famous leaders of travel who link their 179 years' successful experience to guarantee the success of this great Cruise. The Franconia sails Eastward from New York Jan. 10, returns May 28.

FORMER SENATOR PASSES FROM LIFE

James Kimball Vardaman

MISSISSIPPI STATESMAN SUCCUMBS

James Kimball Vardaman, ex-Governor and Senator, Victim of Long Illness

BIRMINGHAM (Ala.) June 25. (AP) James Kimball Vardaman, former Governor and United States Senator from Mississippi, died here today after a long illness. He was 68 years of age.

For the past five years he had made his home with his two daughters, Mrs. A. L. Fairley and Mrs. W. T. Ratliff, here.

Mr. Vardaman, editor, lawyer, Governor and Senator, had been closely associated with the political life of Mississippi for nearly half a century.

He first began practice of law in Winona, Miss., in 1883 and was successively editor of the Winona Advance, the Greenwood Enterprise and the Jackson Issue.

He was a member of the Mississippi House of Representatives from 1890 to 1896. He was Governor from 1904 to 1908 and was elected United States Senator in 1913, serving until 1919.

He was a striking figure while in the Senate at Washington, being known as the "White Chief" through his habit of wearing his hair long and flowing.

VATICAN TELLS POPE'S ACTIVITY

(Continued from First Page)

sisters, speaking to the latter "with uncommon vivacity and joviality."

The document added that yesterday afternoon, before taking his accustomed walk in the Vatican gardens, the Pontiff visited the old apartment of the Vatican majordomo, now transformed into the office of the special administration of the Holy See.

Turning to this morning, the communique said Pope Pius began work at 8:30 a.m., receiving special reports from four prelates, and at 10 o'clock began regular audiences.

Other sources said several Roman doctors had been consulted because of the possibility of an uremic crisis, and added that possibility of an operation had been discussed.

They said those close to the Pontiff in the canonization ceremonies Sunday noticed he was slightly distressed and perspiring profusely, but otherwise firm of step and voice. They also pointed to the ending of yesterday's audiences at 6 p.m., when normally they continue to 9.

With those things in mind they were inclined to take the Vatican denial as "diplomatic" in character and intended to quell apprehension.

ARCTIC ROAD FAVORED

WASHINGTON, June 25. (AP)—The Senate today passed and sent to the House the Norbeck bill for a report on the feasibility of a highway along the Arctic Ocean from Fairbanks to Point Barrow, or some other point at which the midnight sun is visible.

GRAHAM PLANE WRECK REACHED

Search Party in Utah Fails to Find Trace of Flyer

Quest to be Resumed Today Over Extended Area

Comrade of Lost Pilot Gives Report on Wreck Find

(Continued from First Page)

thrown it from his plane to get his bearings.

The machine itself, which had continued for fifty or seventy-five feet after it struck the ground, is badly wrecked. Both wings were torn loose, the left turned back parallel with the fuselage. The right wing had collided with a tree, turning the machine at right angles to its course.

The landing gear also is smashed and pilots of the Western Air Express, for which Graham was flying, say the plane is not worth salvaging, except possibly for the motor.

The mail was found in the locked compartment, postoffice officials, who checked it against the invoice that accompanied it, announce. It includes a carton of motion-picture films consigned to a New York theater by a Los Angeles distributing concern.

NO MESSAGE

It is supposed Graham took a downhill course when he set out from his wrecked machine, which would have led him eventually to a tributary of the Virgin River and into the Zion Canyon country.

Although provided with a pencil and paper, Graham left no message. His last entry in his log bore only the time, 3:35 a.m.

His clock had stopped at 6:35, but whether that was the hour his plane had come down after his terrific battle with a snowstorm after he left Las Vegas for Salt Lake City at 10 p.m. the night before could not be determined.

It is planned to resume the search for the flyer after a party has been properly outfitted for the task. The country for about a mile around the scene of the wreck was combed today by two score men, but lack of provisions forced them to return.

BUDDY FINDS LOG WITH FINAL ENTRY

"Arrived 2:35 a.m.—no destination."

That was the laconic final entry made in the air log of Maurice Graham on the night of January 10, last, after he had crashed his mail-laden plane on a mountain ledge eight miles south of Cedar City, Utah.

Jimmie James, a buddy of Graham's on the night air-mail run from here to Salt Lake City, Utah, found the book in the cockpit of the ship yesterday. He was one of a party of searchers who viewed the wreckage after two youthful sheepherders reported the location Tuesday.

James's telephone report to Western Air Express officials here indicated that Graham may have been out of his head when he left the crashed plane.

SHIP ON LEDGE

"The ship rests on a fairly smooth ledge on a steep mountain," James survivor of a similar crash shortly after Graham disappeared, declared.

"One wing hit a tree and the landing gear was torn off when the ship spun around. There are trees and brush all around the ledge.

"The cowling at the front of the cockpit is bent, and it looks like Maurie banged his head against it. There is no blood on the cowling or other part of the plane.

"After he hit, Maurie got out his tool kit, a first-aid kit and a knapsack. He left the tools and his log book, but filled the sack with a lunch and food.

"Then he dropped his parachute and wandered off into the snow.

ALL-DAY SEARCH

Forty-two men searched all day for a mile around the ship, but we could not find a trace of Maurie.

"He was only eight miles off his course and there was a little gas left in the tanks.

"Both emergency landing flares are gone. The two altimeters registered 7400 feet above sea level.

"The mail in both steel compartments was locked up and had not even been dampened. Every bit that he had picked up at Los Angeles and Las Vegas, Nev., was there.

"We flew back and forth over this territory time and again when we were looking for Maurie, but the ship is in a position that makes it practically impossible to see from the air and you would not know it was there from the ground unless you just happened to stumble on it. It rests at the head of Crystal Gulch.

Graham's wife and 8-year-old twin children, Monte and Melodite, reside here at 1317 Fuller avenue.

"There will be very little salvage."

Station Power Plea Hints New Radio Network

NEWARK (N. J.) June 25. (AP)—Possibility of a new national radio network, with WOR of Newark as the key station, was forecast today in an announcement by Alfred J. McCosker, director, that WOR has applied to the Federal Radio Commission for an increase in power from 5000 to 50,000 watts.

"Many suggestions and propositions are being made to WOR for it to serve as the key station of another national network," McCosker said. "The higher power applied for, if granted, will better enable WOR to serve in this capacity, on a par with other key stations of national networks."

SMOOT ANNOUNCES PLANS TO TAKE REST

WASHINGTON, June 25. (AP)—Saying he has been absent but nine days in twenty-eight years of service, Senator Smoot, veteran chairman of the Finance Committee, rose in the Senate today and told his colleagues he is going away for a rest.

He left his vote with Senator Watson, the Republican leader, and said he hopes Senators will not charge him with neglect of duty.

NEW YORK WILL BE GOAL TODAY

Round of Receptions Awaits Flyers in Metropolis

Four Airmen Then Will Aim Plane for Bay City

Beam Wireless Praised for Successful Landing

(Continued from First Page)

battle with the blinding fog off the Newfoundland Banks during which the ship wandered in a circle—lost with its radio signals fading, its pilots dead for sleep and land less than fifty miles away but buried under the fog—had defeated the hopes of a nonstop flight.

Had the Southern Cross been unable to find the landing field it is likely the plane would have disappeared in the wilderness of the ocean that has already swallowed up the lives of ten daring aviators.

LOCAL PLANE CALLED FOR

Guided here by radio direction finders and the gleam of a fog-piercing beacon light, Capt. Kingsford-Smith wearily circled the landing field for almost an hour, his radio operator calling for a local plane to come up and guide them down through the misty blanket. Finally he tilted the three motors downward into the wind and nosed through the fog ceiling. The motors idled as the Southern Cross banked sharply and then straightened out to roll gracefully into a safe landing.

The Southern Cross had conquered the North Atlantic just as she had the Pacific and with the same trio of unfailing motors.

Capt. Kingsford-Smith was the first out of the plane. His companions tumbled stiffly from the cabin as the little crowd broke into a shout of welcome.

"Has anybody got a cigarette?" shouted Kingsford-Smith deaf from the roar of the motors.

He was quickly supplied, as were the other members of the crew.

"But for the wireless we would never have got out of that fog," declared the commander a few minutes later as he thanked the airport attendants for the aid they had given him.

FLYERS IN GOOD SHAPE

The flyers were in good condition despite their tough fight with the elements and were of one accord to refuel and reach New York in two hops instead of the one they had planned.

It was a beam wireless, one of radio's comparatively new perfections, that guided the Southern Cross to port when everything else had failed. With the beam flashing its signals from Belle Isle station and the Harbor Grace wireless operator in almost constant communication with the ship the flyers had little difficulty in locating the approximate position of the airport after daylight.

Harry Hawker flew from the very spot, where the Southern Cross landed just eleven years ago. It was one of the first attempts at a trans-Atlantic flight from west to east.

MESSAGES TELL STORY

The stream of messages that trickled in from the Southern Cross during the early morning hours best tells the story of the plight of the airmen. Just before dawn—3:45 E. D. T. a message from the plane read:

"Very bad fog all night and trouble with compass has held us up quite a lot. Afraid will have to land at Newfoundland or Nova Scotia for petrol after all. Sorry to have to do this but delay was enormous. Will advise which place later."

It was almost an hour after the Cape Race radio station announced the plane was headed for its ultimate landing-place. The landing was made here at 6:50. The ship had been in the air thirty-one hours from the time it rose easily from the sand of Port Marinock, Ireland, to venture into the North Atlantic air lane which has beaten so many east-to-west airplanes.

2000 MILES FLOWN

From the Irish coast to Newfoundland, the nearest point of land, is approximately 2000 miles. From there to New York is about 1250 more. The plane had a supply of gasoline estimated to carry it for thirty-eight hours, but it must have used a bit more than was expected.

It would have been possible for the Southern Cross to have flown 400 miles nearer New York, but its commander decided to take the way of safety first rather than to take a chance on beating through to United States soil.

Headwinds would have been met all the way down the coast by the Southern Cross and although the lightened ship could have flown at better than 100 miles an hour, the chance was still great that disaster instead of the safe landing accomplished would have ended the flight.

BYRD SENDS HIS CONGRATULATIONS

NEW YORK, June 25. (AP)—Rear-Admiral Richard E. Byrd, who like Capt. Kingsford-Smith was prevented by fog from quite reaching his goal on his trans-Atlantic flight, today sent a telegram of congratulation to the captain at Harbor Grace, N. F.

"My companions and I congratulate you and your courageous crew on your splendid flight from Dublin," the message read. "The care with which the flight was prepared and carried out is noteworthy, and your achievement is one that will do much toward the progress of aviation. I hope to have the opportunity during your stay here to extend personally my congratulations and good wishes."

HOWARD P. LANDON DIES

BERKELEY, June 25. (AP)—Howard P. Landon, 71 years of age, for the past forty-one years secretary of the San Francisco Mining Exchange, died at his home here today after an illness of several months.

SUCCESSFUL FLIGHT PLEASING TO FIANCEE

[A. P. Photo]

Mary Powell

[Copyright, 1930, by the New York Times]

MELBOURNE, June 25. (Exclusive) — Capt. Charles Kingsford-Smith's fiancee, Miss Mary Powell, who lives in a suburb of this city, rejoiced when she heard of the safe landing of the Southern Cross.

She received two messages from the aviator saying "O.K.," and both of them were sent during the flight, which he promised her would be his last great attempt of this kind. Miss Powell had been confident that Capt. Kingsford-Smith would succeed in the flight to America.

NEW TURN IN LINGLE DEATH QUIZ

Russell Admits He and Slain Chicago Scribe Had Joint Market Account

CHICAGO, June 25. (AP)—Investigation of the murder of Alfred J. (Jake) Lingle, Chicago Tribune reporter, took a new turn today with the revelation he had carried a joint stock market account with William Russell, former police commissioner.

Charles F. Rathbun of the Tribune's law firm, a special prosecutor, announced Russell had admitted the market partnership when questioned for the second time in twenty-four hours by Patrick Roche, chief investigator for the State Attorney's office, and others.

Russell, who resigned as commissioner as a result of public clamor following the murder of Lingle, confidant of both public officials and gangsters, on the 9th inst., now is a police captain.

According to his interrogators, Russell said the account at one time represented a $100,000 pool. The ex-commissioner explained the two had played the market together as friends, starting with $10,000.

The original sum was wiped out in the crash last fall, he said.

Russell said neither he nor Lingle ever withdrew any money from the account. He denied they had any other business dealings together.

Americans and Germans Fail to End Talkie Row

PARIS, June 25. (Exclusive)—The conference of American and German motion-picture men over a talkie patent tangle has struck a snag.

Although refusing to admit that any serious difficulty has been encountered, the delegates officially announced that meetings will be adjourned until Monday "to enable the Germans to return and attend to their affairs at home." The real reason is that the conference is deadlocked and that the Germans are returning to consult interests represented and see if some compromise can't be offered. It was expected originally that the question would be settled this week, but it now appears that settlement is a long way off.

SETTING OF PRICE ON PEARS DELAYED

SAN FRANCISCO, June 25. (AP) Frank T. Swett, president and manager of the California Pear Growers' Association, following a meeting of growers here, announced today no price for the 1930 crop would be set until July 7, by which time the present controversy over peach prices will have been settled.

Swett indicated, however, the price for pears would be around $50 or $55. The prices last year were $75 for coast counties and $35 for the Sacramento and San Joaquin valleys.

BABY SERIOUSLY BURNED

WILLOWS, June 25. (AP)—Opal Silvers, 2 years of age, probably was fatally burned today when her sister Georgia, 5, set the baby's clothes afire with matches.

NEW VETERANS' BILL PREPARED

Veto of Johnson Measure by President Conceded

Substitute to Cover Points Raised by Hoover

Longworth Confident Terms Will be Acceptable

WASHINGTON, June 25. (AP)—Congress today prepared itself to receive tomorrow from President Hoover a veto of the Johnson Veterans' relief bill and promptly to enact substitute legislation to benefit World War service men.

With the completion today of Congressional action on the Johnson measure, the House cleared the way for quick action on the veto and for the new bill designed to meet objections raised by the Chief Executive to the one lying on his desk.

TO SUSTAIN VETO

The House will act first on the veto, the bill having originated there. More than a sufficient number of the 264 Republicans—154—pledged themselves at a closed conference last night to sustain the veto. It requires a two-thirds majority of those voting to override a veto.

Immediately after the vote is taken to sustain the veto, Speaker Longworth plans to submit the Johnson substitute bill for action under suspension of rules. Republican leaders are confident it will be passed. The Senate probably will have the measure before it Friday or Saturday.

APPROVAL SEEN

Speaker Longworth is confident the Chief Executive wil approve the substitute legislation, which will call for an additional $50,000,000 in pensions for all disabled World War service men during the first year and which will be gradually increased in three years to about $100,000,000 annually.

It carries no presumptive clause and within the first year will provide pensions ranging from $12 to $40 a month for 200,000 additional service men. There are 243,000 now receiving disability compensation from the government, exclusive of widows, orphans and other dependents.

The new measure carries a "battle casualty" clause under which veterans who lost arm or leg in battle will receive $25 a month in addition to whatever other pension they are given.

TOWNLEY IN THIRD PLACE IN ELECTION

Founder of Nonpartisan League Seeks North Dakota Nomination to Congress

FARGO (N. D.) June 25. (AP)—A. C. Townley, founder of the Nonpartisan League, who is attempting to stage a "comeback" in State politics, tonight is running third in the race for the Republican Congressional nomination from the Third District.

Early returns gave Gov. F. Shafer, seeking renomination on the Republican ticket, a three-to-one lead.

Thirty-three precincts out of 860 in the Third District gave Representative James H. Sinclair, incumbent, 2319 votes. Staale Hendrickson had 1673 and Townley 621.

WET KIN OF COOLIDGE BOURBONS' CANDIDATE

BURLINGTON (Vt.) June 25. (AP) Park H. Pollard of Cavendish, a cousin of former President Coolidge, was nominated yesterday as the Vermont Democratic party's candidate for Governor at the party's biennial caucus here. "I am absolutely against the Eighteenth Amendment and the Volstead Act and favor their repeal," Pollard said in accepting the nomination.

FORMER STANFORD ATHLETE HAS BRIDE

STANFORD UNIVERSITY, June 25. (AP)—The secret marriage in Santa Ana April 12, last, of Miss Edna E. Folkenberg of Glendale and Hugo (Swede) Leistner of Fellows was revealed here today by announcements received from the couple. Leistner, former Stanford hurdling star, graduated in 1927 and now is a petroleum engineer.

PILES AND FISTULA

During the past several years the Pacific Coast Proctological Clinic, 1117-1124 Loew State Bldg., Los Angeles, have permanently relieved thousands of Hemorrhoids (piles) sufferers without surgery or interference with their daily activities.

Probably no other group of diseases are so prevalent and common to people of all ages, in all walks of life, as those of the rectal region. And although many do not know it, these troubles are the primary cause of many others which can be eliminated only by removing the cause.

VALUABLE BOOKLET FREE

A written, telephone or personal request will provide the sufferer with a valuable booklet which will be easily understood. No charge is made for consultation or examination.

FIRST IN THE NATION

WITH JULY AHEAD

ASK YOURSELF THIS QUESTION

Cassius asks in Shakespeare's Julius Caesar, "Upon what meat doth this our Caesar feed that he is grown so great?" You might well ask what has fed the greatness of Pacific States Savings—why it has grown to be first among the 13,000 building and loan associations.

Here is the answer: Long established confidence has nourished this institution . . . a confidence that has persisted through many years because nothing in our long history has served to mar it.

This confidence we guard more zealously than ever today, through even greater factors of strength than have distinguished this institution in the past.

Study the outstanding factors of strength and liquidity displayed in our Statement. Consider the additional safeguards afforded by our loan rule of 75% which is attracting to us [illegible] first lien collateral being offered to any California building and loan association. Then, if such protection appeals to you, while, we solicit your use of our [illegible] facilities for savings.

FUNDS placed with us on or before July 10 will earn interest from July 1.

July 1st is a good time to start. We shall be glad to arrange for the transfer of your funds from other cities or the conversion of securities.

FOES DRAFTING PACT CHANGES

Move Forecasts Long Fight on Naval Treaty

Senate Will Center Attack on Cruiser Agreement

Hoover to Ignore Plea for Delayed Special Session

WASHINGTON, June 25. (AP)—Reservations to the London naval treaty are being drafted by its opponents. The opposition will concentrate its strength on a reservation declaring the treaty provision dividing cruisers into eight-inch and six-inch gun ships does not constitute a permanent surrender of the previous position by this country that it has the right to build any kind of cruisers adapted to American needs.

Advocates of the London pact continued confident of its ratification without reservation, but many persons believed the new move of the opposition means a long contest.

ADVOCATES STAND FIRM

Meanwhile, President Hoover and advocates of the pact are standing firm for prompt disposition of it despite the petition of twenty-four members for a postponement of the treaty debate until November 17, next.

Senator Watson of Indiana, the Republican leader, who has agreed to the program for prompt disposition of the treaty, announced he would look favorably upon a motion to take the treaty up at this regular session if there was any delay over adjournment after the motor-bus regulation measure and the second deficiency appropriation bill have been acted upon.

However, late developments indicated the Senate would be busy enough with its legislative program until adjournment and it was generally agreed the treaty would be laid over for the special session.

Senator Johnson, Republican of California, a leader of the treaty opposition, protested vigorously in the Senate to the plan to force immediate disposition of the treaty.

"Let us have the independence and manhood to determine for ourselves," he implored the Senate, "whether we must go in special session."

DELAY PLEA SUBMITTED

Senator Moses, Republican, New Hampshire, sent the petition to the White House urging President Hoover to defer the special session until November.

It was made known at the White House the President did not intend to answer the petition. He previously stated publicly he would call a special session.

The President called Chairman Borah of the Senate Foreign Relations Committee, to the White House to discuss the treaty situation. Senator Borah regretted that the pact should become involved in a row over procedure and made it clear it was immaterial to him whether it was taken up now or in the special session.

Assurances were given the President by some of the Republican young guard leaders that more than thirty members had signed a round robin petition pledging themselves to stay in session this summer until the treaty is ratified.

McKELLAR SAYS PACT PREVENTS TRADE PROTECTION

WASHINGTON, June 25. (AP)—Vigorous assault on the London naval treaty was made over the radio tonight by Senator McKellar, Democrat, Tennessee, in a speech replying to one over the air recently by Senator Reed, Republican, Pennsylvania.

The treaty fails to bring parity to the American fleet and fails to stop the race of navy armaments, McKellar contended. Under the agreement, he insisted, "we are put at a tremendous disadvantage in protecting our world trade."

"What is the economic result of this agreement?" asked the Tennesseean, "at most, our Navy will be able to protect our trade along the east coast of North America to a line running north and south from Newfoundland to Venezuela.

"In other words, if the agreement goes through we can protect our trade in the North Atlantic and in the Gulf of Mexico and in the Caribbean Sea and the Pacific Coast of America and that is all we can do.

"We cannot protect our trade in the Far East, or in the Atlantic other than the small portion of it above referred to, and we cannot protect it in the Indian Ocean."

The address was delivered over a nation-wide hook-up of the National Broadcasting Company.

BRITISH SUPPLEMENT SHIP-BUILDING PROGRAM

LONDON, June 25. (AP)—The First Lord of the Admiralty today told the House of Commons that supplementary estimates in the government's 1930 naval-construction program would be presented shortly for three six-inch-gun cruisers, nine destroyers, three submarines, four sloops and one net layer and target-towing vessel.

MORROW AND DAWES CONFER WITH HOOVER

WASHINGTON, June 25. (AP)—Preparing to return to their diplomatic posts, Ambassadors Morrow and Dawes today conferred with President Hoover and Secretary Stimson about the London treaty.

School Bible Reading Upheld

NEW YORK, June 25. (Exclusive) Reading of the Bible and singing of sacred hymns predicated on Scriptural doctrine in the public schools do not constitute any attack upon the religious freedom of the students, Supreme Court Justice Ford ruled today in dismissing the anti-Bible suit started by Joseph Lewis, head of the Free Thinkers' Society.

Lewis had contended that it is not within the power of the board of education to expend money for Bibles and hymn books.

STOVE BLAST VICTIM DIES

COLUSA, June 25. (AP)—Mrs. Anna Manuel, 67 years of age, died here today eight hours after an exploding gasoline stove drenched and burned her and set fire to her home.

CALIFORNIA ARTIST MARRIES IN ROME

Mrs. Perez R. Babcock
(Loren Barton)

ROME, June 25. (AP)—Perez R. Babcock of Santa Barbara, Cal., was married to the artist, Loren C. Barton of Oxford, Mass., yesterday in the Capitol, Rome's City Hall.

OXFORD (Mass.) June 25. (AP)—Miss Loren C. Barton, who was married in Rome today to P. R. Babcock, is the daughter of the late Loren and Jessie Woodbury Barton of Oxford. She was named for her father, a cousin of Clara Barton, founder of the American Red Cross.

Although born in Oxford, little of Miss Barton's life was passed here. She went to California to live with her parents when a child, and lived in the West and in Europe.

Babcock is known to Oxford relatives of his bride as an artist and a man of considerable wealth in California.

DEMOCRATIC YOUNG RUNS REPUBLICAN

His Name Will Appear on Ballot Next to That of His Rival, Gov. Young

SACRAMENTO, June 25. (AP)—Milton K. Young, Democratic candidate for Governor, paid his fee today, qualifying him to appear on the Republican ticket as well. Young's name will appear next to that of Gov. Young, who seeks re-election.

DEMOCRAT'S RACE CALLED POLITICAL PLOT

SAN FRANCISCO, June 25. (AP)—Irving Martin, Northern California manager of the campaign to re-elect Gov. Young, today said action of opponents of Gov. Young "in running Milton K. Young as a candidate for the Republican nomination for Governor is an outrageous attempt to confuse the voters."

Milton K. Young, a Los Angeles Democrat, previously had filed as the Democratic candidate.

FITTS'S CAMPAIGN AIDE DEPLORES MOVE

SAN FRANCISCO, June 25. (Exclusive) — William G. Marvin, Northern California director of the Pitts-for-Governor Campaign, today deplored the entrance of Milton K. Young, Los Angeles Democrat, as a Republican candidate for Governor, as tending to confuse voters because of the similarity of his name and that of Gov. Young. Marvin pointed out, however, that the law which makes it possible for Milton K. Young, who is running for the Democratic nomination also, to file as a Republican was sponsored by C. C. Young, the present Governor, when he was a member of the Legislature.

Officer Dying in Border Fight

LAREDO (Tex.) June 25. (AP)—Ambushed in chaparral brush within the city limits early today, Robert W. (Red) Kelsay, United States border patrolman, was critically wounded in the first clash between Federal officers and smugglers here this year. Doctors said there is little chance for Kelsay to live.

A jagged trail of blood which led twenty feet to the Rio Grande gave evidence Kelsay had wounded one of his opponents. Fellow-patrolmen believed Kelsay's assailant had tumbled into the river mortally wounded.

Though a bullet from a 45-caliber revolver penetrated his left side, Kelsay battled the band of smugglers until it was dispersed.

DELAY IN RAIL MERGER ASKED BY COMMITTEE

WASHINGTON, June 25. (AP)—The House Interstate Commerce Committee today amended its redraft of the Senate railroad consolidation resolution to forbid consummation of the proposed merger of the Great Northern and the Northern Pacific railroads until after March 4, 1931.

Since the bill had previously been approved, it will be necessary for the committee to offer its amendment formally when the measure is taken up on the floor of the House.

LAKE YIELDS SLAIN WOMAN

CHICAGO, June 25. (AP)—The body of Mrs. Ida May Galbraith, her mouth sealed with adhesive tape and her head wrapped with cheesecloth, was taken from Lake Michigan, at the foot of Hollywood avenue, early today.

RADIO PIONEER ENDS LIFE

TULSA (Okla.) June 25. (AP)—Edwin H. Rollestone, 38 years of age, who established at Bristow the first radio broadcasting station in Oklahoma, committed suicide by shooting himself yesterday in his hotel room here. Rollestone's mother, Mrs. Lulu C. Rollestone of Long Beach, Cal., came here last week to be with her son.

REBELS CROSS YELLOW RIVER

Northerners Take Tsinanfu, Shantung Capital

Nationalists Claim Victory in South China

Many Thousand Wounded Attest to Fighting

SHANGHAI, June 25. (AP)—Northern rebels fought their way across the Yellow River today and captured Tsinanfu, capital of Shantung Province. Nationalist government forces, on the other hand, claimed victories in Honan Province and South China.

It was widely reported, however, that 50,000 to 100,000 Nationalist wounded from the northern front were overtaxing hospital facilities in several towns.

While it seemed established the Nationalists are retreating southward from Tsinanfu, advices from Nanking said President Chiang Kai-shek had ordered the government forces on the Haichow-Tungkwan railway front to increase the intensity of their drive toward Kaifeng, Honan capital.

Mme. Chiang Kai-shek, wife of the President, is leading the movement of prominent women of Nanking to collect and dispatch clothing and other comforts to the Nationalist troops. Persons recently from the battle zone said Nationalist relief facilities are inadequate to supply the wounded with shelter and treatment.

The Town House
wishes you to know:

that yesterday was one of those days when the sun combined with us to make the Restaurant perfectly beautiful.

In addition to the flowers and the food and the beauty was the refreshing effect of that 72 deg. temperature of which we have told you.

We are confident this Restaurant will become the summer headquarters of you and your friends.

P.S.—Cooks' day out.

KURTZMANN
THE PIANO THAT ENDURES

There are thousands of Kurtzmann pianos in the homes of the Southwest that attest to its enduring qualities. But one must hear its beautiful tone, feel its responsive action and see its lovely design and finish to appreciate just how "unusual" a piano the Kurtzmann is at its *moderate* price.

With graduation and wedding gifts the prevailing need of the moment . . . the Birkel Music Company has assembled the newest Kurtzmanns for selection . . . in both period and conventional styles.

A small down payment . . . three years to pay.

CLAIM TO BYRD LAND PONDERED

Antarctic Problem Before State Department

Early Decision on Question Viewed as Unlikely

Precedent Stands in Way of Sovereignty Move

WASHINGTON, June 25. (AP)—Whether the United States will lay aside a century of precedent and lay claim to a part of the vast Antarctic region, was learned today to be under consideration at the State Department.

Although the Department is contemplating the claim of Rear-Admiral Richard E. Byrd to part of the snow-hid southern-most end of the world, over which he flew in his dash to the pole, it is said a decision probably will not be reached for some time.

Much of the 150,000 square miles over which Byrd flew—comprising an area roughly the size of Indiana, Illinois, Ohio and West Virginia—already is claimed by Great Britain as lying within the huge pie-segment of the Ross Dependency. Immediately to the east, however, bordering along the 150th meridian west, lies Marie Byrd Land, explored by him and hitherto unclaimed. State Department maps show the area to border partly on the coast, thereby offering a point of ingress outside the British claim.

POLICY OF PAST

Never in the past, however, has the United States declared sovereignty over any part of Antarctica, itself a land larger than all Australia and Europe, including Russia.

In 1821, Capt. Nathaniel B. Palmer, on a sealing voyage from Stoningham, Ct., became one of the original explorers of the Antarctic through finding a point of land, which was named Palmer Land.

Less than a score of years later Lieut. Wilkes of the United States Navy was dispatched there by the government with two sloops of war and four smaller vessels on a scientific and commercial exploration. He skirted the Antarctic shore for a long distance, a territory now bearing his name, although he did not land and take possession of it for the United States.

HUGHES'S OPINION

Discussing this land in 1924, Charles Evans Hughes said:

"It is the opinion of the Department of State that discovery of lands unknown to civilization, even when coupled with a formal taking of possession, does not support a valid claim of sovereignty unless the discovery is followed by an actual settlement of the discovered country."

Discoveries and, in some cases, claims have been made in the territory by Russia, Norway, France and German in addition to great Britain, despite the fact that the land today is inhabited only by penguins and seals.

The State Department has received no notes from other governments relative to claims of land in the Antarctic since 1928, when the British Ambassador offered aid to Byrd while he was in either the Falkland or Ross dependencies. The note was not acknowledged until a year later, and no comment was made on the claims of land mentioned, which include more than half a dozen sectors.

EXPLORER DATED UNTIL JULY 12, NEXT

NEW YORK, June 25. (AP)—Rear-Admiral Richard E. Byrd today continued the round of receptions held in his honor several times a day since his return from the South Pole flight last Thursday, and which wil continue until July 12. Today's program included a luncheon of the American Arbitration Association and a dinner of the Aeronautical Chamber of Commerce.

For the Arbitration Association Mrs. Vonoent Astor presented a gold medal "for unique and daring achievement for the betterment of mankind and the promotion of international good will."

COSTLY AIRPLANE BOUGHT FOR $1

Al Williams's Race Ship Cost $90,000 But Wouldn't Fly; Navy Planning Tests

WASHINGTON, June 25. (AP) A plane that cost $90,000 has been sold for $1. It would not rise from the water so Al Williams could fly it in Schneider Cup races and the Navy has bought it from a private corporation to experiment with it.

'RUM REBELLION' BOYCOTT VOTED

Wallace, Idaho, Strikes at City of Spokane

Papers Accused of Coloring Liquor Case News

Officials Convicted of Plot Given Sympathy

WALLACE (Idaho) June 25. (AP) The Wallace Board of Trade today passed a resolution admitting "that local self-government in the United States is a thing of the past," sympathizing with officials recently convicted for liquor conspiracy and calling for a trade boycott on the city of Spokane, saying that two of that city's four daily newspapers "colored all their news" of the so-called "rum-rebellion" trials.

A number of Wallace and Mullan and Shoshone county officials, convicted of conspiracy to "license" saloons to obtain money for civic purposes, contended the system was justified by public sentiment, benefited those cities, and had no element of personal graft.

"The people of Wallace and the Coeur d'Alene mining district bow today to the inevitable," said the resolution, "and admit that local self-government in the United States is a thing of the past.

"Our public officials who have sought to meet a peculiar condition surrounding the government of a mining community in an honest and open manner have been . . . convicted for a . . . technical violation of the Federal conspiracy statute.

"To these officials we offer our sympathy and not our condemnation. To their families we offer what neighborly assistance we may be able to give to helpless women and children caught on the wheel of the law.

"In this period of adversity . . . we have found that a great community (Spokane) . . . is not our friend in this hour; but, rather in, fanatical adherence to the principle of making men righteous by law, has rejoiced in our misfortune and been ready to heap opprobrium upon us . . . through the medium of their newspapers. During the course of the Mullan and Wallace trials these newspapers have colored all their news to make it appear that we live in depraved communities where vice and crime are rampant.

"The final climax . . . was reached in the glaring headlines which branded this community as a 'modern Sodom.' These last are fighting words. We uphold the citizenship of these communities and challenge our self-righteous neighbors if they be without sin to cast a stone."

DAWES NEGLECTS TO GET THAT AMERICAN HAIRCUT

CHICAGO, June 24. (AP)—Ambassador Charles G. Dawes has left for Washington and London without the haircut that was supposed to have been one of his reasons for returning to this country.

Before he sailed for America Ambassador Dawes was quoted in London as saying he was looking forward to having a "good old American haircut" again, and the houseman at the Dawes home in Evanston told newspaper men he had received cabled instructions from the Ambassador to make an appointment with Mark Fuller, an Evanston barber.

Yesterday, just before leaving for Washington, Mr. Dawes was asked if he got the haircut.

"Why, I don't even know anybody in Evanston named Mark Fuller," he replied. "I may have gone into his shop some time, but I don't remember it."

JUAREZ NAMED STATE CAPITAL

Gov. Almada Forced to Flee from Chihuahua City

Rival for Post Seizes Town; Three Deputies Killed

Official Appeals for Help to Federal Government

EL PASO, June 25. (AP)—Suddenly shifting executive headquarters from Chihuahua City to Juarez, Mex., today, after rival candidates for the Governorship attempted to impeach him, Gov. Francisco Almada tonight was ensconced in Juarez, awaiting aid from the Federal government at Mexico City.

He established the State Capitol in the Juarez City Hall.

Three State deputies were killed and others injured during an attack made by followers of Manuel M. Prieto, candidate for the Governorship of Chihuahua State, on the government palace at Chihuahua City, according to El Continental, Spanish language paper published here.

Gov. Almada, together with Andres Ortiz, candidate for Governor, flew from Chihuahua City to Juarez.

Blooming youth

Keeping the complexion of childhood is largely a matter of right nourishment. There is probably no other food-drink in all the world so wholesome and delicious as malted milk made under our special and particular process. Send ten cents for sample and mixer.

TROLLEYS SEEK END OF CHAOS

More Than $400,000,000 to be Spent in Drive

Speeding Up Traffic One of Chief Objectives

Going Into Taxicab Business Being Considered

SAN FRANCISCO, June 25. (AP)—Under plans completed here today by the American Electric Railway Association at its twenty-third annual convention almost $400,000,000 will be spent in a national drive to bring order out of the present asserted chaos in urban transportation in the United States.

The industry will spend more than $1,000,000 a day with modernization of equipment, traffic congestion relief and tax adjustment as the chief objectives.

Approximately $10,000,000 will be spent for advertising to create better understanding of transportation problems. The outstanding part of the drive, however, will be to enlist business men and property owner organizations in a co-operative move to speed up traffic.

Three men, located in strategic national centers, will lead this part of the drive. They are John H. Hanna, Washington, D. C., newly elected president; J. N. Shanahan, Omaha, chairman of the advisory council, and Charles Gordon, New York City, managing director.

The entry of street traction interests in the taxicab business was proposed at today's session by J. B. Stewart, Cincinnati, heading a special committee which recommended absorption of the taxi companies. A committee to study the proposition probably will be named before the convention closes tomorrow night.

"There is a necessity for taxi service," said F. W. Doolittle of New York City, "and the street railways must come to realize it. At present we are satisfying only one class of trade."

Amelia Earhart Makes Speed Bid

DETROIT, June 25. (AP)—Miss Amelia Earhart, the first woman to fly across the Atlantic ocean, made two flights at the Grosse Ile Airport today in an attempt to obtain recognition of a women's speed record.

Miss Earhart flew over a sixty-four-mile course at 174.9 miles per hour with a light load and then repeated the flight at a speed of 171.44 miles per hour with a 1103-pound load.

FRENCH FINANCIER KILLED BY ELEVATOR

PARIS, June 25. (AP)—Charles Georges Picot, 74 years of age, one of the foremost financiers of France, president of the Credit Industrial Commercial, was accidentally killed today. Thrusting his head in an elevator well to see if the lift was coming up, he did not perceive the car was descending. His skull was crushed.

INSANE WOMEN USE LIPSTICK

They Never Get Too Crazy to Powder and Paint, Jensen Reports

SACRAMENTO, June 25. (Exclusive)—Insane women may fail to recognize or even shun those dearest and closest to them, but give them a powder puff, some lipstick and a comb and they will make very intelligent and immediate use of the beauty aids.

So declared Earl Jensen, State Director of Institutions, in relating to the Governor's council today various means employed in the State Hospital to induce insane people to think. He said the establishment of cafeterias has helped, as it compels the patients to choose between various kinds of food.

ESPEE HEARING REOPENED

SAN FRANCISCO, June 25. (AP)—The State Railroad Commission today reopened for further hearing consideration of the class and commodity rates charged by the Southern Pacific Company from San Pedro and Wilmington to points on its coast division.

MELLON SCORES M'FADDEN BILL

Resolution to Bar Purchase of German Bonds Flailed

No Reason Seen for Congress to Dictate to Banks

Treasurer Speaks Before House Committee

WASHINGTON, June 25. (AP)—Unqualified opposition to the McFadden resolution to prohibit purchase of German reparation bonds by American banks was expressed today by Secretary Mellon on the ground it is unnecessary and that government interference with private capital would not be "sound policy."

Appearing before the House Banking Committee, the Treasury head described the measure as "meaningless" because Federal Reserve banks have no authority to purchase such bonds, national banks are limited to the purchase of "marketable" securities under regulations prescribed by the Comptroller of the Currency, and State banks are governed by State law.

Mellon said, "Good, sound foreign bonds are beneficial to the country," because the "world is getting closer every day and international loans are essential to international trade."

"There is, in my opinion," he said, "no more reason for Congress to say that a national bank should not purchase a reparation bond than to say that it should not purchase a specific railroad or industrial bond. To do so would place our government directly in the banks' management. It is unsound and unnecessary."

BOLIVIAN ENVOY RESIGNS

PARIS, June 25. (AP)—Petit Parisien today said Simon Patini, Bolivian Minister here, has resigned in protest at what was said to be the effort of former President Siles to retain the presidency for another four years in defiance of the Constitution.

WANT-AD NEWS FOR BUSINESS BUYERS

Opportunity to own and operate a combination grocery and lunch counter is now open to party interested in getting a downtown location—and advertiser states he is doing a good business.

Lease may be had today, on a service station and garage, from owner.

Party seeks buyer for his bakery and delicatessen located on Vermont avenue.

TRADE RIVALRY HELD MARS AID

Rotary Session Addressed by Canada Rail Head

Reactions to Policies of America Discussed

Competition of Industry Called War Menace

CHICAGO, June 25. (AP)—International reactions to American foreign policies were paraded today in a frank discussion by Sir Henry Worth Thornton, chairman of the Canadian National Railways, before several thousand delegates and visitors to the Rotary International's silver jubilee anniversary.

He said the sole bleak spot on the horizon of international peace is modern industry's competition in seeking adequate market outlets for production. This he called the "real menace" to world peace.

Sir Henry warned his audience modern industry should use care in driving through tariff barriers and national pride.

Following Sir Henry's address, the nominating committee reported the names of Raymond J. Knoeppel, New York attorney, and of Almon E. Roth, business manager of Stanford University, Palo Alto, Cal., as candidate for the Rotary presidency.

BABE TO SPROUT HIS OWN WINGS

Prenatal Influence Held Myth by Physician

Lindberghs' Record Flight Didn't Affect Infant

Obstetricians Say Physical Trend Only Counts

NEW YORK, June 25. (NANA)—There is no such thing as prenatal influence.

Three of this city's best and most favoraby known, obstetricians who specialize in the business of bringing healthy and hearty babies into the world agree that science has found no way to influence the moral or mental timbre of a child during maternity. The utmost science can do is to take care of the physical health of the mother so that the child may be properly nourished and protected from physical harm.

NAMES WITHHELD

Because of ethics which prevent medical men of high standing from voicing professional opinion except in pursuit of their professional work, none of the three noted physicians and surgeons would allow his name to be used in connection with the information given. All three went on record unhesitatingly against the matter of prenatal influence.

The world and his wife have been wondering about the effect of Anne Morrow Lindbergh's airplane flights with her noted husband almost on the event of the birth of the Lindbergh heir. On one such flight the agle and his mate broke the time record for a transcontinental flight.

EFFECT TO BE NIL

"The effect will be exactly nil," one of the trio of premier obstetricians who brings "little strangers" into the purlieus of the exclusive upper East Side declares. "Any danger that did exist is now passed. During these flights the chances taken by the prospective parents were—well, let us say tremendous. But, understand, these chances were purely physical. A physical accident, such as could happen to a plane, a bump or a jar might have eventuated harmfully for mother and child.

"Personally, I advise prospective mothers nearing maternity to exercise physical precaution. I do not like them to take a motor ride exceeding twenty-five miles. Many of them do—and get away with it. They gamble and win. But every gambler knows when he gambles he takes the chance of losing.

INHERIT TRAITS

"We may inherit traits, talents, the color of our hair, the color of our eyes, the conformation of our bodies. But once these are inherited they can not be influenced until contact with environment and the life around us is established.

"Our inheritance comes into our possession with the first spark of life that is ours," says the obstetrician. "Our natural moral and mental equipment is wrapped up in that first spark. Mental or moral influence cannot reach us from that moment until we are born into the world. Only the physical condition of the mother has a bearing on our bodies, nourished by her.

ALL DESIRES FAIL

"For example, a mother might like her child to be a musician. She may exert her will power, direct her desire toward the end that her child be imbued with a musical talent. She may live in an atmosphere of good music. All to no avail. His heritage is already fixed. If a musical talent was not in that first creative spark the child may become a musician through study and concentration, but it will be by his own efforts."

All three obstetricians agreed that great talents have atrophied because parents insist on using mental suasion with children after the child becomes a part of the world.

FORCING FOOLISH

"It is futile to say a boy must be as his father was; do as his father did, because the boy may have inherited his mother's traits which lead in a totally opposite direction," the man of science declared. "To force him toward unnatural goals is to deprive him of his heritage. The same is true of a girl who may have no trace of her mother's talent for music or for painting, but who may have been endowed with the traits that make a first-class lawyer or doctor.

"I take very little stock in the theory that boys inherit from their mothers and girls from their fathers," he continued. "The theory may work in 50 per cent of the cases under observation, but there is another 50 per cent to disprove it. I have known twin girls to be replicas of one another in appearance, resembling the mother or the father or neither. One will inherit the mother's temperament and traits, the other the father's. Science has established no rule in this matter."

DOUBLE HERITAGE

The son of Anne Morrow Lindbergh and the man who winged out into the blue to blaze an air path between two continents may be airminded, but there is no rule of science to establish him so. What he does inherit are the traits that make conquerors of the air. And his is a double heritage, since both mother and father are richly endowed with such traits.

COTTON WAREHOUSE PERMIT REQUESTED

SAN FRANCISCO, June 25. (AP)—The Los Angeles Compress and Warehouse Company applied to the State Railroad Commission today for authority to construct a warehouse in the Los Angeles Harbor district at an approximate cost of $172,000.

The warehouse would have 104,000 square feet of floor space and a capacity of approximately 24,000 bales of cotton.

BIRTH OF EAGLET NOW OF RECORD

Mrs. Lindbergh Files Papers and Lists Self as Flyer; Name Not Given

NEW YORK, June 25. (Exclusive) — Mrs. Charles A. Lindbergh designated herself as a professional flyer today in filing a birth certificate for her son, born last Sunday at the home of her father, Dwight Morrow, in Englewood.

The information which everyone was waiting for, however, the name of the son of Col. Lindbergh, was not forthcoming.

AID SOUGHT IN CRISIS ON GRAIN PRICE

Kansas Governor Asks Farm Board to Buy More Wheat to Halt Disaster

TOPEKA (Kan.) June 25. (AP)—Asserting Kansas, the country's largest wheat producing State, "is facing a catastrophe caused by an unduly depressed wheat price," Gov. Reed today suggested the Federal Farm Board enter the market and purchase an additional 25,000,000 bushels or more at current prices.

In a telegram to Chairman Legge of the board, the Kansas Governor suggested the board, after purchasing an additional supply, announce its entire holdings, reported at 50,000,000 bushels, would be withheld until wheat reaches "a reasonable satisfactory price level under market conditions, where the Farm Board holdings could be disposed of without disturbance of the markets.

The Governor said he believed the board "has the power at least partly to relieve the situation," and the present price of wheat "is not justified by the visible supply available for world consumption."

Indian Parley Boycott Urged

BOMBAY (India) June 25. (AP)—Boycott of the forthcoming round-table conference on India's political status today was urged on Nationalist followers of Mahatma Gandhi by Pundit Malaviya, outstanding congress leader.

In a fiery address before a great meeting in Delhi Malaviya told civil resistance volunteers to go forward with their program.

Suburban Air Trips Forecast

DENVER, June 25. (AP)—The time when suburban residents will commute between their metropolitan offices and their homes by airplane and private planes will shuttle back and forth morning and night between the city and country residence was forecast here today by Maj. Clarence M. Young of Washington, assistant Secretary of Commerce.

UNEMPLOYED REDS RIOT IN WINNIPEG

WINNIPEG, June 25. (AP)—Unemployed Communists rioted today at Winnipeg's City Hall. Three hundred jobless, refused a hearing by Mayor Webb, rushed police, who barred their entry into the building. Several were injured.

James Battie, six-foot leader of the Communists, was arrested after having battered aside a trio of policemen.

WOMAN SENTENCED IN THEATER BOMBING

SAN FRANCISCO, June 25. (AP)—Mrs. Anna Risso, arrested recently as a suspect in the Royal Theater bombing, today pleaded guilty to malicious mischief in connection with the placing of "odor bombs" in the Alhambra Theater here a year ago. She was sentenced to thirty days in the County Jail.

BRAIN DEPLETES HEART'S VIGORS

Dr. Mayo Says Man Advances Mentally at Cost

He Asserts Poet's Idea of Emotions' Seat Good

Civilization Declared to Give Extra Strain

DETROIT, June 25. (Exclusive)—Man has developed his brain at the expense of his body, Dr. William J. Mayo of Rochester, Minn., suggested at the meeting here this afternoon of the American Medical Association. The poet's notion that the heart is related closely to the emotions has a basis in fact, Dr. Mayo said. This theory has been scoffed at by scientists, who claim that the heart is merely a blood pump and we must look to the mind and nervous system for the emotions.

When the mind gained control of the body and the sympathetic nervous system lost some of its power to regulate man's actions man learned to control his emotions. This may have thrown an extra strain on the heart and accounts, perhaps, for its deterioration in civilized man. Heart disease is the leading cause of death today. The important vagus nerve which connects the brain with heart and stomach may sustain an unsuspected relationship between the heart and the emotions. Dr. Mayo called this a "supreme relationship originating in that shadowy day when hunger, fear, love and hate ruled the early ancestral state and the psychic influence of this relationship has lost none of its magic."

CONTROL CAUSES STRAIN

Very many surgeons die of heart disease, Dr. Mayo pointed out, and surgery is a profession requiring stern control of the emotions. The knowledge that a man's life lies in his hands cannot be allowed to affect the surgeon or he could not do his best work. Perhaps the extreme control which surgeons constantly exercise during most of their lives puts too much of a strain on the heart. Dr. Mayo said that this problem should be investigated clinically and also by laboratory experiments.

Infections such as rheumatic fever and syphilis are other causes of heart disease which were discussed by Dr. James B. Herrick, Chicago heart specialist. Derangement of the thyroid gland, upsets of the stomach and intestinal tract, drugs, tea, coffee and tobacco are among the causes of heart trouble, he said. The success of treatment and the patient's future depend on the physician's knowing the exact cause of the trouble, the doctors were told.

ADDICTS UNCHANGED

Opium addiction does not lead to abnormal changes of the body. Even the intense craving and severe symptoms that occur when the addict is deprived of his drug can be controlled. These were the unexpected findings of a study of opium addiction reported by Dr. Arthur B. Light of Philadelphia. He studied 100 cases carefully and was unable to find any significant changes due to the action of the drug. Hysteria is probably a frequent complication of the terrible withdrawal symptoms, he found. One of the men studied appeared to suffer intensely during the treatment for addiction and exhausted the patience of his physicians. A year later when he was arrested for shoplifting the police could not find any trace of withdrawal symptoms. The man knew that if the charge of drug addiction could be held against him he would face an additional sentence, Dr. Light explained. He therefore restrained the symptoms by an effort of will.

An unusual operation in which the strong tendon of the leg is used to strengthen a weak shoulder was described by Dr. Melvin S. Henderson of Rochester, Minn. Some people suffer from habitual dislocation of the shoulder. Various other operations have not always been successful. By the new method the strong fibers of the leg muscle are used to tie together the weak shoulder joint. The operation has been successful in every case so far, Dr. Henderson reported.

POWER CONFERENCE ENDS

BERLIN, June 25. (AP)—The world power conference, at which more than 100 American representatives were present, came to an end this afternoon with a reception.

CLARA PHILLIPS IN NEW ROLE

"Hammer Slayer" Leader of Women's Orchestra at San Quentin

SAN QUENTIN, June 25. (Exclusive)—Clara Phillips, Los Angeles "hammer murderess," has organized a seven-piece women's orchestra in this prison where she is serving ten years to life for second-degree murder. Mrs. Phillips not only leads the orchestra, it was revealed today, but with the saxophone she bought on entering the prison seven years ago takes her place among the other musicians.

Occasionally Mrs. Phillips abandons her saxophone to sing to her fellow-inmates.

WAR ON STOCK SHARKS OPENS

Unscrupulous Brokers Will be Curbed by State

Corporation Chief After Installment Men

Bucket Shop Act Called on to Banish Frauds

SACRAMENTO, June 25. (Exclusive)—Active warfare is being waged by the State Division of Corporations against unscrupulous stock brokers and "partial pay" houses that prey on newcomers to California, Fred G. Athearn, State Corporation Commissioner, today advised the Governor's Council.

Despite these brokers' claim they are not subject to the jurisdiction of the corporation commissioner, Athearn says he is convinced the operations complained of come under the Bucket-shop Act, and proposes to prosecute vigorously a number of cases.

One of the most common ways of defrauding an investor, declared Athearn, is for a broker to advertise to sell well-seasoned stocks on the installment plan, 20 per cent down, and the balance in twenty equal monthly payments, with interest. The contract contains a provision that should the price of the stock fall on the open market, below the contract price, the broker may call for the entire amount remaining unpaid, and on failure to meet the payment, the investor is sold out.

"The broker, as a matter of fact," explained Athearn, "never actually purchases these stocks, but uses the money of the investor as a margin deposit, and never acquires physical possession of the stocks until he is compelled to make delivery under the contract. The investor has absolutely no protection whatever against dishonest acts or against the failure or the insolvency of the broker. Los Angeles appears to be the field most thickly invested by these human vultures."

MOVE MADE TO AID RESERVATION STATES

WASHINGTON, June 25. (AP)—Another move looking to Federal aid in States having Indian lands not subject to State taxation was taken by the Senate today with adoption of a resolution by Senator Steiwer, Republican, Oregon.

It would authorize the Senate Indian Affairs Committee to investigate the relationship of the Federal government and such States with a view to developing a plan for an equitable contribution toward the expenses of carrying on government activities in the States.

Never Saw Its Equal in Her 34 Years' Nursing

"In my thirty-four years of nursing I never found another medicine like the new Sargon treatment. It goes to the source of troubles,

MRS. MINA PERTZBORN

eliminates the cause and restores health and strength to the sufferer," recently stated Mrs. Mina Pertzborn, 2044 Newton Ave., San Diego, Calif.

"When I went down town to buy a bottle of Sargon the conductor had to help me on and off the car. I was so crippled up from neuritis troubles in my hips, feet and legs that I couldn't walk—I just hobbled about with help, and my feet were so swollen I wore old slippers. I had indigestion dreadfully; was constipated; had bilious attacks that lasted for days; my tongue was coated and my mouth bitter. I was weak and utterly lifeless.

"Three bottles of Sargon, together with Sargon Pills, have removed all neuritis pains and swelling and I walk with ease. I have a good appetite and eat whatever I want without fear of indigestion. I'm no longer bilious or constipated; my tongue is clean and the bitter taste gone. I consider the Pills as wonderful as Sargon. They don't upset in the least and their effects are lasting. I have worlds of new strength and energy and unqualifiedly recommend Sargon."

Sargon may be obtained at all Owl Drug Stores and Liggett Drug Stores in Los Angeles and other cities.—[Advertisement]

Cuticura Healed Very Bad Case of Eczema on Top of Head.

"When I was eleven years old I had a very bad case of eczema. It was on the top of my head and the eruptions were red and watery. The irritation was so severe that it caused me to scratch, and scratching caused more eruptions. My hair fell out in bunches and was lifeless and dry. The irritation prevented me from sleeping like I should.

"A friend advised me to try Cuticura Soap and Ointment. I sent for a free sample. I purchased more and in a few months I was completely healed." (Signed) Miss Margaret Mary Isley, R. 3, La Junta, Colo., June 3, 1929.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address: "Cuticura Laboratories, Dept. M, Malden, Mass."

What's behind your telephone?

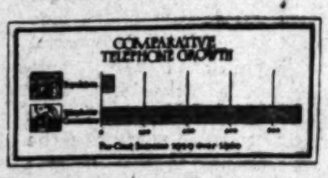
YOUR familiar, friendly telephone—what's behind it? 87 million miles of wire. Switchboards and central offices. Cables under and over the earth, and 20 million other telephones, in millions of homes, stores, and offices. And a great army of trained telephone employees.

But is there anything more behind your telephone?

Yes! And most important of all: A vision of service.

This is, that *anyone, anywhere,* shall be able to talk quickly and at reasonable cost with *anyone, anywhere else.*

This vision of service in the Bell System is helping to make the world one big neighborhood.



This little chart indicates what a telephone age this is. Since 1900, telephone usage in the nation has grown about 10 times faster than population.

SOUTHERN CALIFORNIA TELEPHONE COMPANY

Dr. H. H. Bunzell

Ph.D., University of Chicago

says: "Colgate's is made from the most effective cleansing agents..it is to be preferred"

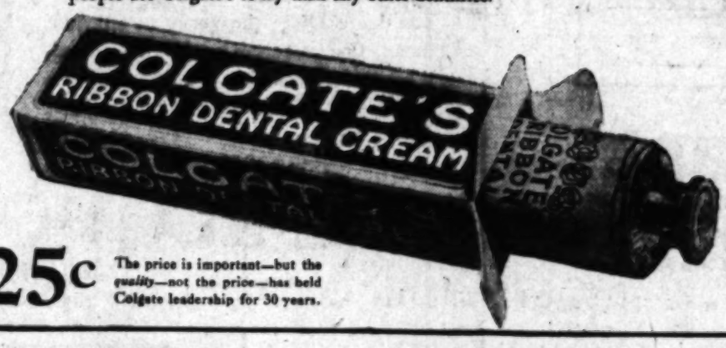
For years Dr. H. H. Bunzell studied dentifrices under a fellowship in a great eastern university. His findings, now published in a series of scientific bulletins, have shed much light on a common question of the day: What can a dentifrice really do?

DR. H. H. BUNZELL knows what a dentifrice should do. *And so he approves Colgate's.* For Colgate's action is totally different from sluggish, pasty dentifrices.

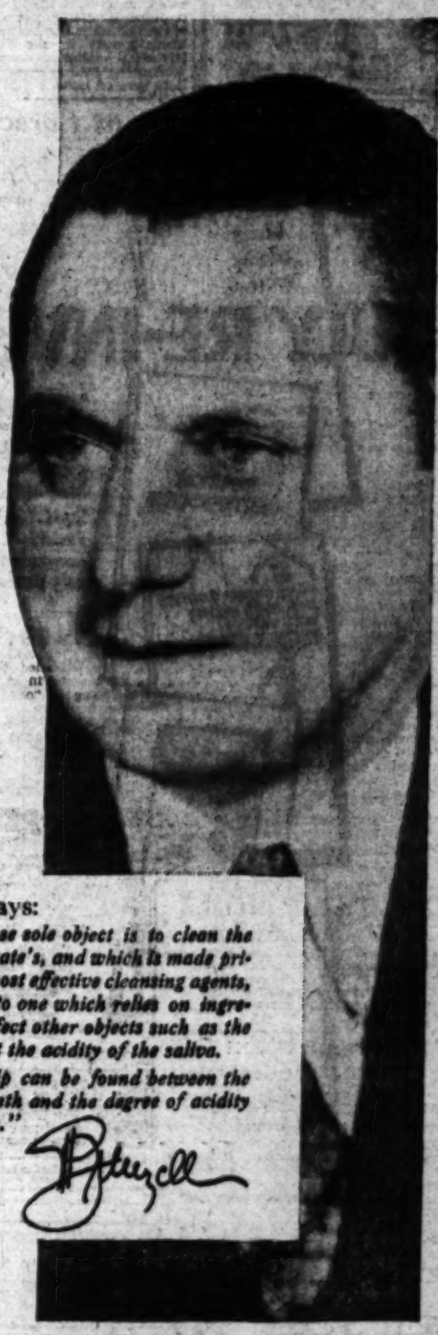
Different because of its superior power to penetrate the tiny crevices where decay starts. Different because the penetrating foam flushes away the food particles which collect in these hard-to-reach places where sluggish toothpastes never reach. Thus Colgate's leaves the hidden as well as exposed surfaces healthfully and thoroughly clean.

Dr. Bunzell's statement is the result of his scientific tests in which he proved that Colgate's is made primarily from the most effective cleansing agents.

Agreeing with him are such eminent authorities as Dr. Hardee Chambliss, Ph.D., Johns Hopkins University; Dr. Shirley Wynne, Commissioner of Health of New York City, and scores of others equally well known who have been retained to make analytical tests and to render their expert opinions. On dental advice more people use Colgate's today than any other dentifrice.



25c The price is important—but the *quality*—not the price—has held Colgate leadership for 30 years.



Dr. Bunzell says:
"A dentifrice whose sole object is to clean the teeth, such as Colgate's, and which is made primarily from the most effective cleansing agents, is to be preferred to one which relies on ingredients put in to affect other objects such as the attempts to correct the acidity of the saliva.

"No relationship can be found between the condition of the teeth and the degree of acidity found in the saliva."

Dr. H. H. BUNZELL
Ph.D., University of Chicago; Director of the Bunzell Research Laboratories, New York City; formerly Bio-Chemist, U. S. Government; recent Professor of Bio-Chemistry, University of Cincinnati Medical School.

TREAT that corn intelligently

"Good skin gone wrong:" so doctors describe a corn. To cure it, get rid of the disturber without harming the tender tissues beneath. For 30 years Blue-jay has been the recognized safe, gentle 3-day *treatment* for banishing corns. It ends pain, guards the sensitive spot from pressure. Made by a noted producer of surgical dressings. At all druggists. 6 for 25c.

ROADS BILL AIDS STATES IN WEST

Thirteen Will Benefit Under Oddie-Colton Measure

Federal Help Authorized in Highway Construction

Funds to Be Spent on Indian and Unreserved Lands

WASHINGTON, June 25. (AP)—Thirteen western States will benefit by the Oddie-Colton bill just signed by President Hoover. It authorizes Federal co-operation in construction of roads through unreserved public and Indian lands.

Funds authorized under the act will be available only to States which have more than 5 per cent of their area in nontaxable Federal lands.

66.8; New Mexico, 37.7. South Dakota and Oklahoma also will benefit.

The House Roads Committee, reporting favorably on the bill, said: "It has long been recognized as most desirable that some means be found to hasten completion of the main roads that cross these untaxed Federal reservations in States whose resources are limited and which derive very little direct benefit from the construction of highways across these lands owned by the Federal government. It is believed passage of the pending bill will be of real assistance in that regard."

The act carries no authorizations for this year but Senator Oddie, Nevada, coauthor said annual authorization of at least $3,500,000 will be asked at the next session. He explained that the money will be used on Federal highways crossing the unreserved public and Indian lands.

The eleven so-called public land States that will receive the greatest benefit, and the proportion their unreserved public and Indian lands bear to total area, follow:

Washington, 30.6; Oregon, 45.6; California, 40.7; Idaho, 57.3; Nevada, 84.2; Montana, 30.8; Wyoming, 51.8; Utah, 66.3; Colorado, 32.2; Arizona,

Bolivia Army Mutiny Fails

LA PAZ (Bolivia) June 25. (AP) An official communique issued tonight by the Council of Ministers said a regiment of troops in the town of Oruro attempted to start a revolution this morning.

The communique said the attempt failed and the soldiers were confined to quarters.

ENDEAVORERS CONVENE

SACRAMENTO, June 25. (AP)—With a prayer service and welcome addresses by Gov. Young and Mayor Bidewell, the annual convention of the California Christian Endeavor Union opened in the Sacramento Memorial Auditorium tonight. Approximately 2000 delegates and visitors were on hand.

STAIR CLIMBING CRISIS LOOMS

New York Elevator Men's Union Has Set Strike Start for Monday

NEW YORK, June 25. (Exclusive)—Residents and office workers in New York skyscrapers may have to do some tall and lofty stair climbing if the threatened elevator operators' general strike, embracing 45,000 men throughout the city, goes into effect. It is scheduled for Monday. The elevator men's union wants a new wage scale.

ROOSEVELT FOE DIES IN NEW YORK

'Boss' Barnes, Once G.O.P. Leader, Gained Notoriety by Suing Nominee

NEW YORK, June 25. (AP)—William Barnes, 64 years of age, former Republican leader of the State, died at his home in Armonk today after a week's illness of pneumonia.

He published the Albany Evening Journal for a number of years and was a member of the Republican State Committee from 1892 to 1914 and its chairman from 1911 to 1914. From 1912 to 1916 he was a member of the Republican National Commitee.

He was referred to by his political opponents as "Boss" Barnes.

During the campaign of 1912 former President Theodore Roosevelt, Presidential nominee of the Progressive party, in a political speech referred to Mr. Barnes as "a corrupt leader." Barnes retaliated by suing Roosevelt. The trial ended in a verdict for Col. Roosevelt.

GLENDALE RAILWAY WOULD QUIT WORK

SAN FRANCISCO, June 25. (Exclusive)—The Glendale and Montrose Railway no longer is able to operate profitably, due partly to stage line development by the Pacific Electric and Motor Transit Company, according to a petition filed with the State Railroad Commission seeking authority to abandon service on its lines from Glendale to La Crescenta and Eagle Rock.

PIONEER ENDS LIFE

MENLO PARK, June 25. (AP)—Charles Murray, 75 years of age, Menlo Park pioneer who participated in the Nevada gold rush to Comstock lode, committed suicide at his home here today by drinking poison. His health had been failing.

GRAPE SIGN-UP DRIVE LAGGING

Approximately 35 Per Cent Lacking to Date

Only Two Weeks More; Date Can't be Put Off

Chairman Giffen Warns of Need for Action

FRESNO, June 25. (Exclusive)—With but fourteen days remaining before the campaign to place the Federal Farm Board's grape industry plan in operation closes, the campaign workers must sign up approximately 35 per cent of the vineyard acreage of the State, if the campaign to obtain control of 85 per cent of the annual production is to be successful. This announcement was made today by Wylie M. Giffen, chairman of the campaign organization, who said that contracts for approximately 240,000 acres have been signed, or slightly more than 50 per cent of the total State acreage, recently estimated by E. E. Kaufman, State agricultural statistician, at 551,000 acres.

The campaign organization has received contracts covering 209,762 acres and approximately 30,000 acres more have been signed but the contracts have not been delivered to the headquarters here, he said. Although eight weeks' work has been required to sign up the acreage reported by Giffen, the volunteer workers must obtain contracts to bring the total to 468,350 acres by July 9, the closing date of the campaign, if the 85 per cent margin set by the Farm Board is achieved.

Giffen said that the closing date of the drive cannot again be postponed.

PHOENIX BONDS CARRY

PHOENIX, June 25. (AP)—Phoenix taxpayers today voted indorsement of four municipal bond issues aggregating $3,422,000, two of which provide for the rehabilitation of the water and sewer systems.

Plea of Briggs Widow Upheld

NEW YORK, June 25. (AP)—Marie C. Briggs's contention that she is the widow of Clare Briggs, cartoonist, was upheld today by a Surrogate Court.

The Surrogate held she had established that she was the common-law wife of the artist. The will left most of the estate to Ruth Owen Briggs, divorced wife of Mr. Briggs. The decision enables Marie C. Briggs to contest the will of the cartoonist.

Mae Murray Sues Tiffany

NEW YORK, June 25. (AP)—Mae Murray, motion-picture actress, filed suit today against Tiffany Productions, Inc., asking $300,000.

She said she appeared for the corporation in eight pictures, in which she contracted for a percentage interest.

She charged she should have received at least $300,000, but that the company gave her a statement saying her share was $12,500.

THREE EARTHQUAKES RECORDED IN CAPITAL

WASHINGTON, June 25. (AP)—Three earthquakes were recorded today on the seismograph at Georgetown University. Two were recorded early this morning while the third began at 4:30 p.m., reached its maximum at 4:53 and continued until after 6 o'clock. It was estimated to have been 3300 miles from Washington, but the direction was not determined. It was of moderate intensity.

NEW YORK BANKER DIES

SAN FRANCISCO, June 25. (AP)—Harden L. Crawford, prominent New York banker and capitalist, died at Dante Sanatorium today from an apoplectic stroke suffered while lunching with friends here yesterday. He was 55 years of age.

MALTA QUARREL HELD DEADLOCK

Row With Vatican Reviewed Before House of Lords

Colonies Minister Scores Fight on Strickland

Attempt to Direct British Reign Censured

LONDON, June 25. (AP)—Lord Passfield, Minister for Colonies, today told the House of Lords that the situation in Malta at present is at a deadlock between the British government and the Vatican.

The Colonial Minister said the Vatican had stipulated that Lord Strickland, Premier of Malta, should not remain in office.

"It would be intolerable," he said, "that any foreign authority, even the Vatican, should say that it would not endure the presence in His Majesty's service of any particular person.

"The British government on its side has informed the Vatican that a resumption of negotiations must be conditional on orders being given by the Holy See to the bishops of Malta and Gozo which would restore to the people of Malta their complete freedom to exercise political rights."

These instructions, he said, have not as yet been given by the Vatican. The deadlock is the consequence, he asserted.

FOREIGN WAR ORDER SHOWS POSTS GAINING

SANTA CRUZ, June 25. (AP)—Reports read at today's opening session of the tenth annual State encampment of Veterans of Foreign Wars, revealed that during the past year twenty new posts were installed in eleven counties, with a membership of 1400.

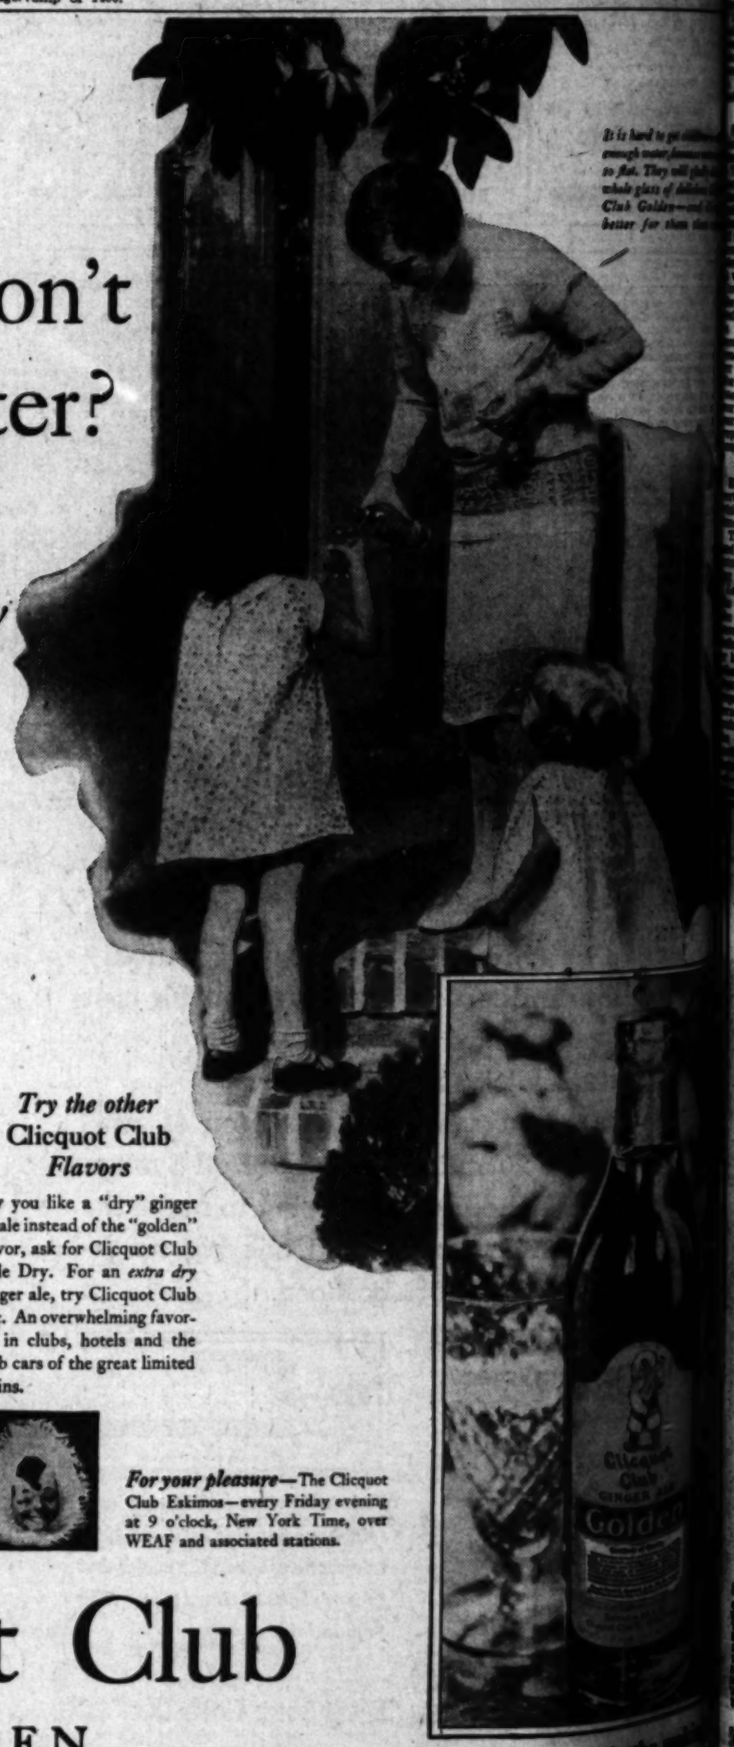
Children won't drink water?

Give needed liquids this easy way



CHILDREN seldom like to drink all the water they should. Water is so flat.

Here's an easy way to get children to take the liquid they need—in health-giving abundance. Open a pint of cool "beady" Clicquot Club Golden ginger ale in the morning, and in the afternoon.

It's good for them in every way. Besides the large liquid content, Clicquot Club Golden contains syrups of real fruit flavors, and "invert" sugar to produce quick new energy.

Make Clicquot Club a regular between-meals habit at your house. Quickly you'll see your children's appetites improve, their energy unflagging all day long!

There's a mellow goodness about Clicquot Club that comes from long, patient ageing, which blends the pure Jamaica ginger root and the other ingredients in one rich, delicious flavor.

So many ginger ales are manufactured in haste, because of the great demand for the rich flavor of "golden" ginger ale. Insist on Clicquot Club Golden, the golden ginger ale that is aged six months in the making.

You'll appreciate the purity of Clicquot Club too. Clicquot Club is sold only in clean, new bottles never used before. Full measure pint bottles that offer real economy in buying.

Try the other Clicquot Club *Flavors*

If you like a "dry" ginger ale instead of the "golden" flavor, ask for Clicquot Club Pale Dry. For an *extra dry* ginger ale, try Clicquot Club Sec. An overwhelming favorite in clubs, hotels and the club cars of the great limited trains.

For your pleasure—The Clicquot Club Eskimos—every Friday evening at 9 o'clock, New York Time, over WEAF and associated stations.

ITSELF MAIN ISSUE

...effort is being made to di... attention from the main issue, ...is that on American soil ...ibition must rule.

...ibition, the bootlegger ...d the respectable buyer of ...ggled liquor are all contributor... to the violation of law.

...ibition is not to be turned aside from ...main issue. It is not whether ...ibition Czars, in the perform... of their duty, ran counter to a ...ain statute; it is not whether ...ibition will poison liquor or ...ibition will permit of liquor for the holi... It is not whether we need ...ibition or a change in ...ibition. The real issue is that ...ibition, having been enacted by ...ful process of government, ...s maintained by no less ...ority than that of the Supreme ...rt of the United States.

PROHIBITION BEST

With the present higher wages and the high cost of commodities the sum total would have been greatly increased by this time, had the old system of dealing with the traffic been continued.

Why is national prohibition the best method for dealing with the liquor traffic?

First—Prohibition is the logical method of dealing with an evil.

Second—It makes the liquor evil uniformly an outlaw in every corner of the nation.

Third—It prohibits everything in the liquor business: manufacture, sale, transportation, importation, exportation of intoxicating liquor.

Prohibition has disclosed no new attitude of its opponents, for the liquor traffic always has broken the law.

The bootlegger is blamed for law violation. He would not exist if people did not buy his liquors, neither could he exist if only the criminal classes patronized him. It is the rich, the influential, who still believe in moderate drinking; those in high positions who claim the right to violate the law, who lead the way and are supported by the lawless classes.

MODERATE DRINKER SCORED

The moderate drinker is the great trouble-maker. No total abstainer will become a drunkard. Every drunkard was one time a moderate drinker.

Restore the legal sale of intoxicati... liquor, even under State control, with moderate restrictions, and every restriction will be violated. It was so before prohibition, it is so now. It was even stated recently before the Judiciary Committee of the House of Representatives by one of the witnesses that under no circumstances would he obey the prohibition law.

There is no place in America for a traffic which refuses or even a group of people who refuse to obey the laws of our country. The prohibition of the beverage traffic is incorporated in the Constitution and is binding on all the people. Greed or appetite is no excuse for violating it.

OPPONENTS CHALLENGED

We challenge the opponents of prohibition to tell us what they have done to help make prohibition a success. Have they obeyed the constitutional provisions of the law? Have they set young people the example of law obedience? What have they done to create respect for law?

Prohibition is the best method yet tried of dealing with the liquor traffic, and the law should not be changed at the demand of those who violate it. Beer and wine would not satisfy, and the demand granted would be the opening wedge for the return of the saloon.

The drink habit cannot exist without a drink traffic. Let us obey the prohibition law, break the drink habit and thus break the drink traffic. That is the purpose of the prohibition law. Prohibition is the result of orderly processes. It has been sustained by forty decisions of the Supreme Court. To refuse to obey the prohibition law is a species of anarchy condemned by leaders of state, and responsible in part for the reckless criminality of the age.

HOOVER SUPPORTED

The experience of the Woman's Christian Temperance Union covering two generations of women and participation in many methods of dealing with the drink habit and drink traffic convinces us that prohibition is the best method of dealing with the liquor traffic. We are heartily supporting President Hoover's recommendations for the strengthening of enforcement legislation and are continuing our educational campaign for total abstinence and in support of prohibition.

No consideration of party lines, tariff or taxes will divert the masses of women who love their homes and their children from their conviction, supported by their intuition and the logic of events that the legal sale of intoxicating liquors will result in increased danger to all they hold dear. American motherhood can be depended upon to protect the American home.

Prohibition changed the relation of the government to the liquor traffic. Before prohibition it was legalized; now it is an outlaw. As patriotic citizens we pledge our loyalty to the Constitution and obedience to its provisions. The Woman's Christian Temperance Union invites all women who are like minded with us in desiring to give prohibition a chance to unite with us by signing the pledge of total abstinence, which in these days is a pledge of law observance and by paying into the treasury of the local W.C.T.U. $1 annually.

WOMEN ENEMY TO DRINK

No matter what odds have been against them, women have always hated the drink habit and the drink traffic. In the darkest hours of the domination of the saloon politicians and the overwhelming surface evidence of power on the part of the entrenched liquor traffic, women have always been the force which has stood unflinchingly against the saloon, the drink habit and the drink traffic. Even today, no matter what straw votes may show; no matter what magazine polls, gathered largely from lists of men, may show; no matter how bitter, widespread and insidious the attack made upon it, American women will not let go. A militant army of God-fearing women, banded together for the protection of the home, will not fail their country or their homes. The Nineteenth Amendment will safeguard the Eighteenth.

MILITARY TRAINING RULE HELD LAWFUL

WASHINGTON, June 25. (AP)—Atty.-Gen. Mitchell sustained the Interior Department today in ruling students at land-grant colleges cannot be required to take military training. Secretary Wilbur has held the University of Wisconsin lawfully could place military training on an optional basis. The Mitchell opinion said land-grant colleges and other institutions affected by the Morrill Act and similar laws comply sufficiently with the law when they make military courses available. Land-grant colleges are those who receive revenue from land set aside by the Federal government in each State to aid agricultural and mechanical education.

FINE IMPOSED IN DEATH CASE

Cash Penalty Set for Slaying of Girl

[P. & A. Photo]

Elyda Anderson and Roy Secrest

BOONEVILLE (Mo.) June 25. (Exclusive)—What is probably one of the strangest verdicts ever recorded in any court in this country was handed down here in the case of Roy Secrest, found guilty of manslaughter in connection with the death of Elyda Anderson, his fiancee. The jury recommended Secrest's punishment be a $500 fine.

Secrest was on trial for the second time, charged with having pushed his sweetheart out of an automobile, causing her death. Conflicting evidence in the first trial resulted in a hung jury.

HOOVER MAY BE ABLE TO CURB ALIENS

Congress Asked in Bill to Permit Immigration Ban as Employment Aid

WASHINGTON, June 25. (AP)—President Hoover would be empowered to limit or suspend immigration to relieve unemployment under a resolution introduced today by Representative Cable, Republican, Ohio. He said he will attempt to obtain enactment of the resolution before Congress adjourns.

The Ohioan said an examination of laws of other countries showed many of them have provisions to bar immigrants if their entrance adversely affects economic conditions.

The Wagner bill to establish a nation-wide system of State employment exchange agencies under Federal aid to combat unemployment was approved today by the House Judiciary Committee.

This action placed before the House the last of the three companion bills introduced by Senator Wagner, Democrat, New York, already passed by the Senate.

Flames Destroy Air Equipment Worth Millions

CHICAGO, June 25. (AP)—Two hangars and twenty-seven airplanes, twelve of them trimotor passenger planes, were destroyed by fire at the municipal airport early today. The loss was estimated at more than $2,000,000.

Official announcement was made at the offices of the Universal Airlines that all schedules, both passenger and mail planes, will be flown without interruption. To do this, planes were started for Chicago at dawn from Cleveland, Kansas City, St. Louis and Tulsa. Upon arrival here, they were to be serviced and sent into the air on the regular routes.

The estimate of the loss by Universal officials was more than $2,000,000. An elaborate machine shop, representing an investment, they said, of $750,000, and much spare equipment were destroyed.

Jury Convicts Capone's Aide

CHICAGO, June 25. (Exclusive)—Jack (Machine Gun) McGurn, one of the main Capone lieutenants, was convicted by a jury today in Judge Frankhauser's court of a charge of carrying concealed weapons. He faces a term of one year in the County Jail or a fine of $200, or both.

The conviction of McGurn makes the second well-known gangster to be convicted in Criminal Court of gun-toting by State's Attorney Swanson's assistants in the last two weeks.

INSTITUTE OF FACTS ASKS STATE CHARTER

SACRAMENTO, June 25. (AP)—The National Institute of Facts, designed to "promote greater enforcement of national, State and municipal laws," filed articles of incorporation with the Secretary of State here today. The organization was created in Los Angeles.

The articles stated that the institute plans to engage in public affairs by independent means and through political parties and to maintain a representative in Washington, D. C., and Sacramento.

Directors named are J. A. Clarety, E. L. Sisson, J. W. Rhodes, H. L. Morrison and E. J. Kane, all of Los Angeles.

PROBATION GRANTED TO ACCUSED MOTHER

SAN FRANCISCO, June 25. (AP)—Mrs. Bertha McCandless, who confessed setting fire to the plant of the Michel & Pfeffer iron works here to destroy evidence of false entries she made in the company's books, was granted probation on the forgery charge today at the request of company officials. She is the mother of three children. A charge of arson remaining against her will be heard July 31.

WOMEN WILL FIGHT HARD TO KEEP ANTI-RUM LAW

National W.C.T.U. Head Asserts Nineteenth Amendment Will Safeguard Eighteenth

This is the fourth of a series of articles discussing current phases of the prohibition question written for The Times by nationally prominent leaders of organizations favoring prohibition and law enforcement. The articles will appear in The Times from time to time.

BY ELLA A. BOOLE

President, National Woman's Christian Temperance Union

Ten years is a short time in which to see the benefit of any law, especially when the enforcement of the law is bitterly opposed and when new machinery must be created for enforcement. A boy 10 years of age has not reached maturity. Proper food and clothing, education and the right kind of environment are essential for his growth.

In his wonderful possession not only his parents but community at large must give a chance. The same is true of prohibition, and it, too, must be given its chance.

The hearings before the Judiciary Committee the benefits of prohibition were fully shown. An effort was made to discredit this testimony, but certain facts stood unassailably.

ENFORCED LOCAL OPTION

The saloon is gone and even the liquor interest wet does not want it to return. Before prohibition its opponents never objected to the saloon as they called it the "poor man's club." The brewers' association, the distillers and the hotel keepers' association, accepting it as a part of the settlement, but never said a word against its character or its right to exist. These same people opposed local option, but now they declare for local option. Why did they change? Because local option was not pursued as a means of driving the saloon out of the community; they favor it as a means of controlling both the sale of wine and beer and even hard liquors.

The only reason it's a benefit that the saloon is gone and that before the war, when the whole attitude of government has changed toward the liquor traffic. Then it was a necessary institution; now it is an evil.

FIGURES TWISTED

Some things may be proven by statistics, but even figures are sometimes twisted.

The results of prohibition have been a tremendous uplift with the observance of the law and the degree of temperance. Every citizen who has been for and been spoken well of has made a contribution to the cause of freedom. Some have done it willingly, others because they had to do it. A noisy minority in every community, as if it would counteract the gains of enforcement, is attempting to discredit prohibition. The occasion of President Hoover in his message to Congress made four specific recommendations to better enforcement. Impatient because the Law Enforcement Commission has not yet reported, even some of those who have joined forces with the drys in demanding a quick report and even a change in personnel.

THE ITEM ITSELF MAIN ISSUE

Every effort is being made to divert attention from the main issue, which is that on American soil the law must rule.

The bootlegger, the bootlegger and the respectable buyer of intoxicating liquor are all contributors to the violation of law.

Laws are not to be turned aside from time to time. It is not whether Congress, in the performance of its duty, ran counter to a certain number; it is not whether the people still poison liquor or whether a demand for the holiday is not whether we need more legislation or a change in the Constitution. The real issue is that a law has been enacted by the constituted authority of government, maintained by no less than the decisions of the Supreme Court, should be supported by the American people first, because it is a good law; second, because it is the law, and third, the very foundations of our government rest upon the government itself being able not only to make its laws but to enforce them as well.

CONFUSION IN ENFORCEMENT

State prohibition by legislative enactment or amendment to the State constitution was adopted in thirty-three States before national prohibition became operative. Here enforcement was complicated because every State had a border line and the wet States interfered with enforcement in the dry States. The laws in the States differed in detail and this resulted in confusion, while the liquor traffic itself had become a great power dominating politics and even dictating policies of government. It was fully organized. The National Brewers' Association, the Distillers' Association, the retail liquor dealers' associations were always represented by highly paid lawyers at legislative hearings to oppose bills to provide for local option or for State-wide prohibition bills. More than $2,000,000,000 was spent for liquor in a single year in the United States, and that before the war, when wages and salaries were much lower than now. Ninety-five per cent of this money was spent for beer and wine.

PROHIBITION BEST

With the present higher wages and the high cost of commodities the sum total would have been greatly increased by this time, had the old system of dealing with the traffic been continued.

Why is national prohibition the best method for dealing with the liquor traffic?

First—Prohibition is the logical method of dealing with an evil.

Second—It makes the liquor evil uniformly an outlaw in every corner of the nation.

Third—It prohibits everything in the liquor business: manufacture, sale, transportation, importation, exportation of intoxicating liquor.

Prohibition has disclosed no new attitude of its opponents, for the liquor traffic always has broken the law.

The bootlegger is blamed for law violation. He would not exist if people did not buy his liquors, neither could he exist if only the criminal classes patronized him. It is the rich, the influential, who still believe in moderate drinking; those in high positions who claim the right to violate the law, who lead the way and are supported by the lawless classes.

MODERATE DRINKER SCORED

The moderate drinker is the great trouble-maker. No total abstainer will become a drunkard. Every drunkard was one time a moderate drinker.

Restore the legal sale of intoxicating liquor, even under State control, with moderate restrictions, and every restriction will be violated. It was so before prohibition, it is so now. It was even stated recently before the Judiciary Committee of the House of Representatives by one of the witnesses that under no circumstances would he obey the prohibition law.

There is no place in America for a traffic which refuses or even a group of people who refuse to obey the laws of our country. The prohibition of the beverage traffic is incorporated in the Constitution and is binding on all the people. Greed or appetite is no excuse for violating it.

OPPONENTS CHALLENGED

We challenge the opponents of prohibition to tell us what they have done to help make prohibition a success. Have they obeyed the constitutional provisions of the law? Have they set young people the example of law obedience? What have they done to create respect for law?

Prohibition is the best method yet tried of dealing with the liquor traffic, and the law should not be changed at the demand of those who violate it. Beer and wine would not satisfy, and the demand granted would be the opening wedge for the return of the saloon.

The drink habit cannot exist without a drink traffic. Let us obey the prohibition law, break the drink habit and thus break the drink traffic. That is the purpose of the prohibition law. Prohibition is the result of orderly processes. It has been sustained by forty decisions of the Supreme Court. To refuse to obey the prohibition law is a species of anarchy condemned by leaders of state, and responsible in part for the reckless criminality of the age.

HOOVER SUPPORTED

The experience of the Woman's Christian Temperance Union covering two generations of women and participation in many methods of dealing with the drink habit and drink traffic convinces us that prohibition is the best method of dealing with the liquor traffic. We are heartily supporting President Hoover's recommendations for the strengthening of enforcement legislation and are continuing our educational campaign for total abstinence and in support of prohibition.

No consideration of party lines, tariff or taxes will divert the masses of women who love their homes and their children from their conviction, supported by their intuition and the logic of events that the legal sale of intoxicating liquors will result in increased danger to all they hold dear. American motherhood can be depended upon to protect the American home.

Prohibition changed the relation of the government to the liquor traffic. Before prohibition it was legalized; now it is an outlaw. As patriotic citizens we pledge our loyalty to the Constitution and obedience to its provisions. The Woman's Christian Temperance Union invites all women who are like minded with us in desiring to give prohibition a chance to unite with us by signing the pledge of total abstinence, which in these days is a pledge of law observance and by paying into the treasury of the local W.C.T.U. $1 annually.

WOMEN ENEMY TO DRINK

No matter what odds have been against them, women have always hated the drink habit and the drink traffic. In the darkest hours of the domination of the saloon politicians and the overwhelming surface evidence of power on the part of the entrenched liquor traffic, women have always been the force which has stood unflinchingly against the saloon, the drink habit and the drink traffic. Even today, no matter what straw votes may show; no matter what magazine polls, gathered largely from lists of men, may show; no matter how bitter, widespread and insidious the attack made upon it, American women will not let go. A militant army of God-fearing women, banded together for the protection of the home, will not fail their country or their homes. The Nineteenth Amendment will safeguard the Eighteenth.

FINE IMPOSED IN DEATH CASE

Cash Penalty Set for Slaying of Girl

[P. & A. Photo]

Elyda Anderson and Roy Secrest

BOONEVILLE (Mo.) June 25. (Exclusive)—What is probably one of the strangest verdicts ever recorded in any court in this country was handed down here in the case of Roy Secrest, found guilty of manslaughter in connection with the death of Elyda Anderson, his fiancee. The jury recommended Secrest's punishment be a $500 fine.

Secrest was on trial for the second time, charged with having pushed his sweetheart out of an automobile, causing her death. Conflicting evidence in the first trial resulted in a hung jury.

HOOVER MAY BE ABLE TO CURB ALIENS

Congress Asked in Bill to Permit Immigration Ban as Employment Aid

WASHINGTON, June 25. (AP)—President Hoover would be empowered to limit or suspend immigration to relieve unemployment under a resolution introduced today by Representative Cable, Republican, Ohio. He said he will attempt to obtain enactment of the resolution before Congress adjourns.

The Ohioan said an examination of laws of other countries showed many of them have provisions to bar immigrants if their entrance adversely affects economic conditions.

The Wagner bill to establish a nation-wide system of State employment exchange agencies under Federal aid to combat unemployment was approved today by the House Judiciary Committee.

This action placed before the House the last of the three companion bills introduced by Senator Wagner, Democrat, New York, already passed by the Senate.

Flames Destroy Air Equipment Worth Millions

CHICAGO, June 25. (AP)—Two hangars and twenty-seven airplanes, twelve of them trimotor passenger planes, were destroyed by fire at the municipal airport early today. The loss was estimated at more than $2,000,000.

Official announcement was made at the offices of the Universal Airlines that all schedules, both passenger and mail planes, will be flown without interruption. To do this, planes were started for Chicago at dawn from Cleveland, Kansas City, St. Louis and Tulsa. Upon arrival here, they were to be serviced and sent into the air on the regular routes.

The estimate of the loss by Universal officials was more than $2,000,000. An elaborate machine shop, representing an investment, they said, of $750,000, and much spare equipment were destroyed.

Jury Convicts Capone's Aide

CHICAGO, June 25. (Exclusive)—Jack (Machine Gun) McGurn, one of the main Capone lieutenants, was convicted by a jury today in Judge Frankhauser's court of a charge of carrying concealed weapons. He faces a term of one year in the County Jail or a fine of $500, or both.

The conviction of McGurn makes the second well-known gangster to be convicted in Criminal Court of gun-toting by State's Attorney Swanson's assistants in the last two weeks.

INSTITUTE OF FACTS ASKS STATE CHARTER

SACRAMENTO, June 25. (AP)—The National Institute of Facts, designed to "promote greater enforcement of national, State and municipal laws," filed articles of incorporation with the Secretary of State here today. The organization was created in Los Angeles.

The articles stated that the institute plans to engage in public affairs by independent means and through political parties and to maintain a representative in Washington, D. C., and Sacramento.

Directors named are J. A. Clarety, E. L. Sisson, J. W. Rhodes, H. L. Morrison and E. J. Kane, all of Los Angeles.

PROBATION GRANTED TO ACCUSED MOTHER

SAN FRANCISCO, June 25. (AP)—Mrs. Bertha McCandless, who confessed setting fire to the plant of the Michel & Pfeffer iron works here to destroy evidence of false entries she made in the company's books, was granted probation on the forgery charge today at the request of company officials. She is the mother of three children. A charge of arson remaining against her will be heard July 31.

MILITARY TRAINING RULE HELD LAWFUL

WASHINGTON, June 25. (AP)—Atty.-Gen. Mitchell sustained the Interior Department today in ruling students at land-grant colleges cannot be required to take military training. Secretary Wilbur has held the University of Wisconsin lawfully could place military training on an optional basis. The Mitchell opinion said land-grant colleges and other institutions affected by the Morrill Act and similar laws comply sufficiently with the law when they make military courses available. Land-grant colleges are those who receive revenue from land set aside by the Federal government in each State to aid agricultural and mechanical education.

...Le dejó su voto al senador Watson

...WASHINGTON, Junio 25.—Después de manifestar que sólo nueve días ha estado ausente del senado en veintiocho años de servicios, el senador Smoot, veterano presidente de la comisión de Hacienda, se puso hoy en pie y anunció a sus colegas que se iba a ir de vacaciones.

Le dejó su voto al senador Watson, líder republicano, y dijo que confiaba en que sus colegas no le acusarían de abandono de empleo.

...a nadie que se llame Mark Fuller", contestó el diplomático: "bien puede ser que haya yo entrado alguna vez en su peluquería; pero no lo recuerdo".

Celador Aduanal Moribundo en Laredo

LAREDO (Tejas), Junio 25.—Emboscado en el chaparral, dentro de este término municipal, fue herido gravemente esta mañana Robert W. Kelsey, celador de la frontera de los Estados Unidos, en el primer encuentro que ha habido aquí este año entre autoridades federales y matuteros. Opinan los doctores que tiene pocas probabilidades Kelsey de salvar la vida.

Una quebrada huella de sangre, que se extiende por veinte pies y remata en el Río Bravo, indica claramente que Kelsey hirió a uno de sus adversarios. Los celadores compañeros de Kelsey creen que el asaltante de éste haya caído en el río mortalmente herido.

A pesar de que le había penetrado en el costado izquierdo una bala de revólver de calibre 45, Kelsey peleó contra la cuadrilla de contrabandistas hasta que la desbandó.

Ha Sido Postulado Candidato Demócrata un Pariente Húmedo de Coolidge

BURLINGTON (Vermont), Junio 25.—Park H. Pollard, de Cavendish, primo del ex-presidente Coolidge, fue designado ayer candidato del partido democrático para gobernador, en la conferencia bienal del partido en ésta. Al aceptar su postulación, dijo Pollard estas palabras: "Estoy absolutamente en contra de la Enmienda Decimaoctava y de la Ley de Volstead, y abogó por su derogación."

Smoot Anuncia que Está Resuelto a Tomar Descanso

WASHINGTON, Junio 25.—Después de manifestar que sólo nueve días ha estado ausente del senado en veintiocho años de servicios, el senador Smoot, veterano presidente de la comisión de Hacienda, se puso hoy en pie y anunció a sus colegas que se iba a ir de vacaciones.

Le dejó su voto al senador Watson, líder republicano, y dijo que confiaba en que sus colegas no le acusarían de abandono de empleo.

NOTAS LOCALES

Par de Bandidos que se Apoderan de $2130

Ayer tarde, después de haber acechado en la esquina de las calles Primera y Vignes a los mensajeros de banco, lograron llevarse dos bandidos $2130 mediante atrevido atraco. Dicen las víctimas que se subieron los ladrones en ese sitio al coche de los mensajeros y obligaron a éstos pistola en mano a guiar el coche hacia un lugar muy despoblado de la ciudad, donde echaron mano al costal que contenía el dinero, y huyeron luego con éste. El dinero era para pago de jornales de una compañía de camiones, y los mensajeros robados se llaman George Nichols y Charles Goodwin. Ni uno ni otro pudieron dar buenas señas de los asaltantes.

Charlas Infantiles para Chiquillos de Escuela

XVI.

Pero todos los periodos desgraciados llegan a su fin. Un día de dos cruces fue puesto en libertad su padre, y tras decir adiós a Mealy Potatoes y a los demás muchachos, Carlos dejó los cacharros de engrudo pegajoso y los mal olientes frascos de betún, para irse a la escuela (But all unhappy times come to an end at last. One red-letter day his father was let out of prison, and saying good-by to Mealy Potatoes and the other boys, Charles left the pots of sticky paste and the smelly blacking bottles to go away to school).

Llamábase su escuela la Academia Casera de Wellington, y en ella pasó Carlos una época muy entretenida. Mucho me temo que se dedicara allí más a la travesura que a la aritmética y el deletreo; pero no obstante sus fechorías, sus maestros le querían porque escribía muy bellas composiciones y era muy varonil y cortés (The name of this school was the Wellington Home Academy, and here Charles had a very good time. I am afraid he studied rather more mischief than he did arithmetic and spelling, but in spite of his pranks, his teachers liked him because he wrote such good compositions and was so manly and polite).

The Chance *of a Lifetime*

to get plus value in Tires

The majority of people who read this advertisement are going to need tires this season; the time to buy them is right now.

Crude rubber is cheap; as a result tire prices are the lowest in history.

You can actually buy at this time the world's best tires for no more money than you used to pay for inferior or unknown tires.

You can buy Goodyear Tires on an extreme low-cost-mileage basis, and that is exactly what smart buyers are doing.

The special advantages to be enjoyed from Goodyear Tires are due to definite Goodyear superiorities in both tread and carcass, the two main parts of a tire.

The Goodyear All-Weather Tread is superior in *traction*, and everybody wants sure-footedness underwheel.

The Goodyear Supertwist Carcass is superior in *vitality* and long life, and this means economy and freedom from trouble.

These superiorities are not imaginary; they are real.

Any Goodyear Dealer will be glad to demonstrate the facts.

And the facts unmistakably are: Goodyear Tires *do* give greater value.

That's why *Goodyear sales are going ahead at a rate surpassing any previous record.*

That's why *impartial investigation shows a nation-wide preference two-and-a-half to thirty times as great for Goodyears as for any other tire.*

Now is the time to get YOURS

That's why *Goodyear builds annually millions more tires than any other manufacturer in the world.*

That's why *more people ride on Goodyear Tires than on any other kind!*

The dominance enjoyed by Goodyear Tires is not temporary or new—it has flourished for fifteen years strictly on a basis of superior quality.

If you want Goodyear value at bed-rock prices: *now is the time to get yours!*

RX: CONTINUE UNTIL RELIEVED

Druggists Forget Program in Cut-Price Uproar

Chain-Store Accusations Hurled in Huge Doses

Brunswig Assures Woman He's Not an Octopus

PASADENA, June 25.—War against so-called cut-rate druggists, and wholesalers who supply their merchandise, was declared today by a majority of the 500 delegates to the annual convention of the California Pharmaceutical Association at the Hotel Huntington. A program of speeches was postponed when Mrs. Tom Gleason, proprietor of Stockton drug stores, characterized L. N. Brunswig of the Brunswig Drug Company, Los Angeles, as an "octopus who sells merchandise to cut-throat stores."

Brunswig quietly arose to his feet when order had been restored and calmly refuted the woman druggist's charges.

"As Mrs. Gleason has seen fit to assail my character, I feel that I must arise in my defense, although I shall not be hysterical about it. I am called an octopus and a tyrant. I feel confident that my record of forty-three years in the business disproves that, but Mrs. Gleason was rather extreme in her accusations. The things she says are untrue and I can say that anything I have done has been for the betterment of pharmacy."

STORE CONTROL DENIED

He denied all the allegations, including the assertion that he owns 80 per cent of the drug stores in San Diego. Delegates from San Diego corroborated him on this point.

During the extended session, which ran into the luncheon hour and was resumed in the afternoon, druggists from all parts of the State rose to their feet and presented their opinions regarding the fight the independent is waging against the chain and cut-rate concerns.

The K. P. Drug Company, operating in San Joaquin Valley cities, was defended by R. L. McMasters of Fresno, who controls the organization. McMasters declared that his asserted cut-rate company had endeavored to co-operate with the independents in Stockton, that Brunswig did not finance the concern and that Modesto independents had failed to extend him the courtesy of a greeting when he opened establishments in that city.

Brunswig, who has been decorated by France, and is considered the dean of Los Angeles pharmacists, was roundly applauded by his friends and enemies alike, when he sat down after answering charges hurled at him by three of the delegates.

CALM STUDY URGED

It was suggested from the convention floor that the solution of the cut-rate problem lay in obtaining a closer understanding with national wholesale drug firms and in expulsion from the association of offending members.

Dr. E. L. Newcomb, secretary of the National Wholesale Druggists' Association and the Druggists' Research Bureau of New York, was scheduled to speak on "Progress in Pharmacy," but he changed his set speech and spoke extemporaneously on the cut-rate problem.

"The charges and refutations which we have listened to for several hours," he asserted, "prove that we have not made a systematic effort to get at the facts. The arguments show that the opposing factions, in the final analysis, are not so far away from each other as first appars, and I have complete confidence that if the facts are collected and considered without heat that your common good will be benefited."

SAN FERNANDO MAIL ROUTES TO EXPAND

SAN FERNANDO, June 25.—Next Tuesday the local postoffice will start an expanded city delivery service, increasing the territory served almost one-fourth, the largest single increase ever made in the local delivery system. Territory which the postal department heretofore refused to serve because of a partial lack of requirements will be included, and virtually all settled-up parts of the town will be on the new routes.

MAN IN JAIL PUT OUT--- BY FIRE DEPARTMENT

ONTARIO, June 25.—The fire department didn't have far to go in response to a call for help early today.

All that was necessary was to cross the alley from the fire station where James McClune, 34 years of age, was housed in jail.

The department put McClune out—not out of jail but put out the fire that was engulfing him.

McClune had gone to sleep with a glowing cigarette in his mouth. Consequence—fire in the mattress, fire in McClune's clothes, and lusty calls for help. A fire hose was turned on the bed and on McClune and the fire was put out. McClune stayed in. A doctor was called and said the amount of smoke inhaled by McClune would not make him sick very long.

WORLD SERVICE STRESSED

Methodist Conference at Long Beach Takes it as Theme of Gathering; Bishop Lauds Hoover

LONG BEACH, June 25.—"World Service" was the outstanding theme at sessions of the Southern California Methodist Conference here today, attended by 3000 ministers and laymen and which will close Monday with appointment announcements. Addresses by Dr. Ralph A. Ward, executive secretary of the World Service agencies; Dr. E. D. Kolstedt, corresponding secretary of home missions, and Dr. Benson Baker, field secretary of the Board of Foreign Missions, were followed by general discussions.

A tribute to President Hoover and staneh support of prohibition were voiced by Bishop Charles Wesley Burns, presiding. "We think Hoover is doing the work and we are for the Eighteenth Amendment," the bishop declared. "We are for continuing the fight for the dry cause until every nation has become bone dry and liquor has been banished forever."

The following conference officers were chosen today: F. C. H. Stevens, Santa Monica, secretary; W. C. Botkin, Maywood; C. C. Kimball and Irving H. Engle, both of Los Angeles, and Glen R. Phillips, Phoenix, Ariz., assistant secretaries; C. W. Reinius, Santa Ana, statistician; N. W. Beckwith, Whittier, treasurer; John Engle, Whittier, postmaster, and R. J. Coyne, Globe, Ariz., choirmaster.

Reports on the Goodwill Industries, the Plaza Community Center and the Spanish-American Institute were made by officials at the evening session.

W. H. Fry reported on the Hawaii mission.

Interest at the evening session centered on the address, "In the Field of Reform," by Dr. Deets Pickett of Washington, secretary of the board of temperance, prohibition and public morals.

Tomorrow the conference will hear reports from the district superintendents and will discuss the new pension plan, hospitals and finance. The afternoon session will be devoted to women's interests, featured by an address by Dr. E. E. Helms on "Women Here and Everywhere."

The broadcasting federation will come before the conference at the evening session tomorrow.

MERCHANTS OPTIMISTIC AT MEETING

Monrovia Business Men and Employees Hear Head of Advertising Club

MONROVIA, June 25.—To stimulate the spirit of optimism between employers and their employees, the Monrovia Merchants' Association gave a banquet tonight at the Masonic Temple with C. S. Dandridge, president, presiding.

Carl A. Bundy, president of the Los Angeles Advertising Club, was the speaker. His subject was "Spots in Business." Bundy recently returned from Washington, where he was a delegate to the convention of the American Federation of Advertising Clubs.

Bundy stressed the point that when business is slow, employers and employees, as well, become pessimistic in their viewpoint and are apt to let the existing conditions worry them to extremes, which hurts business and retards its usual pick-up following a slump in activity.

The banqueters numbered 300 and filled the Temple banquet room to capacity.

"I feel that we accomplished the thing we set out to do tonight," Dandridge stated, "in bringing together employer and employees in a closer bond of loyalty."

"Optimism" proved the keynote of the evening and invaded the entertainment provided by popular radio singers and instrumental artists.

Contract Given For Telephone Relay Station

REDLANDS, June 25. — L. L. Moore of the Sunset Tile Company received word today that his company has been given the contract for the placing of a roof on the large relay station building of the Pacific Telephone and Telegraph Company, which is to be erected at Whitewater, on the desert east of here. This is to be one of the most important stations of the company on the west coast, for it is here that the equipment for boosting the power of the transcontinental messages for both telephone and radio broadcasting will be installed.

This is also the station where the underground conduit built east from Los Angeles will be placed. The conduit was laid some months ago and a large crew is now at work pulling the cables through the conduit. The cables are the very latest equipment and some of them designed primarily for radio use. At the Whitewater station the cables will be taken from underground and run to the poles, which will carry them across the desert.

The building to be erected will have 6200 square feet of floor space, being about 60x100 feet. It will be of reinforced concrete with tile and marble interior, and will be equipped with the great coils that step up the power of the messages.

HUGE SUM INVOLVED IN SUIT

Damages to Extent of $300,000 Asked for Asserted Losses in Failure to Make Oil-Stock Deal

REDLANDS, June 25.—Ed Cram of East Highland and C. W. McIntosh of Mentone have filed a suit in Superior Court against J. S. Edwards, Frank Cram, W. H. Cram and James F. Cram, all of Redlands and Highland, for damages in the sum of $300,000. They ask that sum for a deal involving 8000 shares of stock in the National Oil Company at Riverside.

The plaintiffs assert that through the conspiracy of the defendants they were refused a $300,000 loan by the First National Bank of Los Angeles, preventing them from consummating the stock deal and causing them to lose $300,000 profits, which they aver they would have made by the deal.

The litigation had its inception October 2, 1927, according to the complaint, when Ed Cram and McIntosh agreed with Oscar Crowell of Riverside to purchase the 8000 shares of stock in the company for $1,600,000, the value of the issued and outstanding stock. Crowell, it is asserted, agreed to have drawn up and delivered to the plaintiff a certificate of title showing title to property of the company free of all incumbrances, except property specified in the sales contract.

Upon execution of the agreement, it is set forth in the complaint, Ed Cram and McIntosh found purchasers for the real property of the company, who agreed to pay $1,300,000 for the property, which consisted of orange land in the Highgrove district in Riverside county.

In order to consummate the stock purchase from Crowell, the complaint states, Ed Cram and McIntosh had to borrow $300,000 from the Los Angeles bank.

Among the persons who agreed to purchase portions of the citrus land, according to the complaint, were Edwards, Frank L.; W. H., and James F. Cram. Edwards examined the property and then the defendants entered into an unlawful conspiracy to prevent the plaintiffs from purchasing the stock from Crowell, it is charged.

They negotiated with Frank F. and Harry B. Chase, owners of the stock, to cancel his agreement to sell the stock to Crowell and sell it to them instead for $1,000,000, the complaint charges. The Chases refused, however, to do this until their contract with Crowell could be canceled or terminated.

The defendants then called on the manager of the bank's branch in Redlands and induced him to cancel the $300,000 loan made to the plaintiffs, it was said. They assert that they were unable to close the deal because of this and lost $300,000 in profits.

Pasadena Gold Star Mother at Her Home Again

PASADENA, June 25.—Comforted by first-hand knowledge that her hero son's grave is being cared for by sympathetic hands, Mrs. C. W. Stoker, first local Gold Star mother to complete her pilgrimage to France as guest of the United States government, returned to her home, 441 West Walnut street, this afternoon.

"My son's grave is in a beautiful spot outside Surfences," she told friends who greeted her. "It had been raining the day I arrived, but as we approached the cemetery, the sun's rays darted through the rain-drenched trees and hundreds of birds in the adjacent woods started singing."

Mrs. Stoker's son, Ellsworth Stoker, chief machinist in the Naval Air Service, was killed soon after this country entered the war by the explosion of an ammunition train.

The returned Gold Star mother praised the government's arrangements for the trip and the reception given them by the French people.

When a brass band met the boat at Cherbourg, those in charge of the visitors explained to the reception committee that such a welcome was scarcely appropriate from the standpoint of American customs, and the loud music was stilled instantly, she said.

Boyd Hamilton, Bank of Italy Official, Dies

VAN NUYS, June 25.—Boyd Hamilton, 53 years of age, credits manager of the Bank of Italy at its headquarters at Seventh and Olive streets, Los Angeles, died of cancer at his home at 7936 Woodley avenue at 7 a.m. today. Funeral services will be conducted Friday at 4 p.m., from the Pierce Brothers chapel in Los Angeles. Rev. F. O. Wyatt, pastor of the Eagle Rock Congregational Church, will be in charge of the ceremonies.

Hamilton had lived here about four weeks, coming from Los Angeles to escape the noises of the city. He was born in Colfax, Wash., coming to the Bank of Italy at Los Angeles from San Francisco, about ten years ago. He leaves a widow, Mrs. Alta B. Hamilton; a son, Dale Hamilton, and a brother, O. J. Hamilton, who resides in Los Angeles.

ONTARIO SENDS MANY TO LEGION GATHERING

ONTARIO, June 25.—The local post of the American Legion will be represented at the State convention of the Legion at Sacramento in August by eight delegates and four alternates. The delegates were announced today by Leo J. Murphy, adjutant of the Post. Delegates are: Commander Leland S. Davidson, C. C. Stevens, H. J. Caldwell, Sid Herzberg, J. G. Galanis, J. J. Cox, H. J. Miller and R. P. Bomer. The alternates are A. E. Clauson, F. U. Jones, M. F. Martens and Jack Barnes.

TEACHERS HIT BY TRAIN DIE

Principal of School at San Ysidro One of Victims

Instructor in Same Building Riding With Her Killed

Mrs. Tittle, Mrs. Campbell Hit by S. D. & A. Engine

SAN DIEGO, June 25.—Mrs. Jessie D. Tittle, principal of the San Ysidro school, and Mrs. Margaret Campbell, teacher in the same school, were killed almost instantly today when the car in which they were riding was struck by a San Diego and Arizona train at Smythe crossing near this city.

The women evidently were driving along the dirt road known as Smythe avenue, which parallels the S.D. & A. tracks for some distance before crossing them, and were coming to this city when struck by the train. According to disposition of the wreckage, it is thought that the machine in which they were riding was struck when the train came up behind it. Mrs. Campbell was thrown from the car at the crossing and Mrs. Tittle's body was carried for a quarter of a mile on the front of the train, as was most of the auto wreckage.

The train of seven coaches was en route here, where it was due at 11 a.m., when the accident occurred. Mrs. Campbell owns considerable property in San Ysidro.

It is assumed that Mrs. Tittle was driving the car when the fatal accident occurred, as it would be difficult for the driver to be thrown clear, as was Mrs. Campbell.

The bodies were taken to the Hubbard & Porter undertaking establishment in Chula Vista, where an inquest will be conducted later by Coroner Kelly. Members of the train crew say the accident was unavoidable.

OLIVE YOUTH KILLED, TWO OTHERS INJURED, IN CRASH

ANAHEIM, June 25. — Thomas Maxwell, 22 years of age, of Olive, was instantly killed in an automobile collision on the State highway two miles south of here just before midnight.

Robert Mathews, 22, of Orange, a companion of Maxwell, was seriously injured and lies in the County Hospital. Maxwell was driving the machine in which he and Mathews were riding.

Joe Rothaermel, 16, of Fullerton, suffered a broken leg and serious bruises. He is in a hospital here where his recovery is not assured.

Rothaermel, driving northward, is believed to have fallen asleep. His car is said by traffic police to have been on the wrong side of the highway and to have struck the Maxwell machine squarely in the side.

An inquest was held at the Gillogly funeral parlors at 3:30 a.m. today. Funeral services for young Maxwell will be conducted from the St. Boniface Catholic Church at 9 a.m. Saturday.

The victim of the crash is the son of P. B. Maxwell, manager of the Olive Hillside Groves Association packing-house at Olive.

Hydra-Headed Onion Raised to Giant Size

VENTURA, June 25.—A four and one-half-pound onion, fit for a giant's lunch pail, has been grown by R. M. Hamlin, 262 North Olive street. The bulb grew in three heads.

Hamlin raised the onion from seed sent to him from Illinois.

Pasadena Girl Keeps Threat to Leave Home

PASADENA, June 25.—Red hair, warm weather, and the prospect of being forced to attend summer school are believed by local police to have caused 14-year-old Dora Seaton of 1409 Westlake street, to run away from home yesterday.

On Monday night, Dora's parents issued an edict that she must attend summer school whereat the child is reported to have threatened to leave home. Despite her parents' frantic appeals, the police have discovered no trace of the girl since she left home yesterday afternoon.

When last seen, Dora was wearing a green-and-white ensemble dress and black pumps. She is five feet, two inches, in height, and weighs 105 pounds. Her hair is bright red and her eyes dark brown.

BAND CONCERTS BEGIN

REDONDO BEACH, June 25.—The first of the summer band concerts by the Municipal Band will be given on Saturday afternoon, on the official season opening day, under the direction of J. R. Scott. The concerts are to continue on Sunday afternoons and holidays until Labor Day.

DEPOT OF "GAY NINETIES" DOOMED

Modern Building Supplants Historic Fullerton Station

Motion-Picture Setting to Vanish Soon

Completing a term of forty-three years in service, the old Santa Fe depot at Fullerton, shown in upper picture, is soon to be demolished. All business of the railroad has been moved to the building 100 feet east of the old landmark. The new building, shown in lower picture, recently completed at a cost of $50,000, will be formally dedicated July 2.

GIANT SWORDFISH CAPTURED

Two Fishermen Of Newport Beach Battle Three Hours to Subdue 444-Pound Broadbill; While Struggle Goes On, Another Angler Gets 400-Pound Bass

NEWPORT BEACH, June 25. Capture of a broadbill swordfish, 444 pounds in weight and fifteen feet long, the largest ever caught here, was the reward gained after a three-hour fight in the ocean seven miles offshore here.

J. D. Wood, 116 Twenty-fourth street, and H. H. Hit, Costa Mesa, were out in a fifteen-foot dory fishing for rock cod when along came the sea monster. The boys snagged him on each side of the head with their hooks and battled for three hours. Many times their boat was spun around and around in the ocean and they were carried on several-mile rides before the fish was exhausted enough to give the youths an opportunity to spear it. They realized $53 from its sale.

At the same time this battle was in progress, C. A. Peterson was out in his powerboat struggling with a 400-pound sea bass. Peterson came in exhausted, but had his 400-pounder as a prize.

Earl Nichols and Frank Naylor, police officers, were out on the old barge three miles offshore fishing and each one caught large halibut, Nichols, a sixteen-pounder. They reported another capture of a twenty-nine-pound halibut by a boy.

At the Balboa pier a five-pound carbina was brought out of the water, a two-pound yellowfin and a small boy caught a pound-and-a-half jewfish. From a chart-boat bonita and barracuda were caught in abundance yesterday. Good-sized croakers are being caught daily in Newport Bay.

OLD SPANISH PIONEER DIES

Blas Antonio Lugo, Scion of One of First Native Sons of California, Expires at San Gabriel Home

SAN GABRIEL, June 25.—Death today removed another of the old Spanish pioneers when Blas Antonio Lugo, 70 years of age, was stricken with a heart attack and died at his home, 200 East Angelino street. He lived in this city for twenty-three years and was a former City Councilman, preceded in death two years ago by his wife, Ricarda.

Lugo was born in Los Angeles. His father, Don Antonio Maria Lugo, one of the first native sons of California, was born at the Mission San Antonio De Padua in Monterey in 1783. In 1803 he moved to Pueblo De Los Angeles and married Senorita Margarita Ruiz. Later he founded the Lugo Rancho at what is now Bell. He was holder of a Spanish grant upon which it was said he "Could ride from sunrise to sunset without setting foot upon land that was not his own." This grant comprised all the territory that is now Los Angeles, Pasadena, Alhambra, San Gabriel and other communities from the San Bernardino Mountains to the ocean. In the early history of Los Angeles he was known as "El Viejo" Lugo.

Blas Lugo, his son, lived for many years at the Lugo Rancho, before coming to San Gabriel, where he served as deputy sheriff before the town was incorporated. He had a host of friends, especially among the older Californians, and was adviser in family, business and legal affairs to many of the local Mexican population. For the last seven years he operated a grocery store here.

He leaves two sons, Paul and Angel, both of San Gabriel, and three brothers, Andrew, Pedro and Phillip, of Laguna Beach. He was

"BRISTLY VARMINT" CAUGHT

Strange Black "Animal" Invades Bed of Women in Auto Camp; Other Occupants, Armed With Impromptu Weapons, Come to Rescue and Capture It

SANTA BARBARA, June 25.—Commotion prevailed in an auto camp on Hollister avenue last night when two Iowa women tourists swore there was a bristly animal in their bed.

It was Mrs. Lynn C. Quick and Miss Margaret Elliott who lifted their voices to inform that section of the city that a strange black animal with bristles had sought refuge in their couch.

Other occupants of the camp were aroused from their slumbers and, armed with paring knives, tent stakes, road maps, thermos bottles and a folding camp stool, they entered the Quick cabin cautiously to wage war on the offending "varmint."

With one heroic gesture Ralph Hardy, also from Iowa, threw back the covers of the bed and the whole auto-camp colony pounced down on the black, bristled animal. After they had extricated themselves and their implements they stood back to survey their kill. The "black, bristled" animal proved to be a hair brush, quite harmless and domestic.

cost the city in the neighborhood of $25,000.

PHARMACIST ACCUSED IN LIQUOR CASE

Tom Lemain, San Jacinto, Charged With Selling of Bonded Whisky

RIVERSIDE, June 25.—Charged with bootlegging bonded whiskey furnished him under government permits Tom Lemain, San Jacinto druggist, last night was placed under arrest at his store and lodged in the County Jail by Sheriff Sweeters and County Jailer Bailey. He was tentatively charged with selling liquor.

Lemain was taken into justice court this morning. He spent the night in jail, no bond having been fixed.

Sweeters revealed the investigation had been called to the attention of Federal prohibition enforcement agents earlier and the druggist now faces revocation of his liquor-selling permit in addition to what, if any, penalty is assessed for the Wright Act violation.

Three or four "buys" had been made from Lemain recently by deputy sheriffs, Sweeters said. That Lemain's asserted liquor activities in which Sweeters promised a further expose at the end of his complete investigation, have contributed largely to a "very bad situation," at San Jacinto, was the Sheriff's assertion.

POLICE CHIEF, JUDGE GIVEN NEW QUARTERS

REDONDO BEACH, June 25.—New offices for the Chief of Police and court chambers for the Justice Court are being prepared in the City Hall and will occupy the space formerly used by the City Library. The arrangement will do away with the present plan of using the Council chambers in jury cases in the Justice Court.

FAIR PLAY FOR DRY ACT URGED

State President of W.C.T.U. Addresses Friends

Says Prohibition Should Be Given Chance Like Selling

Yearly Meeting at Whittier Concludes Session

WHITTIER, June 25.—The sixth annual assembly of the California Yearly Meeting of Friends Church was brought to a close last evening, after a week's conference of representatives from twenty-three counties in Southern California. There is a membership of more than 5000 in the Yearly Meeting, and thousands of Quakers and their friends were in attendance at the assembly, which was held in the largest Quaker church in the world.

One of the observances which always interests and amuses visitors is that of the "epistle" as the Quakers call their messages, sent out and written to other meetings. This year such epistles were received from the London Yearly Meeting, the Dublin Yearly Meeting, the Yearly Meetings in Indiana and in Germany.

MRS. WHEELER SPEAKS

Mrs. Eva C. Wheeler, president of the Women's Christian Temperance Union, spoke during the closing day, choosing her subject, "Shall the Golden Rule Fair Play?" She pointed out that the saloons had flourished in America for nearly 300 years before she asked that prohibition be given a chance of being discussed at a political table, should be likewise given a year tryout in the interest of fair play.

Albert M. Chawner, Mayor of Whittier, and president of Whittier College, who is also chairman of the committee on peace, legislation and temperance during the year, presented the reports from the department. Rev. Ernest Lamb, pastor of the Los Angeles Friends Church was chosen chairman for the coming year.

The final report of the Yearly Meeting was given by the social service committee. The first of its Pacific Branch was presented by Prof. David R. Bond, head of the faculty of Whittier College. He said "Two retreats are held, where ways of personal deepening Christian fellowship are sought, under the leadership of Raymond Robbins, New Zealand pacifist; Henry T. Hodgkin, noted educator, and author; Rufus M. Jones, Hebrew Christian, and others."

FIGHTING SPIRIT LACKING

"We must think of peace not as a weak, flabby state of mind, but as a rugged, healthy spirit working together of mind and heart toward the welfare of the world. Today this willingness to work is replacing destructive competition, interclass, inter-racial and international affairs.

"If our civilization is to survive, he declared, "its people must maintain their virile, fighting spirit and must have some enemy to fight amongst themselves to work together in order to overcome foes, such as ignorance, prejudice, disease, crime and fears.

"Our problem today is not so much how to make a peace, but how to make ways of living that will be conducive to peace."

ONTARIO BANKER SUCCUMBS

George A. McCrea, Pioneer Financier There, Former State Senator in North Dakota, Dies Suddenly

ONTARIO, June 25.—George A. McCrea, pioneer local banker, former North Dakota State Senator, died suddenly at his home, 444 G street, this avenue, this morning. The community was shocked at word of his unexpected passing. McCrea was one of the most prominent citizens here, having lived here since 1910. He was born in Merrimack, Ont., on March 14, 1861, and was 68 years of age at the time of death.

While living in North Dakota McCrea was a member of the State Senate and was prominently identified in the political activities of that State. Coming to California in 1910, he established the Ontario National Bank in 1911, which is now the Ontario branch of the Bank of Italy. He was active in building his bank into one of power and was president until it merged with the larger one.

McCrea was an active member of the First Methodist Episcopal Church, past president of Ontario Rotary Club and held membership in practically all [illegible]

He leaves his widow, Mrs. Harriett McCrea, and two children, Mrs. R. Wayne Jones of Los Angeles, and Paul W. McCrea, who is associated with the Bank of Italy here. Mrs. Jones is the former Miss Grace R. McCrea of Ontario. Another daughter, Mrs. D. W. Reed, died here a few years ago. Funeral services will be held from the Reed residence in Redondo Beach, and from the Methodist Church in Los Angeles, and interment will be in New York.

Funeral services will be conducted Friday at 1 p.m. from the First Methodist Episcopal Church, Rev. Charles Ferris of [illegible] state.

Rev. Pauschert to Head New Lutheran Group

SANTA ANA, June 25.—Elevation of Rev. G. F. Pauschert, pastor of St. Peter's Evangelical Lutheran Church here, to the presidency of a new district comprising all of the State of California will take effect in August, when the local church becomes a member of the new American Lutheran Church group, it was made known today. Mr. Pauschert in commenting on the merger of several branches of the Lutheran Church stated that the new affiliation would have a baptized membership of more than 5,000,000. He will attend the merger meeting at Toledo in August, where he will be named president of the California district by reason of holding the presidency of the Southern California district at the present time.

Under the merger plan California has been made one district. The groups uniting as the American Lutheran group include those hitherto known as the Buffalo synod, the Iowa synod and the joint synod of Ohio. They include all Evangelical Lutheran branches, it was said.

FINANCIAL

HANCOCK PROFIT RUNNING LOWER

Earnings for Third Quarter Equal 7 1-2 Cents

Compare With 93 Cents for Second Quarter

Nine Months' Net Placed at $1.60 a Share

Net profits of the Hancock Oil Company of California for the third quarter of its fiscal year closed May 31, last, amounted to $17,208.50 after all charges, including depreciation, depletion, intangible development costs and reserve for Federal income taxes, equivalent to 7½ cents a share on the capital stock outstanding at the close of the period, Will J. Reid, president, announced yesterday.

The present company, a Delaware corporation, is the successor to the company of the same name which, through a capital reorganization last September, was reincorporated. The fiscal year having been changed, no comparative statement containing the earnings of the predecessor company for a similar period is available.

Net profits, however, for the second quarter of the current fiscal year, amounted to $213,342.38, or 92 cents a share and for the initial quarter the company reported net earnings of $115,108, or 70 cents a share.

The net profits for the nine months of the quarterly reports amounted to $348,656.10, which is equivalent to $1.60 a share on 215,427 combined Class A and B shares outstanding. The precedessor company for its entire fiscal year ended July 31, 1929, reported net income after all charges of $426,986.

Sales for the quarter just closed amounted to $2,204,250.76 as compared with $2,146,902.40 for the preceding quarter and $2,322,063 for the corresponding period last year, according to the statement, which brings the sales for the nine months to a total of $6,680,106.21. Sales for the entire fiscal year of the predecessor amounted to $6,757,860.

Gross operating income for the quarter just ended amounted to $2,061,560.44 against $2,192,651.44 in the preceding quarter. Costs including raw material, operating and general expenses amounted to $1,868,973.60 and in the previous period, $1,838,519.97.

The net operating earnings before fixed charges amounted to $92,586.84 against $298,681.97 in the preceding quarter and $437,129.04 in the initial quarter.

United States Smelting Cuts Dividend Rate

BOSTON, June 25. — Directors of the United States Smelting, Refining and Mining Company declared today a quarterly dividend of 25 cents a share on the common stock against 87 1-2 cents a share formerly and voted the regular quarterly of 87 1-2 cents a share on the preferred. Both dividends are payable July 15, next, to stockholders of record, July 3.

This action has been taken in view of the current low price of all metals and with due regard to the low price of silver and the uncertainty as to its future, according to the announcement. The current asset position of the company was declared excellent. There is no bank or funded debt.

Consolidated net income for five months ended May 31, amounted to $1,401,947, after all charges, equal after preferred dividends, to $1.13 a common share. This compares with $1,987,048 reported in the same period last year, equal to $2.19 a share.

FIXED TRUST UNIT TO PAY HUGE EXTRA

An extra cash distribution of 100 per cent greater than the regular semiannual dividend rate will be paid to holders of Fixed Trust Oil Shares on the 30th inst., it was announced yesterday by the syndicate managers of the investment trust. In addition to the regular rate of 30 cents per share, the trustees now have on hand an accumulation of approximately 30 cents per share which will bring the total semiannual disbursement to 60 cents per share.

NEW GENERAL FOODS DIRECTORS ELECTED

NEW YORK, June 25.—Elisha Walker, chairman of Bancamerica Blair Corporation, Robert Lehman of Lehman Brothers, and Sidney J. Wainberg of Goldman Sachs & Co., were elected directors of General Foods Corporation today. Waddill Catchings and Earl P. Charleton resigned.

DIVIDEND ON MACMILLAN OIL PASSED

Cash and Stock Omitted to Conserve Resources, President States

For the purpose of conserving cash resources throughout the present period of uncertainty confronting the oil industry directors of the Macmillan Petroleum Corporation have voted to pass the current regular quarterly dividend of 40 cents a share and 2 per cent in stock normally due to be paid July 15, R. S. Macmillan, president, announced yesterday.

Directors of the company, he said, are of the opinion that the interests of the company would best be served by following the conservative policy of increasing its cash resources in view of the generally unsettled conditions and the unstable retail gasoline market which has existed in California during the larger part of this year.

"We have every reason to believe that within a short time the market for refined petroleum products will be adjusted, at which time we should be able to and expect to resume the payment of dividends," said Mr. Macmillan. "The book value of the capital stock is $29.60 per share without including appreciation on the oil-producing properties."

Net earnings for five months ended May 31, last, totaled $256,416 after all reserves including Federal income taxes, equivalent to $1.26 a share on the stock outstanding, which is about $150,000 lower than for the same period last year. Distribution of gasoline under the Macmillan brand for the period increased 26⅔ per cent.

The present corporation paid an initial dividend of 37½ cents a share in January, 1929, and thereafter 50 cents quarterly. The addition of the 2 per cent stock dividend quarterly was begun last July.

Land Title Men Gather Today in Santa Barbara

Speakers on the program of the twenty-fourth annual convention of the California Land Title Association, which opens in Santa Barbara today, will include Lieut.-Gov. Carnahan, Everett W. Mattoon, County Counsel; W. H. Daum, president California Real Estate Association; Glenn D. Williaman, secretary California Real Estate Association, and John D. Beyer, trustee and receiver in bankruptcy.

A large number of executives and representatives of local title companies left yesterday to attend the convention. Representatives of the Security Title Insurance and Guarantee Company include Glenn A. Schaefer, Waverly P. Waggoner, R. S. Padgett, William H. Porter, T. W. Haymond, William H. B. Haymond, M. J. Rice, Walter B. Kibbey, James R. Ford, Ednesna Hartley and Harvey Humphrey.

The California Title Insurance Company will be represented by J. S. Loofbourow and Heber B. Kelly; Consolidated Title Securities Company, J. S. Parker and Louis B. Stribling; Title Insurance and Trust Company, Stuart O'Melveny, executive vice-president, Senator N. W. Thompson, Porter Bruck and P. W. Clark; Title Guarantee and Trust Company, J. F. Keogh, John Rhind, Case Bradford and George D. Colby.

American Ice in Earnings Gain

NEW YORK, June 25.—American Ice Company reported today net earnings for May of $602,689 after interest but before Federal taxes and depreciation, as against $521,858 in May, 1929, a gain of $82,190.

For the five months ended May 31, last, net earnings were $1,054,072 before depreciation and Federal taxes as against $1,201,139 in the first five months of 1929.

STEEL SALE RATIFIED

CHICAGO, June 25.—Sheffield Steel Corporation stockholders have approved dissolution of the corporation in connection with the consolidation with American Rolling Mill Company. Sheffield common stock will be withdrawn from trading on the Chicago Stock Exchange on the 27th inst.

CLARK ON TRUST BOARD

CHICAGO, June 25.—Harley L. Clarke, president of Utilities Power and Light Corporation, Fox Film Corporation and other companies, was elected a director today of the Central Trust Company of Illinois.

PRICES HIT GOVERNMENTS

Falling Commodities and Rising Dollar Value Increase International Debt Problems; Check Sought

BY EARLE E. CROWE

National governments are as much concerned over the falling trend of commodity prices as any private debtor. The prospect of paying off the public debt in dollars worth $1.12 in purchasing power, whereas the dollar originally borrowed may have been worth only 85 cents, is not calculated to improve the financial status of governments.

Millions of dollars in purchasing power will be added to international debts if the present level of commodity prices holds, or continues to decline. The burden of paying the interest charges on the debts in terms of 1930 dollars may prove too severe for some governments, and even lead to international disagreements over payments.

OTHERS AFFECTED

Foreign governments under such circumstances would suffer more than the United States government. As the largest international creditor this country would benefit from the receipt of interest payments in 1930 dollars. The outstanding debtor countries of finances in the debtor countries would hardly recompense for the gain in purchasing power to this government.

National wealth, it is true, has greatly increased throughout the world since the greater portion of the international debts were contracted. But at the same time it is not a simple financial operation to return to the lender a dollar worth more than par, when in 1917-1920, inclusive, the dollar borrowed was worth from 65 to 85 cents in purchasing power.

Naturally aware of this ominous prospect, the national governments are doing everything in their power to check the world-wide decline in commodity prices. Central bank and open-market interest rates have steadily been lowered, culminating in the New York rediscount rate of 2½ per cent. It is hoped that this international ease in money rates will stimulate consumption of goods and check the price declines.

BANKERS CO-OPERATE

Central banking systems also are working together in respect to the level of rediscount rates and the buying and selling of bills and securities in the open market. The banking authorities aim to redistribute the international gold supply at rates sufficiently low to maintain an adequate supply over the requirements of business.

The problem of maintaining an adequate gold reserve throughout the world has been complicated in recent years by the pronounced increase in the demand for credit. In part this increase has been offset by improvements in the credit machinery which economize the gold supply, but still the international supply is working overtime.

With governments working earnestly to meet the situation, it may be assumed that every measure that fiscal experts can devise for the stabilization of the dollar's value will be brought into play.

Triple Holiday on Staples and Stock Markets

NEW YORK, June 25. (AP)—A triple holiday in the financial district over July 4 was assured today by the action of the boards of governors of both the New York Stock and Curb exchanges in voting to close the exchanges Saturday, July 5. The cotton and rubber exchanges already have voted to observe the day as a holiday, and most of the commodity markets are expected to close. Banks, however, will remain open.

CHICAGO, June 25. (Exclusive)—Governors of the Chicago Board of Trade and the Chicago Stock Exchange voted today to close July 4 and 5 in observance of the Independence Day holiday. It was also reported from Winnipeg that the Winnipeg Grain Exchange will close on the same days.

SAN FRANCISCO, June 25. (AP)—Securities exchanges here will be closed July 4 and 5. Both the stock and curb officials late today announced the decision to keep the exchanges closed from the regular July 3 session until the following Monday, July 7.

In conformance with the actions in other cities the governors of the Los Angeles Stock Exchange, Los Angeles Curb Exchange and California Stock Exchange yesterday decided to take a triple holiday over Independence Day.

Cool Weather Checks Trade

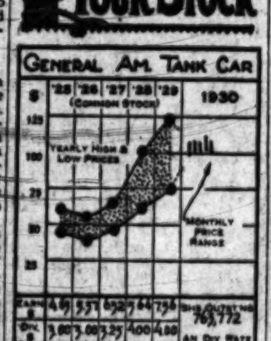
With the cold weather affecting seasonable merchandise retailers in the Los Angeles territory report that there is little improvement in business over the last week with the exception of the women's wear retailers, who report a decided increase in the demand for sport wear and the more popular priced merchandise, according to the weekly summary of the Bradstreet Company, issued yesterday.

While chain grocers report that sales have shown some decrease in individual stores due to the entrance of other large chain organizations, there has been no great decrease in grocery sales in this territory, the summary states. From the present indications based on reservations, business at the summer resorts will be less than last year.

NEW EVENING CLASS STARTING AT COLLEGE

A special summer evening course in "Theory of Probability and Statistics" is to open on the evening of July 1, under the auspices of university college of the University of California. Dr. Lewis D. Ames, professor of mathematics at Southern California, will have charge of the class.

WHAT'S BEHIND YOUR STOCK



General American Tank Car Corporation is a holding company which, through its subsidiaries, manufactures and rents tank cars, refrigerator and other cars. An outstanding feature of revenue is the fact that the company deals in, manufactures and repairs all kinds of railway equipment.

This organization operates or controls over 40,000 cars of various types, which are leased for transportation of liquid commodities. Last year the Union Refrigerator Transit Company (including organized subsidiaries in Germany and Switzerland) was acquired.

Unusual for a railroad equipment company, earnings have maintained a steady upward trend since 1921, reaching record proportions in 1929, when a consolidated net income of $5,775,741, equivalent to $7.56 a share, was reported. This was an increase of 47 per cent over the net of the previous year, and almost a 100 per cent gain over 1927. For the quarter ended March 31, 1930, consolidated net income totaled $1,703,917, or $2.17 a share. This was an increase of about 68 per cent a share over a net of $1,013,506, or $1.60 a share for the similar period in the previous year.

CAPITALIZATION

Common stock ..... 763,772 shares
Funded debt $14,197,000

Current data: Recently issued statement by Elias Mayer, president, was to the effect that second quarter earnings were expected to show at least a 15 per cent increase over the first quarter which proved to be the largest quarter in the history of the company.

(All rights reserved, Dumbrities Associates, Boston)

Rumor of Huge Utilities Deal Called Fiction

NEW YORK, June 25. (AP)—Frank L. Dame, president of the North American Company, today characterized as "highly imaginative" published reports stockholders of his company had been asked to increase the authorized capitalization as the first of a series of steps toward acquisition of three Pacific Coast utilities in the formation of a $3,500,000,000 system.

The reports identified the three Pacific Coast companies as the Southern California Edison Company, Ltd., the Pacific Gas and Electric Company and the Pacific Lighting Company.

"This story has no foundation in fact," Mr. Dame said, "and is directly contrary to the statements which I made to the newspapers when the notice of the special meeting of stockholders of the North American Company was issued on Monday, the 23rd inst."

The stockholders' meeting was called to act upon extension of the company's charter and increase the authorized capitalization to the extent necessary for future development.

John B. Miller, chairman of the Southern California Edison Company, yesterday added his denial to the eastern report of a North American-Pacific Gas-Edison consolidation. "There is nothing to it," said Mr. Miller.

SULPHUR AREA TAKEN BY FREEPORT TEXAS

NEW YORK, June 25.—Freeport Sulphur Company, subsidiary of Freeport Texas Company, has leased from the Shell Petroleum Corporation, sulphur rights on a salt dome cap rock area of approximately 700 acres located at Black Bayou, Cameron Parish, in Southwestern Louisiana. Sulphur has been encountered at widely scattered locations in the course of Shell's drilling for oil in this area.

TOBACCO SPLIT-UP PENDING

Directors of American to Submit Two-for-One Plan to Holders

NEW YORK, June 25. — Directors of the American Tobacco Company voted today to split up the common stock and Class B common stock of the company on a two-for-one basis, and called a special meeting of stockholders to vote on the proposal July 28, next.

If the program is approved it is the expectation of directors to declare an extra dividend of $4 a share on both the present stocks in addition to the regular quarterly dividend to be paid September 1, which will be the 100th consecutive quarterly dividend, George W. Hill, president, announced.

Mr. Hill also stated that it was the intention of the board to place the newly authorized stock on a $5 annual dividend basis. This would be equivalent to $10 a share on the present stock outstanding on which the current dividends are on an $8 annual basis.

Business during the first five months this year has surpassed all previous records for all corresponding periods, and the net profits for the five months after allowing for bond interest and preferred dividends show an increase of more than 100 per cent over the same period of last year, he stated.

Tri-Utilities in Short-Term Note Offering

Short-term financing by Tri-Utilities Corporation will consist of a new issue of $5,000,000 one-year 5 per cent gold notes, dated June 15, 1930, which will be offered shortly for public subscription by G. L. Ohlstrom & Co., Inc., it was announced yesterday. The notes will be the direct obligation of Tri-Utilities Corporation, and, together with the 5 per cent convertible gold debentures, series of 1979, with which they will rank equally, will constitute the only outstanding funded debt of the corporation.

Tri-Utilities Corporation is one of the large holding companies in the public-utility field. It owns all of the outstanding Class B stocks of Federal Water Service Corporation and People's Light and Power Corporation, and a controlling interest in the outstanding common stock of Southern Natural Gas Corporation and in the outstanding voting stocks of American Natural Gas Corporation and Power, Gas and Water Securities Corporation.

Proceeds from the sale of the notes will be used to acquire $2,500,000 principal amount of the corporation's 5 per cent convertible gold debentures, series of 1979, of which $12,500,000 principal amount are now outstanding, and to acquire additional income-producing securities of subsidiaries.

Net Profits of Bancorporation Running Heavy

CHICAGO, June 25.—Based on earnings reports of 130 individual units of the Northwest Bancorporation, net operating earnings of the group from January 1 to date exceed $2 a share on 1,687,197 shares of stock now outstanding, which is in excess of dividend requirements of $1.80 for the full year, according to an official statement issued today by the corporation.

The financial report discloses a strong cash position with approximately $10,000,000 or more than 10 per cent of the investments of the corporation in assets other than bank stocks.

Since January 1, twenty-one banks have affiliated with the corporation. Stockholders total 13,100, as compared with 11,483 on January 1.

Henshaw Put on Gilmore Board

Griffith Henshaw, president of the Riverside Portland Cement Company, has been elected a director of the Gilmore Oil Company, Ltd., increasing the membership of the board to seven, E. B. Gilmore, president, announced yesterday following the annual meeting of stockholders.

All other directors were re-elected including E. B. Gilmore, C. S. Rossmayer, Stuart M. Salisbury, Dwight Whiting, Oscar R. Howard and Loren C. Burton. All officers were re-elected.

Utility Plans Capital Boost

NEW YORK, June 25.—The stock exchange has received notice from the Philadelphia Company of a proposed creation of 100,000 shares of $6 cumulative preferred stock of no par and change in par value of the 5 per cent now cumulative preferred stock to $10 from $50 and common stock to no par from $50. Each share of both classes is to be exchanged for five new shares. Notice also was received of a proposed increase in authorized common stock to an amount still to be determined.

ANALYSIS MADE OF HARVESTER REPORT

"Analysis of International Harvester Company's financial statement points to the probability that a large and increasing portion of the earnings is being concealed by the building up of reserves," says a report issued yesterday by Schwabacher & Co., members of the New York Stock Exchange.

BANK ACTION SIGNIFICANT

Effect of Cheap Money Reflected in Reduction of Rate on Time Deposits in New York

BY JOHN F. SINCLAIR

(Copyright, 1930, by the North American Newspaper Alliance)

NEW YORK, June 25.—New York banks have over $1,000,000,000 in time deposits. The banks have been paying on the average of about 3 per cent for this money, or $30,000,000 a year.

But six New York bankers, members of the New York Clearing-house, met yesterday and decided to cut the rate on these time deposits from 3 to 2 per cent, beginning Thursday. The six men were William C. Potter of the Guaranty Trust, Charles E. Mitchell of the National City, M. M. Bruckner of the New York Trust, Percy Johnson of the Chemical Bank, Henry C. Cochran of the Bankers' Trust and Jackson E. Reynolds of the First National Bank.

This decision cuts off $10,000,000 a year from the overhead charges of these banks, which, in turn, is largely offset by a decrease of about the same amount received from these banks in loans and investments due in return from lower interest rates. One hand about washes the other.

Mutual savings banks have cut from 2 1-2 to 2 per cent on certificates of deposit, payable within thirty days from date of issue; on credit balances payable on demand or within thirty days.

Other banks, trust companies and private banks, excluding mutual savings banks, cut from 2 per cent to 1 1-2 per cent on these shorter term items.

Cheap money is having its effect already.

Are the banks of the United States loaded up with frozen security loans?

This question is often heard on the street and elsewhere. Editorials in financial journals have discussed it frequently, since the November break.

But Dr. W. Randolph Burgess of the Federal Reserve Bank of New York says categorically that the banks in the New York district at least are not burdened with such frozen loans. Citing figures to support this contention, Dr. Burgess says that:

"If we include in the tabulation these loans placed by other lenders as well as the loans made by banks to brokers both in New York City and outside, and directly to customers, the total of all the available figures on October 2, last year, was $14,601,000,000. By the end of December, 1929, this total had been reduced to $10,737,000,000, or by $4,000,000,000, or 27 per cent.

"The most recent figures—those for June 11—are $10,674,000,000 or about the same as at the end of December. In this period stock prices declined 39 per cent."

Dr. Burgess concludes: "The liquidation of security credit has been vigorous and thorough."

This statement, coming from an official of the largest Federal Reserve Bank, is very significant.

The government survey showing the 1929 international balance sheet of the United States revealed the fact that the gross United States

At Today's Low Prices

An investment in FIXED TRUST OIL SHARES is an investment in the common stocks of 17 of America's greatest oil companies listed above, including both Standard Oil companies and leading independents.

These 17 companies have combined assets of $3,739,742,496. Total surplus amounts to $1,696,737,222, which belongs to the common stockholders and as time goes on may be distributed in the form of extra cash and stock dividends.

Cash dividends and the market value of stock dividends distributed to common stockholders in 1928 were $448,987,682.

Had FIXED TRUST OIL SHARES been created on January 1, 1925, cash distributions would have averaged 15.7% per year on the average price of the shares for the last five years.

Today's market situation presents a real opportunity to acquire an interest in approximately one-half of the entire American oil industry at the lowest prices of the year. If you believe in the future of the United States and of the oil industry, this investment merits your immediate consideration. Complete descriptive circular will be mailed on request below.

The Market Favors the July Investor

Since 1893 James R. Martin & Co. with its direct predecessors has served Southern California Investors

Not for many years has the security market been so favorable for the July investor.

Every indication points to a continued period of cheap money and declining bond yields, although this movement has definitely begun, many high-grade issues are still available on a 6.50 to 7% basis. We will gladly make commitments now for delivery after July 1st.

Events of recent weeks have placed many of the highest grade common stocks on a basis which makes them highly attractive from the standpoint of income as well as offering possibilities of future appreciation in value. The discerning investor cannot afford to overlook these opportunities at current levels.

We shall be glad to make specific recommendations for the investment of July funds. No obligation.

NEW YORK BOND PRICES

NEW YORK, June 25. (AP)—Bonds fell under the spell of the stock market today; dullness set the pace, which was the best of the week, and only United States governments and highest grade bonds found favor, as an easier tone dominated the irregular course of the listed market.

Share privilege issues and speculative bonds were under pressure and even the highest grade obligations failed to fully escape from the downward revision of prices. Widespread declines occurred in convertible bonds, and the closing prices found many at low levels for the year.

The market practically ignored the strong fundamental conditions for a price advance. Undoubtedly the second grade rails and industrials have been affected by business uncertainty but the absence of improvement in the best grade issues can only be ascribed to bond men say, to investors selling either to protect their marginal interests in equity issues or to make new stock purchases.

The losses were most marked among convertible issues, and some warrant bonds. Sales of convertibles were in large volume. Warner Brothers 6s, which closed 5½ points lower, were the sensation of the group.

Dodge Brothers 6s, International Telephone 4½s, 8s, Paul 5s, Chicago Rock Island and Pacific 4½s, Atchison 4½s, and Baltimore 4½s all sank to new low levels for the year. Atchison dropped 2¾ points and the others from ½ to 1 point. Among warrant issues, Walworth 6½s lost 15 points; Southern Pacific 4½s, ½; Pathe ½s, 2.

The quotations represent sales of bonds (in thousands of dollars) and the highest and lowest prices in order given. To expedite transmission, the cipher is omitted when the same as the last figure in both low and close when same as high.

Arrowhead Spring Beverage Company, Ltd. Beverages. Directors, Walter L. Farnshaw, R. O. Wright, Ralph L. Mehrl, Lee Herder and Jacob Capital, 25,000 shares, par value $10. Permitted to issue 2,231 shares.

Addressograph Machine and Supply Manufacturing Company, Ltd. To manufacture machines. Directors, A. Ongar, L. E. Lee, M. Bonnell. Capital, 1000 shares, par value $10. Permitted to issue 840 shares.

Alexander Holding Company, Ltd. To hold real property. Directors, Louis G. Dreyfus, William Heaney and A. Wolf. Capital, 480 shares, par value $1. Permitted to issue 480 shares.

Stream Ice Cream Company. To manufacture ice cream. Directors, Samuel Ames, Frank J. Cornwell, Eli F. Stream. Capital, 500 shares, par value $100. Permitted to issue 200 shares.

Harper & Ross, Inc. Building and contracting. Directors, Phillip R. Harper, Benjamin Ross and Hyman Barver. Capital, 5000 shares, par value $100. Permitted to issue 2901 shares.

WOOL MARKET

BOSTON, June 25. (AP)—Market values on wools are fully firm as compared with last week, although the volume of sales are small. Original bag 64s and finer western wools carried a large proportion of sales. Fair quantities 56-58s and 48-50s territory grades, wools are moving and some demand is being received on 24s quality.

115% Sales Increase

From January 15th to May 15th, 1930 sales of Massachusetts Investors Trust shares increased more than 115% over the same period a year ago! 65% of these sales were made to those who already owned shares in this Trust—a flattering tribute of confidence from those who know.

MASSACHUSETTS INVESTORS TRUST

offers the investor maximum security of principal, satisfactory income yield, capital appreciation; together with sound, conservative management.

The shares are readily marketable.

Complete diversification among 136 corporations—which in turn own or control over 1,000 of the most productive concerns in the country—affords ample protection to the most cautious investor.

May we send you a copy of "Compounding Capital" a booklet which will acquaint you with Massachusetts Investors Trust?

LOS ANGELES EXCHANGE

Stock Prices Rally from Severe Early Setback to Point Upward at Close of Session

While a renewal of the bear attack swept the exchange averages into new low ground in the earlier part of yesterday's session on the Los Angeles Stock Exchange, a vigorous buying movement developed around noon to once more turn the market in an upward direction. The majority of the popular traders including Transamerica, Union, Standard of California and Edison finished higher for the session and final prices for the balance of the list were fractionally mixed.

Southern California Edison, Richfield, Pacific Mutual, Pacific Finance and Macmillan Petroleum with several inactives were hammered down to new bottom levels in the selling wave shortly after the opening. At the close of the session, however, practically all final sales were at the highest prices for the day.

Edison featured the activity with a turnover of 4300 shares. The stock, from, an opening at 84½, went to a high at 85 and dropped abruptly to a new low for the year at 83. On the upturn the issue rallied to end at 84 7-8, up 7-8 net. Pacific Public Service also rallied a point to 25.

Standard of California headed the oil group and from a low at 57 7-8 recovered to end at 59, up 1 point net. Union Oil and Union Associates fluctuated narrowly with the former closing firm at 38 and the latter gaining 1-4 to 37 1-4. Richfield dropped to 14 7-8 and swung up to close at 15½, off 3-8 net, and Rio Grande ended off 1-8 net to 16 1-4 after touching 16 1-8. Macmillan following announcement that the regular quarterly dividend would be passed, dropped 1½ points to 12½.

Transamerica closed up ½ net to 29 5-8 after touching 28 3-4 and Security-First National, after marking a new bottom at 100 ended at 101, down 7-8 net. Farmers' & Merchants' Bank, an inactive issue, advanced 5 points to 435, a new high. Pacific Finance dropped another ½ to 26 and finished at 26 1-4 and Pacific Mutual lost a similar fraction to 74½. Pickwick, Byron Jackson and Seaboard Dairy Crpdit were among the inactives that were depressed to new bottom prices.

Sales totaled 27,447 shares valued at $1,040,843; previous day, 34,913 shares valued at $1,409,668.

LOS ANGELES CURB

Irregular fluctuations ruled on the Los Angeles Curb Exchange yesterday, with only the more popular issues called for trading. Fokker Aircraft, with an advance of 1 3-8 to 19, was the strong spot of the session.

Fox Theaters, Pacific Associates and Universal Oil were the only others of the major group to record an improvement on the day. Cities Service led the turnover and eased fractionally to 26 1-4 and Consolidated Steel preferred and Hancock Oil each hit new low prices on small recessions. Samson Tire slumped 1 1-8 points to 5 7-8.

In the penny list Italo Petroleum preferred and First Security units hit new bottom levels, while Exeter Oil and Kinner improved.

Sales totaled 17,633 shares, valued at $103,556; previous day, 34,638 shares, valued at $100,812.

SAN FRANCISCO

SAN FRANCISCO, June 25. (AP)—Irregularity in prices prevailed on the San Francisco Stock Exchange today. Activity diminished as uncertainty increased in the stream. Sales totaled 40,344 shares at a market value of $1,543,699.

Oilmen were keen in the utility list. Pacific Telephone rose 1½ net, and Pacific Lighting made an equal gain. Pacific Gas and Pacific Public Service were up a point or more each.

Oils edged fractionally higher as buyers watched outcome of the price war and reduction of stocks of oil and gasoline. The best gain was made by Standard of California.

Industrials failed to make headway. The outlook for profits was obscured by actual and threatened price adjustments for products. Some rather inactive issues put forth a spurt, Sherman and Clay lost 3, Alaska Packers 2. Golden State and Jantzen were down 1 each.

Transamerica, which was most active trading issue, did level bobbed up and down during the day within a moderate range, and closed a half point up.

NEW YORK CURB STOCKS

NEW YORK, June 25. (AP)—Curb shares were driven still lower today, as bearish pressure was unabated in the more active issues, and the less active shares drooped heavily on light offerings.

Short covering appeared in large volume in the last half hour however, and a few prominent issues closed higher, after recording new lows earlier in the day. Trading was highly professional, but somewhat more active than yesterday, sales amounting to 540,000 shares.

Electric Bond and Share again drooped close to 70, but rallied to close at 75½, up more than 2 points. Duke Power and American Gas each dropped 4 points. Industrials were mostly under pressure, but Deere, after dropping to a new bottom at 53, closed at 60, up nearly 4. The oils moved uncertainly. Humble lost a couple of points, but the Standards generally were steady to firm. Cities Service sold off nearly a point, then rallied to close at 26⅛, off ⅛.

The closing price is omitted when same as the bid and both bid and close when same as the high.

Baseball, Wrigley Field, 2:15 p.m. Sacramento vs. Hollywood.

"TIMES" THEATER GUIDE

MOTION PICTURES

Alhambra, Hill nr. 8th—"Israel." A gentile film which has caused a lot of talk.

Bard's Eighth between Broadway & Hill. "Only the Brave," a picture of the old South, ably played by Gary Cooper and Richard Arlen.

Boulevard, Washington at Vermont—"Happy Days." The Fox family put on a stage show for the occasion.

California, Main near Eighth—"White Cargo." An English idea of the South Seas is rather good, though sometimes silly.

Carthay Circle, Carthay Center—"So This Is London." Will Rogers proves a wise Yankee, and finds London as funny as Paris.

Chinese, 6925 Hollywood—"Hell's Angels." It took Howard Hughes four years and $4,000,000 to produce the colossus of the air and it was worth it.

Criterion, 617 South Grand—"Big House." Reviewed in today's Times.

Fiesta, Figueroa at Santa Barbara—"The Golden Calf." Music and comedy are fairly well blended by Sue Carol and El Brendel.

Filmarte, 1928 Vine—"Old and New." A pictorial monument to machinery, touched with occasional splendor by Eisenstein.

Forum, Pico at Norton—"Honey." A human bit of comic-drama with Nancy Carroll.

Globe's State, Broadway at Seventh—"The Rogue Song." Lawrence Tibbett opens up his baritone in the Caucuses and everyone applauds.

Grauman's Egyptian, 6708 Hollywood Boulevard—"The Bad One." Dolores Del Rio and Edmund Lowe go through a lot of activities and riots before they finally get together.

Million Dollar, Bdwy. at 3rd—"The Texan." Gary Cooper at home in the saddle-up-and-coming young actor.

Fantages, Hadley's at Vine—"The Devil's Holiday." A unique drama starring Clay Clement.

Paramount, Hill at Sixth—"Byrd at the South Pole." Opens today.

Rialto, Hillshire Area—"Lady of Scandal." Ruth Chatterton in a domestic picture of frenzied finance.

R.K.O. Hill—"The Fall Guy." Opens today.

R.K.O. Orpheum, Broadway at Ninth—"Swing High." Old-time circus atmosphere untimely sets off rather conventional plot. Helen Twelvetrees appeals; Daphne Pollard amuses. Short comedy good.

Tower, Broadway at Eighth—"Journey's End." A fine interpretation of the season's leading war drama. With Colin Clive.

United Artists, Bdwy. nr. 9th—"The Big Pond." An ingenious comedy which provides Maurice Chevalier with plenty of opportunity to display his popular personality.

Uptown, Western at Tenth—"Paramount on Parade." See above.

Warners' Downtown, Hill at Seventh—"Back Pay." A somewhat mediocre tale of misguided love is told by Corinne Griffith and Grant Withers.

Warners', Hollywood, Hollywood Blvd. at Wilcox—"Show Girl in Hollywood" is made before the eye offer entertainment enough—and there is Alice White.

Wiltern, 638 Alvarado—"The King of Jazz." Paul Whiteman, his band and the show strive to please and succeed.

STAGE

Belasco, Hill at Eleventh—"Caprice." A comedy wherein manners and morals are dusted with delightful indiscretion by Fay Bainter and Reginald Owen.

El Capitan, Hollyw'd Blvd. nr. Highland—"Nancy's Private Affair." A smart and amusing comedy, which stars Minna Gombell.

Majestic, Bdwy. at 9th—"The Last Mile." A tense foreign drama of a prisoner's last hour of life. Clark Gable and Eleanor Woods.

President, Broadway at 9th—"Crime." An old-fashioned melodrama which is still good theater. The very noble hero is Kenneth Daigneau.

Vine Street, 1615 Vine—"Under a Virginia Moon." Romance flowers in a honey-suckled garden and the atmosphere is slow and sentimental. With Percy Haswell.

VARIETIES

Follies, 4th and Main—Burlesque.

Attorney for Gerson Fined for Contempt

Jason Grossman, attorney for Ben Gerson, recently convicted of liquor possession, was sentenced to pay a fine of $100 or to serve ten days in jail by Municipal Judge Bogue yesterday for contempt of court growing out of his remarks to the court during the trial. Grossman was granted a stay of execution until 11 a.m. today. His attorney, Isaac Pacht, indicated he will seek a writ of habeas corpus.

Edward Brand, associated with Grossman in the trial of the case, is to appear before Superior Judge Wood at 2 p.m. today for hearing on a writ granted after he was sentenced to pay $300 or to serve thirty days in jail by Judge Bogue in the same case. Brand filed an affidavit of prejudice against Judge Bogue after the latter refused to grant a delay in Gerson's trial and Grossman argued against the order denying the motion for a continuance. Gerson had previously requested a delay on the ground that he did not have enough money to pay his attorneys, Judge Bogue stated during the contempt proceedings yesterday.

FLOWER-STREET PLAN UP TO COUNCIL TODAY

After several postponements, the City Council again is scheduled to hear today the protests against the confirmation of the assessments for the opening and widening of Flower street between Washington street and Thirty-eighth street. This is one of the largest projects of its kind now pending. Appeals also are scheduled to be heard by the Council today against the confirmation of the assessments for the widening of Franklin avenue from Gower street to Argyle avenue, the improvement of One Hundred and Fourth street between Central avenue and Avalon Boulevard and the improvement of One Hundred and Eighty-sixth street between Normandie and Western avenue.

WEATHER REPORT

(Official Report)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, June 25.—[Reported by H. B. Hersey, Meteorologist.] At 8 o'clock a.m. the barometer registered 30.02; at 5 p.m., 30.00. Thermometer for the corresponding hours showed 50 deg. and 72 deg. Relative humidity, 5 a.m., 89 per cent; 5 p.m., 57 per cent. Wind, 5 a.m., east, velocity 3 miles; 5 p.m., west, velocity 6 miles. Temperatures, highest, 77 deg.; lowest, 58 deg. Rainfall for season, 11.53 inches; normal to date, 15.23 inches; last season to date, 12.66 inches. Barometer reduced to sea level.

WEATHER CONDITIONS. — June 25: Light to moderate showers and thunderstorms have occurred during the past twenty-four hours in the Atlantic States and Tennessee, the Ohio Valley, Wisconsin, Iowa, Minnesota, the Dakotas, Nebraska, Wyoming, Montana and Idaho. Temperatures were considerably above normal this morning in the Middle and North Atlantic States and in the Ohio Valley and Tennessee, but it was quite cool in Wyoming, Utah, Arizona and Nevada. The Southern California fair weather prevailed yesterday, with moderate temperature. It was clear this morning, except near the coast, where fog or clouds were reported generally. Temperatures were near the normal. Fair weather will continue in Los Angeles and vicinity Thursday, with moderate temperature. Fog or clouds may be expected in the morning, and gentle variable winds will prevail.

SUN, MOON AND TIDES.—Los Angeles, June 26: Sun rises 4:43 a.m.; sets 7:06 p.m. Moon rises 4:31 a.m., sets 7:54 p.m. Los Angeles Harbor, June 26: High tides, 10:03 a.m. and 8:36 p.m.; low tides, 3:37 a.m. and 2:34 p.m.

VITAL RECORD

INTENTION TO MARRY

The following notices of intention to marry were issued yesterday. Name and age given.

ADAMS—COLE, James R. Adams 31; Winifred Cole, 27.

ALCORN—CHENEY, Byron C. Alcorn, 37; Flora Cheney, 25.

ALLEMAN—McMULLEN, Jesse L. Alleman, 21; Vivian G. McMullen, 18.

ALLEN—BOND, Austin Allen, 28; Elizabeth Bond, 21.

ALMOND — DRURY, James Almond, 35; Louise Drury, 29.

ARNETT—SHIELDS, Mark K. Arnett, 21; Dorothy B. Shields, 20.

BACON — BEAVER, Irving E. Bacon, 36; Margaret Beaver, 22.

BAILLIE—HUBBARD, David E. Baillie, 32; Thelma I. Hubbard, 29.

BARKER — VIRGIL A. Barker, 25; Rosemary V. Webb, 19.

BARTLETT—PERKINS, Clifford L. Bartlett, 24; Frances V. Kilham, 20.

BATASTINI—MIKLAUSCHULTZ, Dante L. Batastini, 20; Evelyn Miklauschultz, 19.

BAUMAN—WARNKEN, Hans Bauman, 31; Lulu Warnken, 32.

BAYLIN — SHERMAN, Morris Baylin, 23; Rae Sherman, 20.

BECK — JOHNSON, E. Emanuel Beck, 34; Ruby Johnson, 25.

BENTON—WILLIAMS, Laurence L. Benton, 31; Lena B. Williams, 31.

BORGER—CROOKER, Richard Borger, 27; Evelyn M. Crooker, 19.

BOWMAN—RICHARDS, Albert E. Bowman, 40; Calla Richardson, 42.

BRADBURY—STONE, George F. Bradbury, 19; Ruth F. Stone, 18.

BUIE — SUMMERS, Trady F. Buie, 27; Lucy E. Summers, 27.

BULLARD—KENNEDY, Cleaville Bullard, 22; Edith E. Kennedy, 18.

CALLENDER—STONE, Elton R. Callender, 21; Loraine L. Stone, 21.

CHESEBRO — FOX, Herbert E. Chesebro, 66; Esther E. Fox, 64.

CLARK — KAREL, Samuel H. Clark, 23; Agnes B. Karel, 20.

CLEGHORN—HOWARD, Clarence E. Cleghorn, 33; Hester E. Howard, 33.

DE FRANCE—TALLEY, Harry E. De France, 50; Ruth P. Talley, 32.

DRYSDALE—HERBERT, James Drysdale, 26; Caddie Herbert, 21.

FILLMORE—BESSINGER, Robert M. Fillmore, 25; Virginia A. Bessinger, 21.

FREEMAN—ORIMES, Joseph T. Freeman, 35; Ave Orimes, 29.

FRONTINO — LEAL, Marino Frontino, 27; Anna Leal, 19.

GANOW — SWENSON, Clifford E. Ganow, 22; Esther E. Swenson, 20.

GAUER — WOOD, Edward H. Gauer, 27; Alta M. Wood, 20.

GILBERT—MOJONNIER, Edwin D. Gilbert, 32; Marguerite Mojonnier, 21.

GROSSE—YOUNG, Frank Grosse, 30; Cora Young, 34.

HANCE — THORP, Howard I. Hance, 54; Blanche W. Thorp, 41.

HAND — SCHMIDT, Floyd Hand, 32; Ann Schmidt, 20.

HANSEN—PAYNE, Walter F. Hansen, 33; Frances E. Payne, 24.

HARGER—HALL, Nelson Harger, 29; Hilda Hall, 30.

HAYES—LIND, George H. Hayes, 49; Augusta N. Lind, 27.

HOFFSCHNEIDER — PANICK, Forest F. Hoffschneider, 22; Vivian D. Panick, 19.

HURST—PARISH, Jan L. Hurst, 27; Eva Parish, 40.

JOHNSON — STEWART, Martin Johnson, 21; Florence Stuart, 21.

KNOTH—HAMMELL, Frederick Knoth, 35; Helen J. Hammell, 30.

KRAMER—VARCOLD, Eberhard Kramer, 30; Kenneth Vasold, 24.

LE CLAIRE—GARNER, Joseph H. Le Claire, 21; Lena Garner, 48.

LUND — BAY, Chris Lund, 63; Helena A. Bay, 50.

MANNERS—KILHAM, Allison W. Manners, 21; Frances V. Kilham, 20.

MARTINEZ—MENDOZA, Refugio Martinez, 21; Mary Mendoza, 24.

McFARLANE—PETERLE, Warren McArthur, 44; Cornelia C. Peters, 29.

BIRTHS

Names, sex, place and date of birth.

ACORD, Mr. and Mrs. Harry, Boy, Monte Sano Hospital, June 22.

APANA, Mr. and Mrs. George, Boy, Maternity Center, June 16.

ARTZ, Mr. and Mrs. Ralph, Boy, 1048 Nineteenth street, June 11.

AST, Mr. and Mrs. Herman, Boy, 7327 Halldale avenue, June 22.

AVERY, Mr. and Mrs. Robert, Boy, 1742 East Fifty-fourth street, June 20.

BROWN, Mr. and Mrs. Jesse, Daughter, 350 Twelfth street, June 18.

BURNS, Mr. and Mrs. Harold, Daughter, 1019 Britannia street, June 24.

BURROWES, Mr. and Mrs. Roland, Daughter, 847 West One Hundred and Twenty-fifth street, June 12.

CASTANOS, Mr. and Mrs. Peter, Daughter, 3663 Avalon street, June 24.

CAWLEY, Mr. and Mrs. James, Daughter, Monte Sano Hospital, June 21.

CHAVEZ, Mr. and Mrs. Elias, Daughter, 263 South Clarence street, June 23.

DELGADO, Mr. and Mrs. Roberto, Boy, 2427 Honduras street, June 20.

DUDLEY, Mr. and Mrs. Rhuark, Boy, Monte Sano Hospital, June 21.

CHRISTIE, Mr. and Mrs. Jesse, Daughter, Methodist Hospital, June 21.

COOK, Mr. and Mrs. Edgar, Boy, Methodist Hospital, June 19.

COPLAND, Mr. and Mrs. Andrew, Boy, Good Samaritan Hospital, June 21.

DE WITT, Mr. and Mrs. Clinton, Daughter, Methodist Hospital, June 21.

GOMEZ, Mr. and Mrs. Refugio, Daughter, 10712 Croesus street, June 12.

GRABSCO, Mr. and Mrs. Ames, Daughter, 1430½ East Thirty-third street, June 19.

HENDERSON, Mr. and Mrs. Paul, Boy, Rice's Maternity Hospital, June 20.

HENSON, Mr. and Mrs. Archealus, Daughter, 4411 Lima street, June 22.

HICKS, Mr. and Mrs. Harry, Boy, Rice's Maternity Hospital, June 21.

JOHNSON, Mr. and Mrs. De Lay, Boy, 2323½ Ocean avenue, June 20.

KNIGHT, Mr. and Mrs. Allen, Boy, Rice's Maternity Hospital, June 22.

LAURIER, Mr. and Mrs. Gerald, Boy, Rice's Maternity Hospital, June 20.

LIGGETT, Mr. and Mrs. Lawrence, Daughter, Good Samaritan Hospital, June 22.

LUNDBERGH, Mr. and Mrs. Walter, Daughter, Southwest Maternity Hospital, June 21.

MALDONADO, Mr. and Mrs. Carlos, Boy, 10741 Gorman street, June 8.

MARIERICH, Mr. and Mrs. Chris, Daughter, 441 Nineteenth street, June 19.

NEILL, Mr. and Mrs. William, Daughter, 1933 Griffith Park Boulevard, June 23.

NORTON, Mr. and Mrs. Walter, Daughters (twins.) Good Samaritan Hospital, June 21.

ODUM, Mr. and Mrs. William, Daughter, Maternity Cottage, June 23.

ORDAZ, Mr. and Mrs. Nasario, Boy, 11829 Aven Way, June 22.

PONDER, Mr. and Mrs. Lloyd, Boy, 5133 Almaden street, June 20.

RAMSEN, Mr. and Mrs. Harold, Boy, Good Samaritan Hospital, June 21.

RODRIGUEZ, Mr. and Mrs. Jesus, Boy, 10807 Lou Dillon street, June 14.

ROE, Mr. and Mrs. Robert, Daughter, Rice's Maternity Hospital, June 23.

ROJAS, Mr. and Mrs. John, Boy, Monte Sano Hospital, June 23.

SEDDON, Mr. and Mrs. Earl, Boy, Rice's Maternity Hospital, June 22.

SHRIVER, Mr. and Mrs. William, Boy, Methodist Hospital, June 22.

STIRK, Mr. and Mrs. Frank, Boy, 359 East Ninety-third Road, June 21.

SULLIVAN, Mr. and Mrs. Raymond, Boy, Methodist Hospital, June 21.

TICE, Mr. and Mrs. Elden, Daughter, Methodist Hospital, June 22.

UNGARO, Mr. and Mrs. Dominic, Boy, 257 Thirteenth street, June 18.

WALTERS, Mr. and Mrs. Robert, Daughter, Methodist Hospital, June 21.

WEXLER, Mr. and Mrs. David, Boy, Methodist Hospital, June 22.

WILSON, Mr. and Mrs. Ralph, Daughter, Southwest Maternity Hospital, June 14.

DEATHS

With Funeral Announcements.

ALEXANDER. Mrs. Annie M. Alexander. Remains at the chapel of W. A. Brown, 1815 South Flower street.

ANDERSON. June 24, Marilyn Marie, infant daughter of Mr. and Mrs. Edward F. Anderson of 6018 Second avenue. Services will be held Friday afternoon at 2 o'clock in Gerrett Brothers' Mortuary, 921 Venice Boulevard.

ATCHISON. At Soldiers' Home, Sawtelle. John M. Atchison. Memorial services at Cresse's, Highland Park, Friday at 3 p.m.

BARONE. In this city, June 24, 1930, Vivian J. Barone, aged 2 years, beloved daughter of Mr. and Mrs. Daniel Barone. Private funeral services will be held at Calvary Cemetery today at 2:30 p.m. Paul D. Robinson, director.

BROWN. Mrs. Adelina M. Brown, late of 4341 St. Elme street, beloved mother of Dr. J. Colville Brown. Funeral services Saturday at 2 p.m. from the Bramble Funeral Church, 1816 South Toberman.

BROWN. Clarence, beloved husband of Edith Brown of 1503 South Mansfield. Funeral services Friday at 2 p.m. at the Le Chemmant parlors, 911 Venice Boulevard.

BROWNING. June 25, Adda Nye-Browning of 410 East Eighty-second street, widow of the late Lewis Browning; beloved aunt of Mrs. W. A. Oliver. Funeral notice later. Armstrong Funeral Home in charge. (Portland, Me., and St. John papers please copy.)

BROXHOLME. At 2043 Yosemite Drive, William Broxholme. Private services at Cresse's, Eagle Rock, Friday at 2 p.m.

CHEDD. Martha Elenore Chedd, member Golden Chain Charter, No. 303, of Oakland, Cal. Eastern Star services today at 10:30 a.m. from the parlors of L. F. Utter Co., 4254 South Broadway.

FENNING. Richard Robert Fenning, aged 16 years, late of 230 East Forty-third street, son of Willie C. and the late Robert J. Fenning; brother of Roy O. Fenning and grandson of Mrs. Lena Olsson.

DREDGING CONTRACT AWARDED

Fish Harbor Job Granted to Standard Company on Its Low Bid of $71,640

On its low bid of $71,640 the Standard Dredging Company yesterday was awarded by the Harbor Commission the contract for dredging Fish Harbor and the Fish Harbor entrance channel on the south side of Terminal Island.

The work is to start within fifteen days of the execution of the contract, to be completed within 135 days thereafter, with an understanding that the West Basin dredging for the United States district engineer's office, for which the same company has the contract, will be held in abeyance until the Fish Harbor dredging is completed.

The rapid increase in the size of fishing craft at Fish Harbor, because of the practice of making long sea voyages in search of tuna, is the reason the work, which was not included in the recent government appropriation, is necessary, according to the harbor department.

Three Highway Projects Will be Speeded Up

Speeding up of three important highway projects in Los Angeles county was seen yesterday when the Board of Supervisors, on motion of Chairman Graves, ordered County Surveyor Rockhold to make alignment surveys prior to the acceptance of road deeds and right of way dedications.

One of the surveys called for is for the proposed seven-mile cut-off between the Ridge Route and Chatsworth, beginning at Castaic. Another is for a cut-off highway between Mint Canyon Road with its junction with Soledad Canyon Road to San Fernando Road. The third survey sought is that of Pico Canyon Road from Newhall to the Saugus-Ventura highway one mile west of the county boundary line.

CITY NEWS—EDITORIAL—SOCIETY—THE DRAMA

HUBER TALE DENIES SLAYING

Woman Tells of Being Locked in Garret

Sobs Shed Tears During Dramatic Recital

Will Cross-Examination Be Faced Today

Otto Sanhuber, "ghost of the garret," took the witness stand in his own defense yesterday and denied that he murdered Fred Oesterreich.

The dramatic scene as the climax of perhaps the most unusual story of crime ever told to a jury—the life story of a man who spent more than seven years of his existence in prison for the love of a woman, told in a high-pitched voice and in a rather monotonous manner.

He told practically all of the time he was not killing—and he was on trial for the greater part of the time—while tears fell on a wrapt audience. Once several of the jurors smiled. A few times they smiled, showing their attitude was that of close attention.

CONFESSION REPUDIATED

Sanhuber's version of the murder was that he was at his home on the night of August 1, 1929—locked in his garret. He says the shooting took place. He has confessed to the murder and has been tried by the grand jury because he was told by an attorney representing Mrs. Wallburga Oesterreich, widow of the murdered man and friend of Sanhuber loved, that it was the only way she could be saved.

He was sleeping in my cubby-hole room at the time of the murder when Mrs. and Mr. Oesterreichs came home," testified Sanhuber. "I think I heard the cat and it woke me up. I heard her come upstairs and there was an awful sound like—"

Sanhuber said that he heard Mrs. Oesterreich hurry downstairs and then come back to her room and was "whimpering." Then I heard a strange step, slowly, come up the stairs," he told the witness. "I heard whispering at the closet."

SCRATCHED ON WALL

Sanhuber said he scratched on the wall, which bordered the Oesterreich bedroom, but that she did not answer, and when he scratched again he said: "Be still! Do you want to be killed?"

He remained in the garret all that night and the next day and the next night," went on the "ghost." "Finally she came up and unbolted and let me out. She was crying. 'Fred is dead,' she said. I do not know it. She said, 'And you are on my hands.'"

The witness said that he asked Mrs. Oesterreich a lot of questions and that one would answer was to the effect that he was breaking her heart.

MOVED TO ATTIC

Mrs. Oesterreich, a few days after this, moved to a new home at 101 North Beachwood Drive, Sanhuber continued, he again lived in his abode in the new attic, and with there often saw Herman Oesterreich, who was then Mrs. Oesterreich's attorney.

"He was there most of the time," testified Sanhuber. "When Mrs. Oesterreich was arrested a little later and I was put in jail, he came and got me out of the attic. He became my friend and gained my confidence. I told him I wanted to go down to headquarters and tell what I knew and he advised him a statement that I had written, but he said it was no good when he figured out that I had told the grand jury—that by shooting Fred. He said it was a surprise. He thought up the self-defense idea about Fred coming at me first. We re-enacted the crime and he played the part of Fred. Sometimes I'd forget and he'd be a fool and a nut, but he was the only way I could get Mrs. Oesterreich."

CASE MAY END SOON

Sanhuber was still on the witness stand when court adjourned for the day. He probably will undergo a vigorous cross-examination by Asst. Dist.-Attys. Costello and Dockweiler. With the end of his testimony it is expected that Defense Attorneys Shumaker and Rogers and Hahn will rest their case and arguments may commence today.

Sanhuber took the stand shortly after 11 a.m. yesterday and his story of words revealed the trend of his dramatic testimony. In answer to questions, he declared that he did not know where or when he was born, nor who his parents were. His first recollection was of living with a family by the name of San-

POLICE JOB IN PROSPECT RENOUNCED

Burke Asks His Name be Dropped as Aspirant "for Time Being"

In face of the fact that rumors have been going about the City Hall for several days that an ordinance was being prepared by some members of the City Council to provide for the appointment of C. W. Burke as superintendent of police at a salary of $500 a month, Burke apparently removed himself from consideration for any such post yesterday by addressing a letter to Mayor Porter asking that the matter be dropped "for the time being."

Burke based his temporary withdrawal on the ground, his letter to the Mayor says, that "your support of me as a reorganizer of the Los Angeles Police Department has caused you some embarrassment."

"I do not desire to embarrass you," his letter continues, "so I request that you cease any consideration of my name in this connection at this time."

Attention was first drawn to Burke, for years a private detective, when the Police Commission several months ago passed a resolution to hire him at $500 a month, to be paid from the secret service fund, to reorganize the police department.

The City Attorney ruled that this fund could not be used for such a purpose but could only be devoted to secret service work in liquor and narcotic cases, for which it was appropriated by the City Council.

Subsequently Burke's son, Charles, Jr., was placed on the pay roll as an investigator for the Police Commission but later was assigned by Chief of Police Steckel to work under Detective Jones, head of the recently formed secret service division, with headquarters in the Mayor's suite.

IMPROVEMENTS ORDERED

Ordinances of intention were adopted by the City Council yesterday for the improvement of Rexford Drive between Pico Boulevard and Airdrome street, of Riverton avenue between a point 1247.35 feet north of Magnolia Boulevard and Magnolia Boulevard, and of the streets in the Stoner-avenue and Nebraska-avenue improvement district, and for the building of sewers in the Pine-street and Pershing Drive improvement district. The protest date on the first two was set as July 31 and on the other two as August 4.

BEACH DRILLING CURBS PLEDGED

Mayor Promises Hearings on Any Possible Leases

Protestants Also Reminded of Case Now in Court

Porter Refuses to Reply as to His Personal Views

Before the city leases for oil development any of the long stretch of public beach between Ocean Park and Playa del Rey, Mayor Porter announced yesterday, the city's right to do so must be settled by the courts and there will be at least three public hearings where all interests may make known their wishes.

The Mayor made the announcement in course of a hearing which he gave to a group of some twenty-five persons who called to protest against the possibility of such leases.

Mayor Porter pointed out that Lewis Stone, actor, a property owner in the vicinity of the beach, has instituted a suit to enjoin the city from making such leases and that this issue must be determined first. He told the visitors also that before the Playground and Recreation Commission will decide the question, after its rights are defined, it will hold a public hearing. President Weaver of the commission made an identical announcement.

HEARINGS PLEDGED

The Mayor told the visitors also that if the commission decides to make such leases it will have to request the City Council to enact an ordinance ratifying them and that the Council will hold a public hearing. Further, he said, he will hold another public hearing if such ordinance ever reaches him for signing.

Meanwhile, Superior Judge Schmidt in the Stone case restrained the commission from making such leases until July 1 at 10 a.m., at which time Superior Judge Hanby is to begin hearing on the issues.

"Are you yourself in favor of drilling or not drilling on the beaches?" Baldwin Robertson, attorney for the protesting Del Rey Improvement Association, asked of the Mayor.

"You'll get no answer from me?" Porter replied.

"Why not, Mr. Mayor, you're in control?" a voice from the audience called.

The Mayor ignored it. Later he said in referring to the leases proposal:

"There is hardly a possibility that it will happen."

PEOPLE TO DECIDE

At another time when it was being represented that public opinion greatly is against such leasing he said:

"The Playground Commission will not override the will of the people."

After the Mayor had pointed to the court proceeding, instituted the day before, he said:

"I know my mind right now."

"But not for public announcement?" Robertson queried.

There was no reply, but shortly later the Mayor said:

"Something might develop that would change my mind."

There was much talk about the question of whether the city has a moral right to lease the beach and as to what effect this would have on its use as a public bathing and recreation ground, but the Mayor said there will be ample time and occasions provided for this discussion.

MOVE MADE IN COUNCIL

Meanwhile an attempt was made in the Council to call at least a temporary halt in its granting private property owners in the immediate vicinity of the beach the right to drill for oil. However, nothing came of it except expressions of regret by several Councilmen that they had not appreciated the extent of the problem which would be created when they first voted to allow the area to be opened to oil well development.

Since the controversy which attended the granting of the first permits the Council almost daily has been granting additional ones in a cursory and routine matter. Yesterday, however, when the application of Thomas Strain to drill on two lots at Avenue 36 and Speedway came up Councilman Williams objected to routine passage of it.

SUPPORT GIVEN

His stand was supported by Councilman Henning.

Councilman Randall pointed out that he had attempted to get the Council to adopt a definite policy before the drilling orgy started, but that now it is too late. Councilman Barthel agreed.

Council President Sanborn re-

(Continued on Page 3, Column 1)

RUM TAKEN AS RESULT OF "ERROR"

Driver Makes Mistake of Going to Warehouse Used by Prohibition Men

One of the great mistakes of the year was made yesterday, according to Federal dry agents, when Wilbert H. Cross, giving the address of 755 Freeman street, Hawthorne, drove up to the Los Angeles Warehouse, 316 Commercial street, also used as a government depository of seized liquors.

The prohibition men say Cross drove an expensive truck to the warehouse, asserting he had considerable linseed oil to be placed in storage. He is reported to have unloaded half of a load of 1000 gallons of alcohol, which did not gurgle properly for W. C. Hill, foreman of the warehouse. Two dry agents who were present investigated and discovered alcohol, according to their report.

The prohibition officers communicated with George Sweet, chief Federal investigator for this district, who instructed them to have a car with agents ready to arrest or follow the man when he returned later in the day to unload additional alcohol. It was reported that when Cross returned the dry agents saw several men in a car near by and feared an attempt to hijack the liquor, so Cross was arrested and his liquor seized.

In all, the officers reported getting 1000 gallons of alcohol and 250 cases of beer of 3 1-2 per cent potency. It is estimated that the values of the liquor seized and the truck amount to $10,000.

Cross was arraigned before United States Commissioner Head on a charge of transportation and possession of liquor. He was released on bail of $3000 pending a hearing on July 10, next.

GILLETTE, RAZOR MAN, GRAVELY ILL

Inventor Under Knife for Second Time in Six Weeks at Hospital Here

King C. Gillette, safety razor inventor, 76 years of age, is gravely ill at the California Lutheran Hospital, following a second operation for an intestinal ailment of which he has been a sufferer for several years. He has been at the hospital for six weeks under the care of Dr. P. G. White. Living in the same suite at the hospital with him is his wife, Mrs. Alanta Gillette, who is helping nurses to care for the patient.

Mr. Gillette's illness became serious while he was living on the family ranch near the Crags Country Club at Calabasas. He was removed to the hospital and an operation was performed by Dr. White. Yesterday a second operation was found necessary. According to the physician, Mr. Gillette's condition, although serious, is satisfactory, considering the nature of the operation and the age of the patient.

Mr. Gillette was born in Fond du Lac, Wis., and came to Los Angeles almost ten years ago. He invented the razor which bears his name prior to 1900, and in 1901 organized the Gillette Safety Razor Company. He has one son, King G. Gillette, who, with his family, also lives on the Calabasas ranch.

STREET PETITION PREPARED

A petition has been prepared and issued by the City Engineer, in accordance with instructions from the City Council, for the widening of the north roadway of Venice Boulevard to fifty feet between Exposition Boulevard and Jasmine avenue.

MARCIE BRODIE ON LIST

Miss Marcie Brodie is among the graduates who have just received diplomas from Fairfax High School. Her name inadvertently was omitted from the list published Tuesday.

Mrs. Gilmore Resists Allowance Cut

Ruth Mix Gilmore

RUTH MIX GILMORE, daughter of Tom Mix, screen cowboy, and recently acquired bride of Douglas Gilmore, actor, appeared in Superior Judge Westover's court yesterday to resist a motion of her father's attorney, R. D. Knickerbocker, to discontinue the $225 monthly allowance paid by Mix for the support of his daughter.

Mrs. Gilmore, who will be 18 years of age July 13, next, has retained I. B. Kornblum as attorney, and he asked the court for a continuance until next Monday to prepare the case. Attorney Knickerbocker, for Mix, who is touring with a circus, did not oppose the motion.

Ex-Angeleno, Consul at Rio, Here on Visit

Samuel Reid Thompson, former Angeleno and now United States Consul at Rio de Janeiro, arrived in Los Angeles yesterday with Mrs. Thompson and their two children for two months' vacation. They are at the home of a brother, A. K. Thompson, 1235 West Seventy-fifth street. The father, John C. Thompson, of Olympia, Wash., is here for the occasion.

SAMUEL R. THOMPSON

Mr. Thompson, a graduate of Redlands University, entered diplomatic service and left here more than ten years ago. He was first in Rosario, Argentina, for four years, then in Chile for three years, Bristol, Eng., for a time and for two years he has been in Brazil.

The family arrived in New York on the 18th inst. Mr. Thompson was here last six years ago.

ECONOMIC OUTLOOK TO BE SCANNED

State Chamber's Board of Directors Meets Today in All-Day Session

Another check on California's economic status will be made today at the meeting of the board of directors of the California State Chamber of Commerce, convening at the Jonathan Club. In order to give all questions careful consideration the session is scheduled from 9:30 a.m. until 4:30 p.m.

Following the economic survey by regions one of the important questions which will be discussed is that of the grape sign-up so that any needed assistance may be given to obtain the 85 per cent of the acreage required by the Federal Farm Board in connection with the proposed financial aid. Other subjects scheduled deal with conservation, industry, highway development, aviation, street and highway safety and publicity.

Frederick J. Koster, president of the State Chamber of Commerce, who has just returned from Europe, will preside.

Daylight Saving Project May Get Place on Ballot

With the announcement by Registrar of Voters Kerr that his check of the petition to place a daylight saving measure on the ballot next November totaled 81,426 valid signatures of registered voters of Los Angeles, officials of the California Daylight Saving League declared yesterday that a check now being made of petitions filed in San Francisco with approximately 30,000 signatures will put the proposition "over the top."

The initiative law requires that a total of 91,529 registered voters in the entire State must sign the petition in order to insure the issue going before the people at the general election, Registrar Kerr states, and proponents of the time change anticipate that the total number of valid signers will be well over 100,000. If so, daylight saving will be on the ballot.

MAYOR ACCEPTS REVISED BUDGET

Porter Signs Only to Save City Embarrassment

Reductions Made by Council Displease Executive

Decision Not to Veto Based on Legal Opinion

Formal approval was given by Mayor Porter yesterday to the municipal budget for the fiscal year beginning July 1 as revised by the City Council. The Mayor was reluctant to sign the revised budget, which made reductions totaling $993,340 in the appropriations originally submitted by him, and in a letter which he will transmit to the City Council today he will point out that he signed the revised budget only to prevent the city from being put in an embarrassing position because of an ambiguity in the charter.

If the Mayor had vetoed the budget as revised by the Council, it would have required a two-thirds vote of th eentire Council, that is, ten votes, to over-ride the veto and put the revised budget into effect. In the event that the ten votes to over-ride the veto could not be mustered in the Council, it had been assumed that the budget as originally submitted by the Mayor would have gone into effect on July 1.

OPINION DELIVERED

Before taking final action, however, the Mayor obtained a written opinion on the point from the office of City Attorney Werner and it was because of the advice contained in that opinion that the Mayor decided not to veto the instrument. In the opinion, written by Assistant City Attorney Neal, the latter states that he believes the courts will sustain the contention that the Mayor's original budget should go into effect if the Council did not over-ride his veto.

The charter is extremely ambiguous on the point, however, Neal states, and there would be some ground for the contention that no budget at all had been adopted if the Mayor vetoed the Councilmanic revisions and his veto were not over-ridden in the Council. A court action to determine that point, it was said, would put the city in a serious position, with anyone who wished to bring a suit probably able to obtain at least a temporary injunction to restrain the putting into operation of the Mayor's budget and the basing of a tax levy on it.

VICTORY DANGEROUS

If the Mayor were certain that there were ten votes in the Council to override a veto, he would have vetoed the revised budget, he said yesterday, inasmuch as he still believes the reductions were unwise and unnecessary. However, a victory for him, with the Council unable to muster the votes to override a veto, he pointed out, would have brought on the dangerous situation pointed out in the City Attorney's opinion and he decided, much against his wishes, to sign the document.

He will urge the Council, in his letter today, he said, to take the necessary steps to submit an amendment to the charter at next November's election to clarify the ambiguity in the charter relative to the situation arising from a veto of Councilmanic budget revisions.

COMPROMISE PLAN

In accordance with a compromise suggestion adopted by the Council as to the necessity of the reductions it made in the Mayor's estimates, the $993,340 will be set up in the unappropriated balance. If, then, by September 1, it has been found that the revenues of the city from taxes are sufficient, the money will be reallocated to departmental activities in accordance with the original allocations in the Mayor's budget.

The general budget for operation of the city government totals $25,000,000, less the conditional $993,340 retrenchment, which may or may not go into effect on September 1. During the months of July and August, however, the city departments will continue to operate on the basis provided for in the Mayor's original budget.

The city's grand budget for the ensuing fiscal year totals $79,729,690. This includes, besides the $25,000,000 general governmental budget, the power bureau's budget of $22,697,700, the water bureau's of $14,900,000, the budgets of the other self-sustaining departments, namely, library, park, playground, and the bond redemption fund.

LICENSE FEE CUT ASKED

A reduction of license fees has been requested of the City Council by the California Used Furniture Dealers' Association. The matter has been referred to the Finance Committee and the City Clerk.

The Lancer

by Harry Carr

A HUNDRED dollars reward has been offered by the International Desert Conservation League for the arrest of the idiot who burned the big Joshua tree near Lancaster.

It would be impossible to imagine a crime more wanton or senseless. Or a destruction more irreparable.

These Joshua trees are what has given color and interest and charm to the desert. What has turned the desert from waste land to one of the greatest assets of California.

The news accounts of this crime stated that the tree was probably 300 years old. It was, in fact, much older. That old tree was poking its head up through the harsh desert at a time when knights in armor were marching to the First Crusade—possibly even before that.

The irony is that it was burned to make a bonfire, no doubt, for some miserable rat whose life was not worth one shred of the old tree's bark.

THE SACRED CHAIR

The second-hand dealer who bought the sacred ceremonial throne from the cult of the Royal Arm of the Great Eleven need not be alarmed. He will not be stuck.

The throne was designed by the cult leader as a seat for the Deity when He visits this earth. In the circumstances it will be easy to rent it to movie banquets given in honor of magnates returning from little trips with new crops of nephews.

MISS AMERICA

Florida is in the throes of a frightful panic because it has been discovered that the young lady whose legs won the first prize as "Miss America" wasn't a "miss" at all; but was a divorcee from Texas.

In Hollywood we are much less fussy about such things. We do not attempt to follow them through the varied convolutions of their divorces and marriages. We call them "miss" to the bitter end.

Visitors to Hollywood soon become accustomed to being introduced to "Miss Pickles and Mr. Sauerkraut, her husband."

THE GREAT HIGHWAY

It looks as though the International Pacific Highway had become a sure thing . . . following the scout tour last March by the Automobile Club of Southern California.

Without waiting for anybody, Argentina has appropriated great sums of money for her end of the highway and is making active preparation to push it through. The United States government has appropriated $50,000 for making its part of the survey through Central America. The Mexicans are enthusiastic. All that remains is to provide some sound method of financing the road through that country.

The foresight of the Automobile Club in mapping the west coast route will assure to Los Angeles a great tourist traffic which will come from the East, go south through Laredo and circle up the romantic west coast to California.

BRAINY SCHOOLMA'AMS

Several little California schoolma'ams with a lot of brains have helped this project in helping their pupils.

This spring they taught Mexican history and geography by following day by day the route of the Automobile Club exploring expedition.

In one school the manual-train-

FEAST MARKS MILESTONE OF MIDNIGHT MISSION

Homeless wanderers from the streets sat beside the rich and well-to-do last night. Shabby old men, palsied and weak, broke bread with youth and hope. From the darkness of the city came the homeless into the thin circle of light on the sidewalk and from there in to the banquet hall, as welcome guests.

"Brother Tom," the Host

Yesterday was the thirteenth anniversary of the founding of the Midnight Mission and "Brother Tom" Liddecoat was host to his forlorn flock. Men were his guests who carry his name written on a piece of cardboard in their pockets. They have his promise to bury them. Men were his guests who were helped into jobs through his kindness and through the work of the Mission.

The great tables were filled three times and each time "Brother Tom" spoke as a host before the good food was eaten. Everyone who was hungry was welcome.

They sat on long benches afterward in the gospel hall, facing a flag-draped choir loft. They heard the old songs they knew. Some, desperately tired, frankly slept. The

COMPANY ACCUSES RIVALS

Title Insurance Concern Enjoins Competitors' Use of Data Stolen by Employee

The Title Insurance and Trust Company yesterday filed suit in Superior Court to enjoin the Security Title Company and the American Title Insurance Company from making use of information charged to have been stolen from the plaintiff company by a dishonest employee and which is said subsequently to have come into possession of the defendant concerns.

The asserted stolen information consists of data bearing on more than 1000 "base titles" compiled by the Title Insurance and Trust Company. The data in question have been taken in charge by the District Attorney during pendency of the injunction proceedings. The plaintiff also asks damages to the amount of $20,000.

In explaining the meaning of "base titles" and the importance attached to asserted theft of the data, a representative of the Title Insurance and Trust Company yesterday explained that in the early days of American occupation of California land titles were in a chaotic condition. This was due to the fact the lands were originally Spanish and Mexican grants, poorly described and improperly recorded in many instances. Surveys were not accurately carried out and many lawsuits and confusion resulted.

To correct this condition and make secure the ownership of lands, the Title Insurance and Trust Company spent millions of dollars to survey the lands of Los Angeles county, make proper record of deeds and establish a system to guarantee that new purchasers of lands should get clear titles.

The information thus compiled

OWENS VALLEY DEAL LEGAL

Court Sanctions Water Board Purchase of Towns by Dismissing Taxpayer's Suit

First approval by the law of the proposed purchase of five Owens Valley towns by the Board of Water and Power Commissioners was given yesterday when Superior Judge Hazlett sustained the demurrer of the city to a friendly suit brought by a city taxpayer seeking to enjoin the board from making the purchase.

The action of the court is considered of tremendous importance to the water development program of the city in the Owens Valley area. The plaintiff, Edwin F. Wehrle, was given ten days in which to amend his complaint or he may take an appeal.

The attorneys in the case felt they had brought up every possible objection to the purchase and so it is not likely that the complaint will be amended. The plan is to carry the case to the Supreme Court for final adjudication.

In his complaint Wehrle contended the city had a survey made of some 3100 parcels of land in the towns with a total appraised value of $4,521,736.58 and that the city then increased the valuation to $5,696,334. He complained such action will increase his taxes.

The city entered its demurrer and argued that if had followed every legal step in its proposed purchase program, beginning with the appraisal, the adoption of the bond issue from which the purchase money is to come and other steps. The court held that the city has the authority to exercise its discretion in the matter of land purchases for its water development program, even as to the price it proposes to pay.

The case was argued for the city by F. M. Bottorff and Carl Davis of the water bureau's legal depart-

ATTIC SLAYING STORY REVISED

Sanhuber Testifies to Being Locked in Garret

New Version of Oesterreich Murder Told Jury

"Coached" Confession Held Made to Save Woman

(Continued from First Page)

huber in Milwaukee, but he left these people after he had completed the sixth grade in school and had found a job in a glove factory.

He soon left the glove factory, he said, and began to work for the Singer Sewing Machine Company as a repair man, and this occupation brought him to the Oesterreich apron factory, at that time in Milwaukee.

"They took an interest in me," said the ghost man. "Fred was like a big brother to me. They became a part of my life."

They took a trip to St. Louis and when they came back, Sanhuber said, he took up his residence in the Oesterreich garret for the first time, and lived there about two years.

"I lived in four garrets in Milwaukee," he testified.

While living in one of these what Sanhuber thought was "his big chance" took place. It was the beginning of America's participation in the World War.

"I heard them talking about it downstairs and I thought it was my big chance," the little man declared. "Oesterreich was for Germany, but he loved this country, too. One day I got dressed and went to Racine and did what they told me to and they gave me a card and said they would call. I came back and told Mrs. Oesterreich. She cried. I said I was somebody—I had a card."

BACK TO ATTIC

"It didn't come to anything," confessed Sanhuber, his voice breaking, and he told of going back to his attic until the Oesterreichs made preparations to come to California.

It was considerable time before the Oesterreichs bought a home in Los Angeles, testified Sanhuber.

"She had difficulty finding a house with a decent attic in it," he explained, and the courtroom broke into spontaneous laughter that was promptly halted by Judge Hardy.

However, when the house at 888 North Lafayette Park Place was finally purchased, the garret man said, Mrs. Oesterreich said he could have any part of the attic he wanted and made some alterations to the house for this purpose, and Sanhuber moved in his mattress and blankets.

"I could lock it and I'd be in my home then," he explained with seeming pride.

"Well, did you ever come out of the attic?"

CLEANED AND SCRUBBED

The question revealed another strange part of the attic man's existence. He said that each day he came out of his cubby hole to wash and sweep and clean the Oesterreich house.

"I'd clean the vegetables, too—and I'll say they were clean," declared Sanhuber with spirit. "Everybody complimented Mrs. Oesterreich on her housekeeping."

Sanhuber went on to say that he also made the beds and even tidied up after Mr. Oesterreich.

"And didn't he ever know you were in the house?" interjected Judge Hardy.

"Not to my knowledge," was the answer. "Mrs. Oesterreich used to tease me when she found some dust or something that I had done wrong. She said, 'I'll have to talk to Fred about this.' Of course, she was only teasing."

"I'LL KILL HIM"

Sanhuber said, however, that he sometimes heard Oesterreich and his wife talking about him.

"She said, 'Fred, is it all right now with little Otto?'" testified the witness. "And he said, 'There's one thing I'll do; I'll kill him if I ever see him.'"

About two months before the murder, Sanhuber asserted, Mrs. Oesterreich's visits with him became fewer and the man in the garret said he often heard the voice of Roy Klumb, once a friend of the Oesterreichs and now a prosecution witness, in the downstairs rooms.

He said he slipped down the stairs once and saw Klumb sitting in the parlor.

"She was busy with Klumb a lot of the time," said Sanhuber, "and she began getting pretty gay."

From that time on, Mrs. Oesterreich was not as good to him, said the witness, but had moments of kindness.

"She said once I was like a faithful dog with a human soul," said the garret man.

In the middle of Sanhuber's testimony, the defense called Klumb to the witness stand to lay the foundation for impeaching Klumb's testimony on direct examination. Klumb denied that he was at the Oesterreich home early on the night of the murder and that he had had an argument with Oesterreich about a business deal.

PAVING REQUEST FILED

The paving of Carroll avenue between Douglas street and West Edgeware Road is requested in a petition received by the City Council and referred to its Public Works Committee and the City Engineer.

LIQUOR SENTENCE LIFTED

A fifty-day suspended sentence will dangle over the head of Chester H. De Haven, it was announced yesterday by Municipal Judge Egan, following the intervention of Probation Officer Rose. De Haven was arrested on the morning of the 15th inst., when he was assertedly found drunk while driving an automobile at Colorado Boulevard and Windermere street. The probation officer said he investigated and believes, because of De Haven's previous good record, that he is deserving of clemency. He added that a jail sentence or fine would impose a severe hardship on his family. The court, however, suspended his driver's license during the fifty-day period and ordered him to abstain from liquor for a year.

BULGARIAN STUDIES LIBRARIES

Book Service in This Country Praised

Miss Margaret Demchevsky in Native Dress

LIBRARIES in Bulgaria will soon become modernized if Miss Margaret Demchevsky has her way about things. She is in this country on a fellowship of the Carnegie Endowment for International Peace and this week has been attending the meetings of the American Library Association.

In her own country Miss Demchevsky is the library specialist for the Ministry for Public Education and her mission in the United States is to study American libraries, their plan of organization and system of operation.

There are more than 2000 public libraries in Bulgaria, she said, which is a country smaller than the State of Wisconsin. But they are hopelessly old-fashioned, she explained. In each community the library constitutes a community center, with the book phase of it the least important part. Through her study of American libraries she hopes to bring them up to date so that they may offer the same brand of efficiency and service, which she considers the most distinguishing features of the institutions of this country. She also hopes to establish library schools so that Bulgaria will have a force of trained library workers. Miss Demchevsky is a graduate of the London University School of Librarianship.

STATE'S LIBRARY FAME TOLD

California Session of National Convention Draws Largest Crowd at Biltmore

California has reason to be proud of its libraries and library system. Of this there is no doubt after the glowing accounts of various phases of its work, given at the California session of the American Library Association, at the Biltmore, yesterday morning.

Manifestly, the story of its fame had gone before it judging from the fact that the meeting drew a larger attendance than any previous general session. It even included a special delegation of sixty library students from the Riverside library school, and convention members turned out in full force to hear the California speakers.

OUTSTANDING FACTS

Outstanding facts in the development and history of the California county library system, the largest in the United States, were recounted by Milton J. Ferguson, California State librarian, who said:

"Under the California system 2500 school districts out of the 2800 of the State are supplied plentifully with books chosen by trained librarians and especially adapted to young students' needs. This will make it possible, for the first time on a State-wide scale, to judge whether the early initiation of a child into the uses of a library will give him power and incentive to continue his education after he graduates from school, and to see whether adult education is a dream or a reality for the next generation.

"California's contributions to library practices are made in the belief that they are part of a social movement tending toward a finer life for every man."

MISS WARREN SPEAKS

Concerning the public libraries of the State, Miss Althea Warren, first assistant librarian of the Los Angeles Public Library, said:

"Wealthy citizens have not yet come to feel as they do in eastern towns, that the public library should be remembered in their wills with endowments for branch memorial buildings, funds for book purchases or gifts of fine private book collections. In many cities, too, the library allowance of $1 per capita, considered a minimum for up-to-date service by the association, is way below that figure, and this in addition to crowded buildings and inadequate book collections in many instances, makes the need felt for endowments and other revenues. However, some cities, notably Los Angeles, Pasadena, Riverside, Long Beach and San Diego, already have reached a stage of popular support almost equal to the standard of the association."

Long Beach, according to Miss Ella Morgan, Lincoln High School librarian, may lay claim in the field to public school service to have attained almost the ideal, and the Los Angeles city school library is not far behind with almost 1,000,000 volumes loaned weekly through the classroom teacher by weekly deliveries to the elementary school buildings, she said.

Max Farrand, director of research at the Huntington Library, completed the account of California institutions with a description of the treasures of the Huntington Library, and declared that it is the aim of its directors to make the quality of its research and service commensurate with the quality of the library itself, which probably, he said, is the finest of its size in the world.

GUESTS AT LUNCHEON

About sixty-five delegates sent to the convention by the governors of many of the States of the nation were guests at a luncheon at the Biltmore, at which officers and trustees of the association were the hosts. Andrew Keogh, president, introduced the speakers, who included Lyman Bryson, head of the California Association for Adult Education; Ernest Braunton, assistant editor of the California Cultivator, and Milton J. Ferguson.

Of interest in the afternoon sessions was the paper read before the adult education round table by John D. Willard, research associate for the American Association for Adult Education.

TODAY'S SESSIONS

This morning round-table discussions will comprise the third session of the American Association of Law Libraries. A. F. Kuhlman, assistant director of the University of Chicago libraries, will be a speaker and Will N. Randall of the graduate library of the University of Chicago is also on the program. After the session the delegates will be guests of the Bancroft-Whitney Company, law publishers, at a luncheon at the Deauville Beach Club, after which they will tour the beaches, the Wilshire district and Hollywood.

A reception in honor of the president and past presidents of the American Association of Law Libraries was held last night at the Chateau la Martine, Normandie avenue and Wilshire Boulevard. The reception and dinner were attended by about 200 members of the association who are in Los Angeles for their annual convention in conjunction with the convention of the American Library Association.

ment, with Walter J. Little and A. L. Bartlett for some of the valley interests acting as amicus curiae. Mr. Wehrle, an attorney, handled his own case.

The towns involved are Lone Pine, Independence, Big Pine, Bishop and Laws.

ART SALON FETE HELD

The fourth anniversary of the founding of Hollywood-Plaza Hotel's monthly art salons was celebrated last night with more than 600 guests in attendance. Mrs. Leland Atherton Irish served as hostess and the program, arranged by Gabriel Ravenelle, the founder, included addresses by L. E. Behymer, Otis Skinner and George Fawcett, vocal solos by Edouard Lankow of the Metropolitan Opera Company and Japanese dances by Michio Ita.

TRAFFIC SIGNAL CHANGE BEATEN

Semaphores Ordered For Wilshire Boulevard

Council Unopposed to Using Ornamental Posts

Co-ordination Plan Given Approval, However

The long fight of the property owners along Wilshire Boulevard for the installation of the colored light type of traffic signals along that thoroughfare ended in defeat yesterday when the City Council by a vote of 11 to 2 adopted a report of its Traffic and Street Lighting Committee which recommended that the present type of signals, with the semaphores and bells, should be used.

The only negative votes were cast by Councilmen Burns and Williams. The latter based his vote on the assertion that the committee report was not clear. While it definitely approved the present type of signal, it referred to them only as the semaphore type and did not mention the bells, against which most of the opposition was directed. Burns, whose district includes a portion of Wilshire Boulevard, insisted that the property owners are entitled to the type of signal they wish.

Many civic bodies had backed the efforts of the Wilshire Boulevard property owners, with the intention of eventually obtaining the substitution of the noiseless, light system of signal throughout the city, and the committee report adopted yesterday took cognizance of that fact and definitely committed the Council to the general policy of retaining the present type of signal throughout the city. No mention was made in the report of the fact that the present signal is a patented device controlled by one company but that fact was brought out during the brief discussion which preceded the Council's adoption of the report.

Another report of the same committee adopted by the Council yesterday represented a partial victory for the Wilshire property owners, as it approved a resolution which had been introduced by Councilman Webster recommending the installation of a system of co-ordination of the traffic signals on Wilshire. The report recommended that the Finance Committee be asked to pass on an appropriation of $41,000 for this purpose.

Gasoline Takes Another Drop of Two Cents

Retail gasoline prices in Los Angeles dropped another 2 cents yesterday to a general price of 14½ cents a gallon, replacing the former 16½-cent price. The cut was made by most of the operators of chain stations with only one exception.

In spite of the general reduction in the retail prices all the major refining companies yesterday announced maintenance of their tank-wagon wholesale price of 12½ cents, and officials of one company said that in the few instances in which the widely known brands of gasoline were sold at retail for as low as 12½ cents it was done without profit.

BOXER SEIZED IN ATTACK CASE

Young Joe Rivers Reported to Have Confessed

Taxi Dancer in Hospital With Serious Injuries

Another Youth Arrested as Fighter's Accomplice

After several hours of vigorous denial that he had attacked Miss Reva Buker, 20-year-old taxi dancer, after he is said to have abducted her from her escort on the morning of the 18th inst., Simon Hernandez, 20, alias Young Joe Rivers, boxer, late yesterday confessed his guilt to Detective Lieutenant Kynette, the officer said.

Miss Buker lies in the General Hospital with her jaw broken in two places and possible internal injuries. Her condition is critical, hospital physicians said. The fighter is booked on three charges, two of them statutory in nature, and the third suspicion of assault with intent to commit murder.

Hernandez was arrested early yesterday at his home, 434 Custer street, and was taken before the injured woman for purposes of identification. The victim picked him out of a group as her assailant and he was taken to Central Station for questioning.

According to the young woman's story, she was riding with Arthur Rivers of 888 North Bunker Hill on the morning of the 18th inst. when Hernandez and a youth later identified as Romulo Carmona, 22, appeared and slugged her escort. The boxer then drove her to a secluded spot, she said. Carmona, said by Hernandez to have beaten the girl's escort, is held on a charge of assault with a deadly weapon.

Detectives found Miss Buker's clothing, torn and blood-stained, near the spot described in her recital. When she first reported the affair to police she gave her name as Christine Hess, but her real identity was soon established. She lives at 1940 West Twenty-third street.

OLD MURDER CASE NEARS JURY HANDS

Fate of Stickles Charged With Killing in 1921 May be Known Today

Decision as to the guilt or innocence of Phillip Stickles, charged with the murder of Mike Mucich in 1921, will be placed in the hands of the jury which heard the trial in Superior Judge Wilson's court at 10 o'clock this morning. Closing arguments by defense and prosecution attorneys were made last night just before court adjourned.

The principal witness against Stickles was Mrs. Addie Minser, who asserted that she rode with him in the death car on the night Mucich was shot to death and thrown into the street near the First-street bridge.

Mrs. Minser also implicated Charles F. Stevens, former Los Angeles police officer, who she said also was riding in the automobile and witnessed the shooting. Investigators were unable to find Stevens and he did not appear as a witness.

TITLE COMPANY ACCUSES RIVALS

(Continued from First Page)

amining each parcel of land is called a "base title" and it was more than 1000 of these which the Title Insurance and Trust Company claims were stolen from it and illegally given into possession of the several competitors.

The complaining company demands the defendants be compelled to account for the profits they have obtained through use of the asserted stolen data.

Attorney Frank Doherty filed the complaint.

ing classes built Mexican peasant huts of adobe and thatch in order to make that country a vivid reality.

One step further should be taken. Spanish should be a compulsory course of study in all Los Angeles schools. Every child now in school will need to know it before he is much older.

STEPSONS DISRUPT HOME

Stepsons furnished domestic jangles which sent her seeking a divorce, Mrs. Conception Badillo revealed yesterday in Superior Judge Tryon's court. She complained that her husband, Fabian Badillo, allowed his 16-year-old son by a prior marriage to strike her when she visited the youth sent to school. On a previous occasion, she testified, her husband threw her out of their home when she asked him to correct his 15-year-old son by a previous marriage. Judge Tryon granted Mrs. Badillo a decree of divorce.

Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example, they should be religiously observed.

—Abraham Lincoln.

Today's Bible Text

Charity never faileth; but whether there be prophecies, they shall fail; whether there be tongues, they shall cease; whether there be knowledge, it shall vanish away. For we know in part, and we prophesy in part. But when that which is perfect is come, then that which is in part shall be done away.—1 Cor. xiii:5-10.

DOG DENTIST

Dentistry for valuable dogs is the latest industry. Congress might employ one of these docs to draw the teeth of the dogs of war.

EXPLOSIVE SPEECHES

"Congressional immunity" isn't as short a term as "hot air," but it is a better explanation of the noise that sometimes comes from out legislative halls.

THE THINNING PROCESS

Preachers and doctors claim credit because the waist line of man is decreasing. Women in business, Wall street and unemployment evidently didn't have anything to do with it.

CASTING

Can fish hear? asks a professor. And then he insists that they respond to a tuning fork and whistle. If you hear strange sounds along the stream, you will know the professor is out broadcasting.

WHITE BLACKBIRD

A theologian who is somewhat of an ornithologist says he saw a white blackbird the other day. Without seeming to question the cloth in any particular, yet it would seem that this brother's personal habits should be scrutinised.

THOSE "GENERAL" JOKES

Recent magazine criticism of the general as an officer who seeks a position behind the lines, where "no metal can touch you," has brought answers from high army officers whose defense is that the rudder always is behind the ship. The army staff position is that criticism at the expense of the general is prompted by jealousy. The "boss" usually is the butt of jokes in any organization.

RELIEF

The new tariff bill increases the rates on milk 23 per cent; on cream, 12 per cent; eggs, 40 per cent; peas, 40; beans, 83; onions, 70; tomatoes, 14; turnips, 14; potatoes, 17; cabbages, 115; beef, 26; veal, 17; mutton, 29; lamb, 16; pork, 19. This is farm relief without stint. And the administration makes good its campaign promises to the full. The passing of the tariff bill is also a great relief to every group in the country, just to be rid of it in Congress.

THE WOODCOCK APPOINTMENT

President Hoover has again demonstrated the care and thoroughness he applies to the task of selecting the best appointee for a given duty. In all his official acts he has in this respect proven himself an executive of the highest order. He again showed his good judgment when he picked Amos W. W. Woodcock to take command of the Federal forces in charge of administering the prohibition laws.

Mr. Woodcock has won his spurs by the fair and courageous manner in which he has administered the Federal dry laws in the difficult and hostile State of Maryland, which not only has refused to pass any enforcement ordinance of its own, but has hampered and hindered prohibition enforcement by the Federal authorities. As United States District Attorney at Baltimore Mr. Woodcock showed himself to be a militant prohibitionist, firm and strict in carrying out his sworn duties, yet reasonable in hearing both sides of every case that came within his jurisdiction.

This selection of the President is a direct reply to the wets who have pretended to see a disposition to ease up on the enforcement of the Volstead Act in the findings of the Wickersham Commission. Wets and drys in Maryland both know that with Amos Woodcock in the saddle there will be no paring down of the strict letter of the law. President Hoover in thus placing a tested fighting man at the head of the Prohibition Bureau has given notice to the nation that he believes prohibition can be enforced—and that he intends to see that it is enforced, so long as he is Chief Executive of this republic.

KINGSFORD-SMITH'S EXPLOIT

Capt. Charles Kingsford-Smith, Australian aviator, and his companions have accomplished the second crossing of the Atlantic from east to west. The first successful flight in this direction was made in April, 1928, by Capt. Herman Koehl, Baron von Huenefeld and Col. James Fitzmaurice, but they were forced to land in the icy harbor of Greenly Island, off the coast of Labrador. Capt. Kingsford-Smith, who made Harbor Grace, N. F., did better. The exploit, set beside his equally sensational achievement of flying from America to Australia, marks Capt. Kingsford-Smith as a super-pilot, the only man to have spanned both the big oceans.

Because so many have perished in the attempt, the North Atlantic crossing from east to west is ranked as one of the most difficult and hazardous in aviation. Head winds, fogs and bad weather are so common on this route that escaping them could happen only with supreme luck. Capt. Kingsford-Smith, lost in the fog off Newfoundland and with his compass working badly, probably owes his life to his radio equipment, without which his navigation of the Pacific also would have been next to impossible. Most of his predecessors who perished did not have this aid. It enabled him to reach the Harbor Grace flying field.

The goal of New York set for the plane still remains for aviators from Europe to reach. Though Capt. Kingsford-Smith fell short of it he set a new record by coming as far as he did. Better planes, better engines and better navigation instruments probably will have to be devised before anyone beats that mark much, unless good fortune in the shape of some extraordinary weather speeds some pilot through. It is unlikely that better pilots than Capt. Kingsford-Smith will be developed.

Capt. Kingsford-Smith's companions, who doubtless are entitled to equal credit, were J. W. Stannage, radio operator; M. E. Van Dyke, assistant pilot, and Capt. John P. Saul, navigator. They averaged about ninety miles an hour on the hop, which was of 1700 miles on the great circle, but probably much longer as the plane flew. It is not a record, of course, for either speed or distance, but an outstanding achievement because of the difficulties. Such exploits give a thrill even to those most accustomed to the accomplishments of aviators.

FRENCH SHIP CANAL

One remarkable result of the contention between France and Italy at the naval conference is a general French demand for the construction of a ship canal from the Bay of Biscay to the Mediterranean. This project, which is being seriously considered by French officialdom, is not as difficult as it might seem. For 250 years a canal has been in existence from the Garonne River at Toulouse to the Mediterranean. From Toulouse the navigable Garonne flows northwest into the Gironde estuary, fifty miles long, leading into the Bay of Biscay.

All that would have to be done to make a practicable ship canal of the old waterway would be to deepen it and construct some new locks. As a modern engineering project this would be rather easy, though it would be costly. The canal would greatly improve France's opportunities for quickly uniting her Atlantic and Mediterranean fleets in war time, as it would save several hundred miles of travel as compared with the Gibraltar route.

Aside from its military advantages, the canal might be expected to pay for itself in time by offering to common traffic a shorter route from the North Sea to the Orient than is now afforded.

The military advantages to be gained by France would not only have reference to Italy, but to Great Britain. At present France must send her Atlantic fleet through the Strait of Gibraltar under British guns to unite it with her Mediterranean fleet. But with an independent route controlled solely by France it would be a wholly different story.

CARS BY THE POUND

We sell butter by the pound, meat by the pound, potatoes by the pound and are even beginning to offer oranges by the pound here in California.

Unless we can reduce a thing to pounds or feet, we feel restless and have the impression of having failed in our duty. Chemists make their combinations by atomic weights. Nowadays we find our new planets by figures. Even electricity and gravitation have been discovered to be one and the same thing, not by the physicist, but by that prince of mathematicians, Einstein.

The next thing, we shall be meting out justice by weights and measures in balances, and mother's love will be calculated at so much an ounce or gram. Even religion will be estimated by the gallon and faith will be retailed by the yard. Divorce will be dispensed at so much a rod.

Now some shark with a flair for figures has worked out the cost and upkeep of an automobile in terms of avoirdupois. Its stability and reliability are being compared by the pound today with the weight five years ago.

A standard sedan of the latest model is now priced as low as 20.3 cents a pound, says the Saturday Evening Post. In 1925 the same car sold for 29.4 cents a pound. Prices have gone down fully 30 per cent.

A pound of raw silk out of which women's wear is made costs twenty times as much as the same poundage of car; and yet we think cars come high. Indeed, it is now estimated that a pound of car costs just about as much as a pound of beefsteak or pork chops.

Automobiles selling from $1000 to $2000 are quoted at 37.8 cents a pound, or a marked-down value of 19 per cent. Cars ranging from $2000 to $5000 have dropped from 80 to 67 cents a pound, or a reduction of 17 per cent. A car of 1930 vintage is worth more than a car of equal weight in 1925. Better material, better engineering, greater convenience, beauty and flexibility are embodied in the 1930 models.

So while silks and steaks have been standard and remained the same in actual quality for many years, and potatoes and oranges can hardly be improved, we get more for the money per pound in cars.

LEE SIDE O' LA

By Lee Shippey

TIP to graduates: Don't wait around expecting something to turn up. Even the bottoms of a collegian's trousers wouldn't turn up all by themselves.

This Land of Culture

The cultural influences of this country are almost beyond comprehension, however. Already Schmeling, the German pugilist, has mastered English to such an extent that he is writing syndicated articles—handling his pen, incidentally, far more deftly than he has ever yet handled his fists.

Our Oldest Flagpole

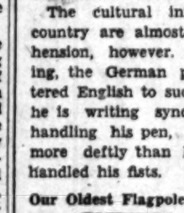
Nowadays, when you want to decorate for the Fourth of July or any other occasion, all you have to do is call up the remarkable Mr. Jones or some of the others who have made Los Angeles noted for its festive decorations and all the work will be done for you. But sixty-three years ago, when the first big flagpole in Los Angeles was erected, it was a different matter. It took nearly the whole town to get it up, and even a few transients—guests of the old United States Hotel—shucked their coats and bore a hand.

Recently we mentioned our oldest flagpole, at 168 North Main street, but confessed that we had been able to learn little about it. F. H. Clavero, assistant manager of the international branch of the Bank of Italy, read that piece and came to our rescue. Writes Mr. Clavero:

Gave Whole Town a Holiday

"The United States Hotel is the oldest hotel building in the city. Originally it was a one-story adobe building. In 1864 Louis Mesmer bought the property and considerable adjoining property and later built the three-story building which still stands there.

"The United States Hotel then was the leading hostelry of the Southwest and Mr. Mesmer wanted a towering flagpole to stand in front of it. Gen. Phineas Banning, then in the shipping and transportation business at Wilmington, promised to give him one, but it was some time before a tree so perfectly tall and straight as to fit the general's requirements could be located in the Oregon timberlands. The tree had a height of about 140 feet and was as straight as an arrow. The pole, originally, was 110 feet in height, fourteen and one-half inches in diameter at the base and three and three-quarter inches in diameter at the top.



"It was a difficult and hazardous feat to load the great timber on the coasting vessel and unload and lighter it into port at Wilmington. It took three large prairie schooners, roped together, hooked up to twelve mules, to bring it to Los Angeles. The next difficulty was to raise it, as there were no rigs for raising such a pole and no one knew just how it should be done. Guests of the hotel and everyone not otherwise occupied by pressing affairs took a hand. About sixty strong men with ropes climbed on the long roof of the United States Hotel to assist a large body of men on the ground below to lift and place the pole in the twelve-foot hole prepared to receive it. As soon as it was secure, the flag was run up while a band played "The Star-Spangled Banner." And all the rest of the day was a festive holiday. The flag, however, was too big for the pole and bent it, so that after all the trouble a smaller pole had to be substituted. The present length of the flagpole is about ninety-five feet. But this pole is unique in that there is none to compare with it here, and it has stood in its present location sixty-three years."

The Next War

A number of speakers before Southern California clubs recently have stressed the need of world-peace movements by describing how much more terrible than ever before the next big war, if there is a next big war, will be. But Tennyson Mabie, who continually pesters us with poetry, thinks they are men of little imagination. All they predict is gases which will wipe out whole cities, sudden airplane sorties which will drop billions of germs of dread plagues on us from the skies and comparatively unimportant things like that. But Tennyson points to the Battalion of Death in Russia and the women ambulance drivers in France, and sings this mournful dirge:

The next war will be worser yet,
Now women have their rights.
They won't stay home to die of gas,
They'll lead in all the fights.
Brass buttoned and in brave array
They'll spring to arms, Alas!
How they will shrink when they are shelled
With fearsome wrinkle gas!

They love to charge, and charge sans fear,
But will they when they know
Complexion-ruiners will spray
Them thickly where they go?
Where curl-removing bombs fall fast
How can they hope to win?
Where wrinkle gas their onslaught meets
They'll run—to save their skin.

MAN FROM IDAHO

A magazine writer mentions Senator Borah as a man with an inscrutable future and a reverberating past. On his sixty-fifth birthday he can recall that as a legislator he has fought every President since the days of Taft. It made no difference whether he was Democratic or Republican. They all looked alike to the Borah vision. Yet there is no denying the fact that the Idaho statesman is still an upstanding figure in the Senate. He does not hesitate to use his party connection, but the tie means nothing to him and he tosses it off like an old shoe whenever it interferes with his ramblings—indeed, he loves to be listed as an insurgent. Yet they like and admire him.

FOR CHILDREN, TOO?

Professor recommends the eating of candy before retiring as a means of inducing restful sleep. Promoting sweet dreams, as it were.

A DISCONTENTED WORLD

By James J. Montague

It has been discovered that trees sometimes grow thin.

Said little Molly Maple
With a dejected pout:
"I don't feel right, my bark is tight,
I fear I'm getting stout.
I wish I lived out yonder
Behind the village church,
Where trees grow slim and svelte of limb
Like that cute Bessie Birch."

Said portly Mrs. Walnut:
"It isn't any use
To bend my form in every storm,
I simply can't reduce.
Why should a body worry?
We've got to eat or die,
And those swell folks, the Elms and Oaks,
Are fatter far than I."

Said slender Myrtle Sapling:
"I'm strong for style and dash,
I'm just a twig beside that big
And stuffy Madam Ash,
And that old Mother Cedar,
Who tries to be high hat.
It seems to me I'd hate to be
A pudgy frump like that."

But kindly Mother Nature
Said not a word at all,
But sent bright days and filmy haze
And made the showers fall.
And when the spreading forests
Loomed fair upon her view,
She said: "Just so; they all must grow
The way I mean them to."

WHAT OTHERS THINK ABOUT IT

NOT PLEASANT BUT TRUE

[Detroit Free Press.]

It is not especially pleasant to find that Detroit is being pictured to the British public as a horrible example. Yet what effective comeback is there to make to the damning comparisons drawn by Judge Kavanaugh between crime conditions in this city and those in Windsor across the river?

Whether the judge's figures are exact or not, there is an essential accuracy in his assertion before the special parliamentary committee on capital punishment that while the temperament, habits, morals and religions of the two cities are similar, nevertheless in 1928 and 1929, there were 485 homicides in Detroit and 97 in Detroit's riverside suburbs, and not one in Windsor.

The explanation is clear. In this city there is no capital punishment and law enforcement is feeble. In Windsor, the hangman deals with convicted murderers, and only foolish people take liberties with the statutes and ordinances.

IN FRISCO AND MASS

[Boston Transcript]

The visitor to San Francisco finds in railroad cars, steamboats and other conveyances as well as elsewhere in and about the city signs announcing: "This city's name is San Francisco—not Frisco." These placards are signed by the Native Sons of the Golden West. Their movement to induce visitors to give the city its official name rather than the contraction represents a feeling that is not new. Protest by the San Franciscans against the use of "Frisco" has been heard before. The reference books refer to it as a popular contraction, but it has long been decidedly unpopular with the dwellers in the city by the Golden Gate.

There may come a time when an organization of Native Sons of the Sunrise Shore will be impelled to follow the example set in the Golden West and scatter placards throughout the Commonwealth bearing the announcement: "This State's name is Massachusetts—not Mass." But here it is not the visitors who are the chief offenders. Bostonians speak of "Mass" avenue and "Mass" station. There is frequent mention of Boston, "Mass," Springfield, "Mass," and so on. There may be people among us who think of themselves as living in "Mass" rather than in Massachusetts. The Native Sons of the Sunrise Shore would find a task awaiting them as soon as they were organized.

ACTION, THEN TALK

[Portland Oregonian]

There is too much talk of what committees are doing and going to do in order to rid Chicago of gangs. That was not the way with the vigilantes of San Francisco and Montana. They did not tell what they were going to do. They did it. They convinced themselves who was guilty of a crime, then went out and got their man and hanged him. They justified these drastic measures by the fact that the outlaws had captured the machinery of the law, which is the situation in Chicago.

LETTERS TO The Times

[Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving contentious religious questions are not acceptable.]

Ancient Oriental Eggs

SAN MARINO, June 22.—[To the Editor of The Times:] How is it possible that the "great American public," with its reputation for and supposed insistence upon clean and sanitary food, can go on permitting the wholesale importation of "preserved and ancient eggs" from China?

The farm papers lift up their voices in vain, asking why so flagrant an injustice is permitted, while our poultrymen are forced to conform to the strictest regulations and cleanliness. The big dailies keep a discreet silence. It is true that bad eggs cannot be detected when used in cake or candy and advertisers must be protected lest they take offense and refuse their patronage. Manufacturers of cheap products would suffer untold loss if the flood of Chinese eggs were shut out. "What the people don't know won't hurt them," seems to be the attitude of those responsible for the enforcement of the pure-food regulations.

The Times is to be congratulated in that Harry Carr was permitted to state in this morning's issue that 768,972 pounds of ancient eggs were imported from China last year into our own harbor. These eggs are not used in the manufacture of varnish, that is certain. It would be interesting to have a class from school visit the harbor and make a list of all the importations, following them through to the final stage of finished product! The domestic science class could follow the path of the canful of liquid or dried eggs, from China and thus learn quite a lot about American "industry." Compositions along this line would be interesting and informative, if not thrilling, in dramatic revelations.

If further importations were barred from entry, one branch of business which comes under the head of farming (the poultry business) conducted on scientific and sanitary lines, would be permitted to function with a fair chance of success.

MABEL M. RICHARDSON.

A Warning to Parents

LOS ANGELES, June 21.—[To the Editor of The Times:] Coincident with vacation time again arises the menace of the rifle, air gun, sling-shot, etc., as evidenced by complaints coming to our office. Some thoughtless parents permit their children to possess these weapons and to use them indiscriminately. Two small boys have been using a high-powered rifle, with cartridges, for shooting birds in a residence section; others are killing mocking birds with sling-shots and air guns. Some time ago you most generously gave widespread publicity to this matter. Would it be possible to again sound a warning, emphasizing the serious penalty that attaches to the use of such weapons? Many children are blind for life through accidental discharge of these implements. We are trying to keep others from this terrible fate.

STATE COMMISSION FOR PROTECTION OF CHILDREN AND ANIMALS,
Herbert H. Hallett, Secretary.

Sales to School Children

LOS ANGELES, June 23.—[To the Editor of The Times:] I note with interest the letter in today's Times under the heading of "Those Druggist Arrests." I challenge Mr. Brunswig or any member of the Retail Druggists' Association to send any unbiased schoolboy or girl, 18 years or under, into, say, a half-dozen or more retail drug stores in different parts of Los Angeles and see if either the boy or girl cannot purchase cigarettes or wine tonic without any questions being asked as to age.

These sales to school children under age are made day after day strictly against the law and up to the time arrests were made, it was possible for any boy or girl to purchase from these same retail druggists the most vile literature ever published.

Mr. Brunswig's flimsy argument that these violent lawbreakers should not have been arrested after 5 o'clock is quite laughable—we suppose laws broken after banking hours should be overlooked until the following day. If at any time a thief broke into his home or place of business after 5 o'clock no arrest should be made until the next day.

C. LESSLY BROWN.

A Greater Los Angeles

TUJUNGA, June 19.—[To the Editor of The Times:] We, who have watched Los Angeles grow from a fair-sized town to a metropolitan city of more than a million population, are somewhat inclined to "point with pride." We have, indeed, the outward essentials for greatness. The psychology of a great name, natural beauty of environment, a romantic history, a climate unsurpassed. And now we are assigned fifth place among the ranking cities of the nation.

But let us not get "drunk with sight of power"—it takes more than that to make a city great—more than an imposing frontage of bank buildings, tall churches and big theaters. It takes civic virtue, honor and happy homes. Let us strive for these, rather than mere numbers or material grandeur.

MAE GUTHRIE TONGIER.

Olive trees which are still producing in Syria are known to be from 300 to 500 years old, while Italy plants one-twelfth of her cultivated area in olive orchards and produces millions of dollars' worth of fruit and oil.

W. B. J.

TAKING THE COUNT

BY EUGENE BROWN

There had been tales of activities among the Red and White forces. The Reds were restless and the Whites were turbulent. The peace seemed to be threatened. Surgeons were bustling to and fro and the ambulance corps was being recruited to full strength. The hospitals fairly gaped for their bloody business. It looked bad, indeed. At a time when the world was striving to disarm and military establishments were everywhere being reduced here was possible embroilment in the home nest.

Something had to be done.

It was hardly a matter for the League of Nations, but the high command was appealed to. Soon a trim young officer from the Quartermaster's Department arrived. He was going to check up on all these activities and make a record of the strength and apparent purpose of both the Red and White armies. At a time they were taking censuses he would have one of his own. He called it a blood count.

So the Red and White corpuscles were severally spied upon. They were counted, tagged and interviewed without knowing much of anything about it.

With the aid of a powerful glass I watched the operations in the company of the officer. The Reds were vastly more numerous, but the Whites were the better soldiers. They took the fighting business seriously and were primed for a scrap. It might be thought that the Reds could overcome them by the sheer weight of numbers, but a military expert would put his money on the Whites. It would be like a contest between China and Japan.

As I watched I noted two especially active figures. They were waving their swords as if urging their armies to advance.

"Who are those two fussy guys?" I asked the officer.

He turned his glass in the direction I indicated and studied for a moment. "For the love of Mabel!" he exclaimed. "They are Napoleon and Alexander!"

"Thumbs down on them birds!" ejaculated I, with a shudder. "We want no professional conquerors here. We are trying to bring peace on earth and turn our battleships into fishing boats. We are pruning our armies to the bone and now to have Alexander and Napoleon butting into the game is too much. For heaven's sake get the hook."

So the officer moistened his thumb and wiped out Napoleon and Alexander.

But it was a narrow escape.

When the doctor came back he said it was lucky that we had made the discovery.

He thought I might pull through.

Anyhow, the Reds and the Whites have been pacified and their forces placed on a peace footing. Instead of brandishing swords and pikes they are running errands and doing janitor work.

Which is as it should be.

LIBRARIANS A LA MODE

BY FAITH HOLMES HYERS

Those who have mingled with the librarians from every State in the Union and many foreign countries now conducting crowded meetings at the Biltmore Hotel will be assured that there is a new style in librarians. The first general session and the reception held at the Public Library resembled a society function of modish, alert and rather super-intelligent men and women. Scraps of conversation overheard dealt with the great American novel, trends in the public taste, the dangers threatening the living drama, broadcasting books for popular taste, library lecture courses, encouraging children to read for fun—and other topics of the day that link people with books, with the human interest element predominating.

In other words, the day of the "shut-in" librarian has passed with the era of the closed shelf. Today libraries present open shelves, open doors to books, lectures, education, information. Librarians cannot exist as bookworms, feeding upon printer's ink. They must know books, yes, but they must know people, know their needs, their tastes, their demands. They must know the trend of events, must anticipate interests and thought currents. They must be specialists in the fields of art, science, business—they must know resources of books, library tools, current print.

More than this, the modern librarian must keep his feet on the ground, no matter how gayly he may ride Pegasus in flights of literary fervor, nor however skilled he is in the technique and education of his profession.

The business side of the library administrator is attracting an increasing number of men to the profession. The commercial needs of the modern library in equipment, supplies and books are attracting a host of industries that cater to these needs. From the publisher, the bookbinder, the paper house and the typewriter manufacturer, to the architect, the furniture maker and the landscape artist, representatives are seeking the approval and patronage of the librarian.

The ideal librarian is first trained in his profession. He must acquire the educational background to understand the reference needs of educational institutions from the kindergarten to the college, with the added business experience to make him an efficient administrator of public funds and the manager of a great business—the business of getting books and people together.

Louis Braille, French educator of the blind, was, at the age of 20, the most remarkable organist in France, but not content with this distinction, invented the process of raised print to enable other sightless persons to read.

NEW PANTAGES QUIZ TO OPEN

Jury Will Hear About "Frame-up" Charges

Pringle and Eunice Pringle to Testify Today

Reported Plot in Assault Case to be Aired

Testimony concerning a charge against Alexander Pantages, millionaire theatrical man convicted of assaulting 15-year-old Eunice Pringle, was [illegible] will be presented to the county grand jury today, according to Robert P. Stewart, chief deputy District Attorney.

Among the witnesses called to testify are Eunice Pringle and Alcoy Minder, who charged recently in affidavits submitted to Atty.-Gen. [illegible] that a girl who said she was Eunice Pringle once approached him and asked that he aid in "framing" Pantages.

Another witness to be called is Edward Nugent, Mosier's attorney, who is asserted to have drawn the affidavits for Mosier and submitted them to the Attorney-General.

Officers of the United States Navy officers, known only by the names of Case and Holtz, also have been called as witnesses. Although the nature of their testimony is unknown, it is understood that they will be questioned concerning Mosier's naval record.

The grand jury inquiry was ordered by Dist.-Atty. Pitts. Pantages at present is at liberty under $100,000 bond pending his appeal from the conviction.

BANDIT PAIR OBTAIN $2130 IN HOLD-UP

Messengers' Car Boarded and Pay Roll for Truck Company Seized

Two bandits obtained $2130 in a daring pay-roll robbery yesterday afternoon when they lay in wait for the bank messengers at First and Vignes streets. Boarding the messengers' car at that point, they [illegible] said, the robbers compelled them, at the point of guns, to drive to a thinly populated part of the city, where they took the bag containing the money and disappeared. The money was being delivered from a bank company, and the messengers were George Nichols and [illegible] Goodwin. Neither was able to give a detailed description of the bandits, police said.

Glendale Beats Pacific Electric in Paving Fight

Judgment in favor of the city of Glendale against the Pacific Electric Railway Company yesterday was announced by Superior Judge [illegible], clearing legal obstacles to the widening and improving of Glendale Boulevard between the Southern Pacific tracks and Los Feliz Boulevard.

On the 17th inst., Judge Tappaan [illegible] under submission the city of Glendale's suit to condemn strips of property eleven and one-half feet [illegible] on either side of the Pacific Electric interurban line for the proposed widening. The Glendale City Council on October 15, 1929, authorized the widening, together with [illegible] lighting.

NEW STOCK VALUE GAUGE STRESSED

A distinct trend appears to be developing toward the adoption of more conservative yardstick in the measurement of stock values," observed in the latest Financial Market Review, issued by [illegible] L. Young & Co., which is now ready for distribution.

IMMUNITY PLEA MADE BY BERMAN

"Bright Boy" of Julian Oil Case to Know Today if He Will Dodge Prosecution

Jacob Berman, business associate of S. C. Lewis and one of the officials of the Julian Petroleum Corporation, today will learn from Superior Judge Wilson if he is to be granted immunity for himself and his brother in four felony cases.

A formal motion asking for the dismissal of a bribery charge against Berman and his brother was made in open court late yesterday afternoon by Dep. Dist.-Atty. Harold Jones and was taken under advisement by Judge Wilson for a ruling some time today. Chief Deputy District Attorney Stewart who appeared with Jones urged the granting of the motion.

In exchange for the dismissal Berman, according to the prosecutors, will testify in the Morris Lavine-Leontine Johnson extortion case now on trial, the John Groves bribery case, the Louis Krause, Louis Berman and Jacob Berman bribery case, and the Julian overissue case. He will be prosecuted, however, on an embezzlement and forgery case. All of the cases involved grew out of the crash of the Julian company in 1927.

Following the formal motion by Jones yesterday Judge Wilson caused to be read into the court records two grand-jury transcripts of portions of Berman's testimony before that body. In the first statement taken on March 20 of this year Berman stated under oath that he had not been promised immunity. In the second one week later appears an immunity contract covering the testimony given the week before.

Berman from the witness stand explained the two transcripts to Judge Wilson by declaring that he gave the first testimony without a promise of immunity but understood at the time that if he was to be used as a witness he would not be prosecuted. It was after this testimony that Judge Wilson announced that he will rule on the immunity motion today.

Berman was returned to this city from Federal prison at McNeil Island a little more than a week ago as a witness and for prosecution under orders issued by the Attorney-General. He is serving a seven-year mail-fraud sentence there and will be returned as soon as the various trials in which he is to appear are completed.

VITAL ROLE ASSIGNED TO CRIME NEWS

Judge Yankwich Declares Press Enlightens Public, Thus Aiding Justice

Declaring that the administration of justice depends to a great extent upon the aid of an enlightened public opinion, Superior Judge Yankwich in an address at the City Club yesterday said that this desirable condition can be neither created nor maintained without the aid of the newspapers.

Discussing "The Newspapers and the Administration of Justice," Judge Yankwich said that the newspaper is neither the creator nor the censor of news and that it is the duty of the press to report crime news and to record court activities.

"In disseminating crime and court news, the press performs a public function," said the speaker. "However, that function should be performed, guided by the highest standards of the profession, bearing in mind that an immediate and ultimately illusory success in news gathering should not outweigh the interests of the commonwealth."

Stating that, contrary to a general assumption, the amount of space devoted to crime news today is proportionately less than it was fifty years ago, Judge Yankwich said that there still is too much crime and court news that is both colored and inaccurate. This character of reporting, the speaker told his audience, has disastrous results, including the creation of the common belief, not borne out by the facts, that crime is on the increase.

Military Schools

SUMMER SESSION—JULY 7th TO SEPT. 1st

San Diego Army & Navy Academy

Located on Bay and Ocean at Pacific Beach, a Delightful Suburb of Sunny San Diego

THE ACADEMY'S SUMMER SESSION OFFERS MANY ATTRACTIVE FEATURES:

1. The opportunity for excellent instruction under expert teachers. Valuable reviews of new subjects.
2. A special course of military instruction under Maj. Jas. W. Peyton, U. S. A., for prospective cadet, commissioned and non-commissioned officers.
3. A special instruction in rifle marksmanship.
4. A special course in ground school of aviation through affiliation with the Pacific Tech. University.
5. The afternoons are to be given over to land and aquatic sports under supervision. In addition to surf bathing, the Academy has completed on its own campus a beautiful tile lined swimming pool filling A. A. U. requirements.

NOTICE

Col. Thos. A. Davis, Pres., San Diego Army & Navy Academy, will be at the Alexandria Hotel Los Angeles Thurs., June 26, Friday, June 27, Sat., June 28 and will be pleased to meet parents interested in choosing the proper school.

...ions will carry out of regular charges for entire session except an incidental uniform and a $50 charge for the Aviation course. For full information see Col. Davis personally or write the Academy for catalogue. Box T, Pacific Beach, California.

PITY THE POOR SILKWORM

THINK of the lifetime of toil a silkworm spends to give you silken lingerie and stockings. You ought to know—you have to pay plenty for it. It's only fair, to both yourself and the worm, to make your silk things last as long as possible.

White King Granulated Soap is made only from fine vegetable and nut oils—oils good enough to eat. It's the safest soap you can use in washing expensive underwear. And at the same time its purity makes it the most effective soap for greasy dishes, dust-heavy woolens.

White King Granulated Soap washes *everything*. And it's economical—a teaspoonful is plenty for the wash basin, a cupful ample for the washing machine, even in hard water. Put it on your list for today. Your grocer has it.

this cereal TALKS!

It's so crisp it pops and crackles when you pour on milk or cream. And what a flavor! Crunchy rice grains—toasted golden brown.

Rice Krispies are fine for any meal. Give them to the children for supper. Easy to digest. Order a red-and-green package from your grocer. Try the recipes for macaroons, etc. Made by Kellogg in Battle Creek.

snap! crackle! pop!

Of Interest to Women

Society

by JUANA NEAL LEVY

Leaving by boat, Friday, July 4, Miss Mary Comerford and Miss Kathryn Thomas will attend the Sigma Kappa Sorority convention in Seattle this summer. Miss Comerford recently was elected president of Alpha Omicron Chapter of Sigma Kappa at University of California at Los Angeles, where she will enter her senior year this fall. Following the convention the two delegates will be guests at a house party at Mt. Baker Lodge, near Seattle, after which they will be met by her mother, Mrs. George Comeford, and Mrs. Van Griffith, and cruise up to Alaska. After returning to Seattle, the two delegates plan to motor home with Mr. and Mrs. A. H. Thomas by way of the Redwood Highway, stopping at Crater Lake and other interesting points.

Mrs. Comerford and Mrs. Griffith will return by boat.

They plan to reach Los Angeles some time in August, so as to be here when Miss Comerford's brother Neville, who was graduated a year ago from U.C.L.A., and a cousin, Miss Claire Sullivan, return from a trip round the world. They started last December.

Both Miss Comerford and Miss Thomas are extremely popular on the campus at Westwood, where they are active in all affairs.

Invitations Issued

Cards are being issued by Mrs. Mattison Boyd Jones of Bel-Air, Kenneth Road, Glendale, for a garden tea at the Women's Athletic Club, Wednesday afternoon July 2, from 3 to 6 o'clock in honor of Mrs. M. Ewell Smith and Mrs. William Elmer Evans.

Visiting Here

Mrs. John S. McDonald (Dorotha Kelly) of Chicago has been enjoying a visit for the past month with her parents, Mr. and Mrs. Orville S. Kelly of 1038 South Highland avenue. Several lovely affairs have been given in her honor. She is returning to her home in Oak Park this week.

Anniversary Celebration

Celebrating their first wedding anniversary, Mr. and Mrs. Frank Edward Farmer (Lillian Ballagh) are entertaining this evening at their home, 308 North Louise street, Glendale, having issued 100 invitations. A delightful musical program is being planned, the hostess to read Ibsen's Peer Gynt, with musical setting by Grieg, assisted by Eleanor Anderson, the Wilson Trio, Claudia Wilson, piano; Harriett Wilson, violin, and Robert Wilson, 'cello; Arthur Blakeley will preside at the organ, and Lucy Seeter Bartlett, pianist, will play, while Maria Brown will give dance interpretations.

Mrs. Farmer will be assisted by Mrs. Paul Heidenreich, who assisted as matron of honor at the wedding a year ago, and Miss Alma Priester, who was maid of honor.

The house will be elaborately decorated with flowers and ferns and refreshments will be served in the gardens.

Announce Engagement

Mr. and Mrs. H. S. Rear of 6101 Warner Drive, Carthay Center, announce the engagement of their daughter, Miss Thelma M. J. Rear, to H. R. Thompson, son of Mr. and Mrs. William Thompson of Orchard avenue, the wedding to be an event of the late summer. Miss Rear is a member of Alpha Phi Epsilon and Clionian Society, and received her A. B. and A. M. degrees from University of Southern California. She has been teaching in one of the high schools in Fresno for the past year, while Mr. Thompson was graduated from University of California at Los Angeles, and will receive his master's degree from Stanford this summer. He has been an assistant in the psychology department at Stanford during the past year. Both plan to take summer work at Stanford and after the wedding will continue to work for their doctor's degrees at Stanford.

Announce Betrothal

Mr. and Mrs. Edgar Lincoln Webster announce the engagement of their daughter, Miss Edgarita Webster to Lloyd Elmer Green, son of Mr. and Mrs. Walter Scott Green of Seattle, Wash. Miss Webster is a member of Kappa Kappa Gamma and is to be graduated the 20th inst. from the University of California at Los Angeles. Mr. Green claims membership in Theta Delta Chi at the University of Washington.

The wedding date will be announced when Mrs. Webster and her daughter return from Europe in October.

Birthday Party

A surprise luncheon was given the 11th inst. in honor of Dona Maria Ortega, celebrating her ninetieth birthday anniversary, by nieces of the honoree at the home of Mr. and Mrs. E. C. Ortega, 3261 Flower street, Huntington Park. Dona Maria was born in Santa Barbara county in 1840 and came to San Buena Ventura with her father, Don Emidio Ortega, and her mother in the early '50's, residing there until a few years ago, when she made her home with her sister, Mrs. Peter Candelot of San Fernando. She is now visiting at the Ortega home.

Guests at the luncheon were Mrs. Edward Farnsworth, Mrs. Carl Brose, Mrs. Ralph Markham, Mrs. H. Lebrun, Mrs. Florence Anderson and Mrs. H. Proctor.

Invites Many Friends

Mrs. Ralph Mallette Burdick has issued invitations for a tea to be given the 28th inst. at her Hollywood home in honor of Judge and Mrs. Carlos S. Hardy. Those bidden, in addition to the honor guests, are Mmes. Charles H. Lippencott, William B. Lindsey, Tracy L. Hall, Charles S. Kent, William H. Hay, Harmon D. Ryus, Cecil R. Luton, Frederick Stith, Thomas Russell, William Young, John Gilman, Blystone, Stuart Wilson, Creighton Brown, W. W. Watson, Fred Siebly, Samuel W. Garretson, Hugh Harrison, Lewis B. Wood, Albert Honey, Allison Strock, Lydia Crossley, Marian Adams, Jesse B. Roberts, E. B. Wakeman and Maud De Mond and Mrs. David Davis.

Wedding Date

Miss Elizabeth Keatinge, daughter of Mr. and Mrs. Earl Alfred Crouchley of 990 North Orange Grove avenue, Hollywood, has chosen Saturday, July 12, as the date for her marriage to Donald Hulbert Woodford of this city, son of Mrs. Josephine M. Woodford of 1133½ North Vista street, formerly of Buffalo, N. Y.

The ceremony will take place at 4:30 p.m. in St. Stephens' Episcopal Church, Hollywood, Rev. Philip Easley officiating. Miss Keatinge has asked as her attendants her sitser, Mrs. Henry R. Freeman of Pasadena and Miss Jean O. McFarland, while little Mary Joyce Keatinge, niece of the bride-elect, will be flower girl.

Miss Keatinge recently has been the recipient of several delightful prenuptial courtesies. She is a member of Alpha Phi, while Mr. Woodford is a member of Sigma Pi Fraternity. Both claim the University of California at Los Angeles as their alma mater, and are well known in social and fraternal circles.

Birthday Party

One of the smart and original affairs of the month was the birthday anniversary party given recently by Mrs. Eugene Zellerbach of the Beverly-Wilshire Hotel at the George Olson Supper Club, honoring Mrs. Mary Elsye Touraine, Mrs. Robert Douglass Kent and Mrs. George Wilson.

To Honolulu

Dr. and Mrs. Andrew S. Spinks, with their son, Andrew M., Jr., of South Mariposa avenue, are leaving the 24th inst., aboard the City of Los Angeles for Honolulu, planning to remain for two weeks on the island before sailing aboard the President McKinley for the Orient. Mrs. Spinks has been extensively entertained with many bon voyage courtesies, Dr. Spinks sharing honors at several evening affairs.

Collegiate Engagement

Of interest in collegiate circles is the announcement of the engagement of Miss Jean Fox of Alpha Epsilon Sorority at University of Southern California to Harry Edelson, well-known Trojan football player, which was told at a recent dance of Alpha Phi Epsilon in the Blossom Room of the Roosevelt Hotel. The wedding will take place August 24.

SHE WILL BE MARRIED SATURDAY

Army Medical Man to Take Bride East

[Austin studios]

Miss Jean Merritt

ANNOUNCEMENT was made of the coming marriage of Miss Jean Merritt, daughter of Mrs. Agnes Lloyd of San Antonio, Tex., to Dr. Willis Hilton Drummond, First Lieutenant Medical Corps, U.S.A., at a beautifully appointed luncheon at the Roosevelt, Hollywood, the news being told by the names of the betrothed in little gold books, tied with pink and gold tulle, showered with clusters of Duchess roses. The ceremony will take place Saturday and immediately afterward Dr. Drummond and his bride will sail for New York by way of the Panama Canal and Havana, and later to Washington, D. C., where he is to be stationed. Dr. Drummond, son of W. C. Drummond of Spirit Lake, Iowa, has a host of friends here, having been resident surgeon at Good Samaritan Hospital for a number of years. He was graduated from University of Iowa and is a member of Alpha Kappa Kappa medical fraternity. The luncheon was given by Mrs. Charles Jabez Hubbard, last Saturday.

WHEN THE SANDMAN COMES

A Bedtime Story

by THORNTON W. BURGESS

Mistakes, no matter how you try,
Are difficult to rectify.
—Peter Rabbit

JERRY MUSKRAT EXPLAINS

The night Peter Rabbit was chased away from the Smiling Pool by Mrs. Muskrat, he did not venture back again. Indeed, he was in doubt about going back the next night. He was fearful that Mrs. Muskrat might be hiding somewhere to spring out at him. Certainly, she had been in a terrible temper when she chased him away from the Smiling Pool. But somehow Peter couldn't keep away. He was so anxious to see Jerry Muskrat that he had to go over there. He took care, however, to approach the Smiling Pool at a different point altogether.

Peter had been sitting on the bank of the Smiling Pool quite a little while when at last he saw a silvery line moving in the waters where the Black Shadows lay heaviest. He knew it was made by some one swimming. It might be Mr. or Mrs. Quack. It might be Jerry Muskrat.

"I do hope it isn't Mrs. Muskrat," said Peter to himself, and kept his eyes fixed on that silvery line that was approaching.

Presently a head appeared coming out of the Black Shadows. "Is that you, Jerry Muskrat?" asked Peter.

The head turned toward where Peter was sitting on the bank. "That is just who it is," replied Jerry Muskrat. "What did you do to upset Mrs. Muskrat so last night?"

"I thumped on the roof of your house, hoping to get you to come out," replied Peter.

Jerry grinned. "So I understand," said he. "It was a mistake on your part, Peter. It was a serious mistake. You see, I am not living there just now."

"You're not!" exclaimed Peter. "Why not?"

"That's a foolish question," replied Jerry. "You ought to know without asking. The family needs all the room there is."

"Then where are you living?" Peter asked.

"Oh, I'm living around," replied Jerry carelessly. "I never have any trouble finding a place to stay."

"I should think you would wish you had that nice house you used to have out in the Smiling Pool," said Peter. "I've always wondered why you gave that up. I should think that that would have been a wonderful place for your babies."

Jerry grinned. "That's what I thought," said he, "but Mrs. Muskrat thought differently. Giving up that old house was Mrs. Muskrat's idea. She said it was too old. She said that a house up in the bank would be much dried and so better for the babies. So there was nothing for it but to have a new house in the bank. If you'll take my advice, Peter, you won't thump on the roof of that house any more."

Peter grinned. It was a foolish sort of grin. "I'll keep away," said he. "I should dislike meeting Mrs. Muskrat on a dark night feeling as she was feeling last night. My, what a temper!"

"Can you blame her?" asked Jerry. "How would you like to have some one thumping on top of your head, especially when you had a family of little babies? I advise you to keep away from Mrs. Muskrat, Peter. A worried mother is apt to act first and think afterward. In fact, I am keeping away from there myself these days."

"That's a foolish question," replied Jerry

Your Baby and Mine

by MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

This department offers leaflets on weaning and feeding the child from 6 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby, sleeping, walking, teething, thumb sucking, ammoniacal urine, bed wetting, training in cleanly habits, periods of nursing, cod liver oil, orange juice, hives, worms, vomiting, refractory children, prune juice, lime water, rupture, styes and boils and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

SOAKING IN COLD WATER FIRST STEP IN REMOVING STAINS

Fruit stains arrive to harass the mother at about the time the clothes are comparatively free from cod liver oil stains. Fruit stains, grass stains, scorches and auto grease add their bit to make wash days blue for the housewife.

It is well to treat all stains (no matter what their character) as soon as they are made. To allow them to dry and then to stuff the clothing in the hamper, to be dumped willy nilly into hot water is to set the stains sometimes beyond repair.

The government booklet on stains suggests that oil stains should first have as much of the oil scraped off as possible, then the spot treated with Fuller's earth, magnesia, blotting paper or talcum powder as a means of absorbing what remains. Wash in cold water and soap and finish in hot water and soap. For such persistent stains as cod liver oil, soaking in a strong solution of borax before washing or in carbon tetrachlorid will act as a solvent for the stain.

FRUIT STAINS

For all kinds of fruit stains one may first soak in cold water and then stretch the fabric over a bowl and pour boiling water through the stain from a height. This goes for berry stains and orange and lemon juice, fresh peach, and so forth. Bleaching in the sun should remove further traces of it.

Cocoa and coffee stains must always be soaked first in cold water and if there were cream added to either wash also in cold water and soap before putting them into the hot suds.

In fact, most stains seem to be helped by being first soaked in cold water and it is a harmless sort of procedure which one can always remember to do, and if the stain doesn't come out, at any rate there is no danger of it being "set" in the garment.

Grass stains should be washed in soap and cold water and if they are still apparent they, too, can be soaked in borax water.

COMMERCIAL AGENTS

There are commercial bleaches on the market that mothers have found to be very successful in removing stains and there are soaps made for that purpose, too. These naturally make use of strong chemicals and it is advisable to use weak solutions of them always on white or colored garments. In the latter case try out a piece of the material in a place that won't be noticeable before soaking the stain in the agent. Sometimes one would prefer a stain to a colorless portion of the material and in some cases too strong a bleach will eat away stain, material and all.

Go carefully with bleaches, make the solution weak, hold the spot over an empty bowl, drop a little of the bleach on the portion and rinse frequently with cold water. As soon as the spot disappears rinse well in cold water and wash in hot suds and rinse in plenty of waters so that all the chemical is rinsed from the material. If directions say to rinse in vinegar don't fail to do this, as it is an essential part of the procedure.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

PORK SALAD

Remove the fat, skin and bone from cooked young pork. Chop three cups full of it in small dice and place in a bowl. Add one cupful of lemon French dressing and let stand in a cold place for one hour. Drain well, place in a bowl that has been rubbed with one clove of crushed garlic and mix with one cupful of diced celery, one cupful of peeled and diced apples, three tablespoonfuls of capers, one chopped pimiento, one chopped sweet green pepper, a seasoning of salt and paprika and one tablespoonful of chopped parsley. Mix altogether, mound on lettuce-covered plates and mask with mayonnaise. Garnish with ripe olives.

CURRANT MERINGUE PIE

Beat the yolks of two eggs with one cupful of sugar and beat until smooth, add to them one cupful of steamed and mashed currants. Mix one tablespoonful of flour with two tablespoonfuls of water and add to the mixture. Pour into a pastry-lined pie tin and bake in a hot oven for the first ten minutes, then reduce the heat and finish the baking. Remove from the oven, cool, make a meringue of egg whites, cover the pie with them, place in a cool oven and brown.

PEACH FLUFF

Mix one-half a cupful of sugar with one cupful of thick whipped cream, beat well, place in the ice box until thoroughly chilled. Peel four cupfuls of peaches, sliced fine, and place them on the ice. Place the peaches in a chilled serving dish, sprinkle with a half a cupful of sugar, add to the cream two stiffly beaten egg whites, pour over the peaches and serve.

ITALIAN HASH

Mix two and a half cupfuls of chopped, cooked beef with one chopped, parboiled calf's brain, one tablespoonful of oil, one tablespoonful of anchovie sauce, the slightly beaten yolks of four eggs, a seasoning of salt and paprika, one tablespoonful of chopped parsley. Mix all the ingredients together and place in a shallow, buttered baking dish, and garnish with the oven.

Mrs. Wyman does not reply to letters, but requests for recipes are answered in the department, PRACTICAL RECIPES, published every Friday.— (All rights to reproduce reserved by A. L. Wyman.)

Fluffy and Soft

After your blankets are washed and dried, hang them on the line in the open air and beat them a bit with a carpet beater. It will raise the fluff and make the blankets lovely and soft. Then pack away for the summer.

Heavy Furniture

If the piece of furniture is very heavy and hard to move, do not try to move it each week, but sweep under it with a whisk broom. The small amount of dust can be removed easily in this fashion.

Shalimar powder by GUERLAIN

Supreme among perfumers . . . Guerlain has produced a precious powder. It is perfumed with Shalimar . . . that rare odeur that holds the adoration and admiration of Paris and New York alike.

The New Stores Homes

Ideas, and gestions

BY OLIVE GRAY

Bags have yammed, by the Glass counters in store, that some- current values was home sale. It was bags for all oc- bags, of which no are many, since a required for each dinner. There were in many kinds, bags and embroidered; bags for small; bags for daytime; bags for for shopping; bags for for sport, for every occasion, and ar- the prices were but some cases, less than Notable merchan- ever, as is ever the case sales store.

Bride Gifts

natural, so flattering, so gifts for the bride— able sets. Fash- tray of glass, both and the bottlery, and accessory in French gilt, a wealth of generous trays, in floral gilt, mirror— stand, and an array of perfumes and beauti- together with minor whatever may be per- to use upon a dressing

gift, in deposit silver upon white china, are of- the bridal-gift array, matching trays, these

As we predicted, the pajama has ventured forth upon the street. Strange to say, it was in New York, instead of Los Angeles, that this innovation appeared. Of course it was a publicity stunt for a cinema beauty, this last invasion of the outpost in femi-masculine attire; but it may turn the tide from clothes enslavery for women, toward which we have been tending, as some fearingly believe.

sets are practical as well as lovely, gifts to set a-patter the home-loving heart of any bride.

Summery Posies

Pond lilies for use as lapel bouquets, are among the most summery of flowers. Not alone that the cool surface of the petals look so very insouciant, but also that those blossoms bring to mind the placid ponds wherein such flowers are wont to grow; for the pond lilies at artifice scarcely can be distinguished from Nature's own.

The Vogue of White

With advent of summer, white, always popular during this solstice, is more than ever in vogue. White hat, white ensemble, white stockings, white shoes, white gloves—what more dainty, what more restful to the eye, during the summer months! And, of course, white flowers, wherever flowers are worn.

Heady

"Well, I'll be hanged-" exclaims the newest frock, and elects to be suspended upon one of those novel heady ones. Tiny, wooden heads, with most knowing facial expressions, surmount the newest clothes hangers. Hand-painted, of course.

Men's Trees

The wide-spreading shoe trees, heretofore the only offerings for men's shoes, now are replaced by trees, similar to those long in use by women, but the masculine ones are broader at the toes, and really look the part for which they are intended—very mannish and practical. Of wood, and enameled in colors to match the vanity wardrobe of the well-groomed man, these trees are quite gifty, for the groom, when a set sufficient to go 'round his entire foot-wardrobe, may be chosen.

Shoe "Hats"

Possibly not for men's shoes, but certainly welcome to the women with an array of dainty footwear, the new foot cozies—as I call them, are distinctly preservative. Fashioned from that transparent Argentine cloth, in pastel tones, these shoe covers are certain to protect from dust and tarnish the delicately tinted slippers and pumps possessed by Milady of Fashion.

Caps the Climax

The latest word in marcel caps are pretty and becoming, as well as economative. Of net, bound with gray ribbons, these dainty caps are shaped somewhat like baby caps, and should add to the youthfulness of the wearer—or at least should subtract from her years. No danger, either, of scaring the night-time burglar, as might some of the less flattering wave-preservers.

Utility Drawers

No, no! Not that kind! I refer to drawers in the latest of utility boxes. Dainty affairs are these, for holding feminine fripperies. They come in colors to match your dressing table accessories, and keep tidy all that they contain.

Out of the Way

If you use a number of small rugs on your floors, the easiest way to get them out of the way when cleaning the room is to shake or vacuum them and then lay them across the rockers of some rocking chair. Then when the chair is moved the rugs go along and are out of the way until the room is cleaned.

Old Pictures

After years of service, the backs of the pictures hung on your wall are apt to be torn and open to dust and soil. Take a heavy weight of wrapping paper and glue it tightly to the back of the frame. This will keep out dust that is so hard on the picture itself.

Fabric Gloves

After washing cotton or silk gloves, rinse them by holding them under the cold-water faucet so the fingers are inflated with water. Then let them drip dry on the line and they will dry without twisted fingers.

Health and Diet ADVICE

by DR. FRANK McCOY

Author of "The Fast Way to Health"

CHILDREN'S HURTS

Every little boy and girl receives many cuts, burns and minor accidents before it grows up. The mother nearly always has to attend to the little injuries, and she should know how to treat them so healing will take place most naturally. Not many of the injuries are serious; probably not more than one in a hundred requires the services of a doctor. Even though the mother knows nothing about first aid in the beginning, she usually learns from experience to become an excellent practical nurse. The handling of children's injuries is quite simple, and I will give you some instructions for caring for the more common ones.

Black eye: When the child receives a blow in the eye, immediately use a cold compress, as this will tend to prevent the accumulation of blood which is responsible for the black and blue marks. Cold compresses should be used as long as there is soreness in the eye. After this, begin to use hot compresses about three times a day, as this will assist in the absorption of congested blood.

Bloody noses are often caused by a blow or by the congestion of blood in the head during hot weather. Have the child hold its head back and place a compress of cold water on the back of the neck and over the nose.

Bumps and bruises: First apply cloths wrung out of cold water. They should be renewed until the soreness has ceased. After this, use hot compresses.

Burns and scalds: Small ones should be treated by washing thoroughly with water, then applying a compress with a thick paste of baking soda and water. If the scald is severe and covers much of an area it is better to send for the doctor.

Clothes on fire: Wrap the child in a rug or blanket to smother the flames. Then apply vaseline, carron oil, or soda and water to the burn. Do not try to tear away clothes which may be adhered to burned tissue. It is better to soak them off with water. If the burns are extensive or deep you will need a doctor.

Cuts: Children seldom cut themselves deeply enough to require a doctor. Every cut should be washed with sterile water. A little bleeding does not hurt, but the loss of too much blood can be prevented by tying firmly with gauze. After the bleeding ceases the bandage should be loosened. If the wound does not heal quickly, or shows signs of becoming swollen, it should be soaked in hot water and epsom salts. Where the edges of the wound do not come together naturally, it should receive a doctor's attention, or if bleeding is too profuse to stop readily. Whenever an artery or vein is cut a doctor should be called at once and pressure exercised on the artery or vein to prevent excessive bleeding until the doctor arrives.

Objects in the eye: Do not allow the child to rub the affected eye. If near a drinking fountain, let the cold water spurt into the eye while the lids are held open. If this does not work you may be able to remove the object by using a toothpick wrapped in clean cotton.

Nail wounds: Whenever there is a punctured wound it is a good plan to soak the part for a long time in hot water and epsom salts or use a hot poultice.

Sunburn: Treat the affected area with carron oil, which is a mixture of lime water and linseed oil which your druggist can supply you.

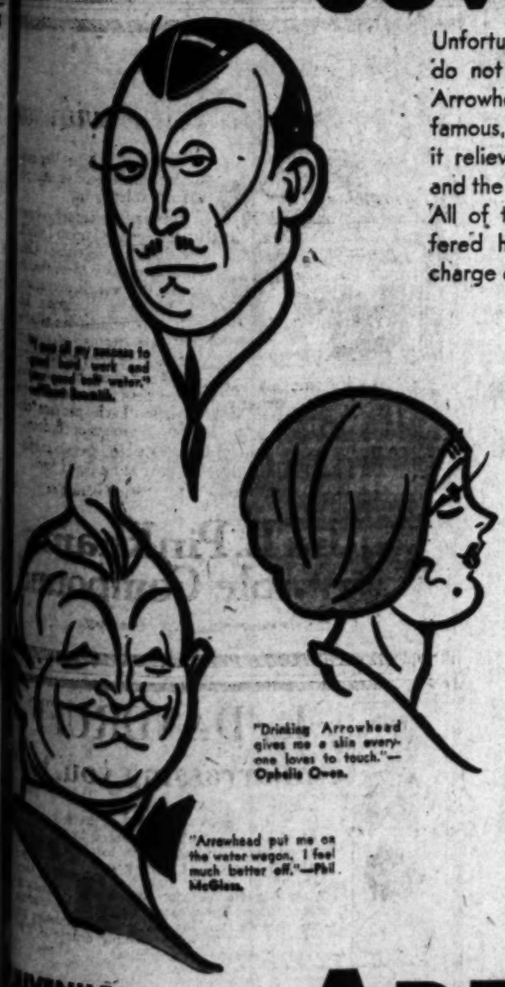
Swallowed sharp objects: Give the child plenty of doughy bread to eat. Do not give castor oil. If the object is caught in the throat turn the child upside down and slap between the shoulders. If the object does not come out, send for the doctor.

(Copyright, 1930, by Bell Syndicate, Inc.)

Breaking It In

Before using the new iron cook pot, rub it over with suet and place the pot over a low flame to heat. Allow the suet to remain on the iron surface over night. Wipe the pot dry, but do not use soap or water on it until after it has been used.

No paid testimonials needed for this *Juvenile Water!



"Drinking Arrowhead gives me a skin everyone loves to touch."—Ophelia Owen.

"Arrowhead put me on the water wagon. I feel much better off."—Phil McGlass.

Unfortunately, (or perhaps fortunately) we do not pay for testimonials telling how Arrowhead Spring Water makes people famous, beautiful, clever, successful or how it relieves them of worry, excess weight and the other well known social drawbacks. All of the enthusiastic endorsements offered here were forced on us without charge or obligation.

"Thanks to Arrowhead I am never bothered with dandruff—not my own, anyway." Hedda Hoopel.

BUT SERIOUSLY speaking, most every celebrity in Southern California drinks Arrowhead Spring Water. Our customer list reads like a Who's Who in the different professions. They drink Arrowhead because they like it and they like Arrowhead because it is **juvenile.** Arrowhead Spring Water is formed far below the earth's surface and primarily composed of oxidized hydrogen. That's why it's juvenile—and being **juvenile** it is the most refreshing—and has a tendency to immediately reinvigorate you. You can taste the difference. Have a demijohn delivered to your home and office and enjoy the finest water known.

COOLERS LOANED FREE

This famous drinking water is delivered everywhere in Southern California. Five gallons—50c—in metropolitan area. For service phone WESTMORE 5231, California Consolidated Water Company.

"After drinking 6 bottles of Arrowhead I feel wonder FULL."—Donald Dismukes.

IT IS JUVENILE

JUVENILE water is kin of the freshest kinds of water known. Procured from Arrowhead Springs, it comes from profound depths and is not exposed to contamination from surface waters. It is primarily composed of oxidized hydrogen in its natural state. Percolating through granitic and mineralized formations, Arrowhead Spring Water dissolves sufficient amounts of the natural salts required for good health. Being Juvenile this water has pure, healthful and better tasting

FOX PLANS FOR FOREIGN FILMS

Star of George White Shows With First National; Harold Kinney Signs for Role With Fox Films; Young Actor Plays Lead in Lasky Feature

BY GRACE KINGSLEY

Establishment of a foreign department for the production of Fox-Movietone talking pictures in Spanish was announced yesterday by the Fox Film Corporation.

WINFIELD R. SHEEHAN

John Stone, veteran scenario writer and recently in charge of all silent and synchronized Fox film productions, heads the new department, with Winfield Sheehan, vice-president and general manager, and Sol M. Wurtzel, superintendent of production, his immediate superiors.

The department is complete in itself, with its own staff of directors, writers and technicians.

"One Mad Kiss," the first Fox-Movietone starring picture of Jose Mojica, the magnetic young Spanish grand opera tenor, already has been completed, and is ready for distribution in all Spanish-speaking countries. This picture is entirely in Spanish, with dialogue and ten original song numbers.

In addition to Mojica, the cast includes Mona Maris, Antonio Moreno and Tom Patricola. James Tingling directed.

Two other all-Spanish talking and singing pictures will be made this year with Mojica starred, Mr. Stone announced. In addition, "Common Clay" will be done in Spanish and a number of two-reel dramatic and comedy features will be produced.

The directorial staff, in addition to Tingling, includes Dave Howard, who will direct features; Dick Harlan, who will direct Spanish dramatic shorts, and Jack Wagner, who will direct Spanish comedy shorts.

"Her Golden Calf," a Fox Movietone production, featuring El Brendel, Marjorie White, Jack Mulhall, Richard Keene and Sue Carol, has been synchronized for the foreign market. It has been made in six versions, with masters of ceremony speaking six languages officiating. Valdemar Larsen officiated for the Swedish and Danish versions; Frank Puglia, the Italian; Fritz Stephani, the German; Rene Cardona, Spanish, and Henri Paillai, French.

FIRST NATIONAL TO SIGN RUTH PERFECT

If nothing goes amiss, Ruth Perfect, the charming young prima donna of George White's "Scandals" during three or four seasons, will sign a long-term contract with First National.

Miss Perfect has taken a screen and voice test, which, living up to her Christian name, is said to be 100 per cent excellent.

Besides Miss Perfect's appearance in the "Scandals," she has played in other musical productions in New York. She has just come west, and was heard with much enthusiasm yesterday morning by the crowd assembled at the Breakfast Club.

Fox Signs Juvenile

That rising young juvenile, Harold Kinney, has just been signed by Fox Films to play the character juvenile lead in Al Santell's picture, "The Sea Wolf," starring Milton Sills, with Jane Klethly playing opposite.

HAROLD KINNEY

Kinney recently came west from New York, where he played in a number of Broadway productions, including "The Poor Nut," "Weak Sisters," "In Love With Love" and other plays. He is considered one of the most promising young actors in films these days.

Junior Durkin in Lead

Although Junior Durkin would seem almost too small a boy to carry such a big load as a leading role in a western story, Paramount believes the lad can do it and so for the first time since Johnny Fox scored in Cruze's "The Covered Wagon," a youngster is to play such a part, this time in Richard Arlen's current starring vehicle, "Spanish Acres."

The announcement was made yesterday by B. P. Shulberg. Durkin joins a cast including Rosita Moreno and Eugene Pallette. The picture will be the lad's second appearance on the screen, his first in "Fame" with Belle Bennett.

Durkin made such a hit in "Courage" last year in New York that he was acclaimed America's greatest child actor. When 5 he carried the child role in William Faversham's revival of "The Squaw Man."

McDonald Featured

Though J. Farrell McDonald is free-lancing, he seems to be tripping from one picture to another just as fast as he can.

J. FARRELL McDONALD

This very excellent actor, remembered in "Three Bad Men," "Three Godfathers" and others, is now engaged in "River's End" for Warner Brothers. He will hardly have finished that when he will at once go to work in a featured role for Warners in "Barber John's Boy," which Allan Dwan will direct.

So far, McDonald is the only player cast. He will have one of the featured leads in the picture.

"Barber John's Boy" will be McDonald's sixth picture this year, and he is scheduled for three others following the current one.

Frank Beaston Comes West

If nothing happens to prevent present plans going into effect, Frank Beaston is shortly to sign a long-term contract with Pathe.

Young Beaston has been playing in New York during the past two seasons, his latest effort being in Anne Nichols's latest play, "She Walked Home."

Georgie Stone In It

Georgie Stone has been cast, we learn, for one of the comedy leads in "Little Caesar," which Mervyn Leroy will direct for First National.

The comedian has been appearing in a number of comedies, including several for Universal, First National and Tiffany. He was originally in vaudeville.

BANK BOOSTS RATE ON SAVINGS ACCOUNT

Directors of the German American Savings Bank have voted to increase the rate of interest on savings accounts to 4 1-4 per cent, Carl L. Schloessmann, president, announced yesterday. The bank is strictly a savings institution and is primarily concerned with the policy of encouraging thrift and savings, said Mrs. Schloessmann. The initial dividend on its capital stock will be distributed July 1.

PRISON RIOT FILM CLIMAX

'The Big House' Melodrama of Convict Outbreak

Wallace Beery Hit; Morris, Montgomery Prominent

Clever Comedy Also on Bill at Criterion

BY EDWIN SCHALLERT

Leading a predicted grim march of penitentiary talkies to the screen, "The Big House" opened yesterday at the Fox Criterion Theater as a somber and action-filled melodrama, in which Chester Morris, Wallace Beery and Robert Montgomery play the foremost roles.

On the stage there has recently been presented "The Criminal Code," and at present "The Last Mile" is still on view, and while "The Big House" is similar to the latter in having a prison break as its dramatic climax, this screen feature is a departure from both. It is lightened with considerable humor, even though it also resorts to hokum here and there.

As picture fare, "The Big House" is a novelty. There is no glamour to its sullen backgrounds of steel bars and stone walls, but there are color and interest in its characterizations, with Wallace Beery seemingly capturing the greatest popular approval. It is, I believe, his first really successful effort in the talkies, and there is no question but that he regains much of his old-time personality of the silents.

REALISTIC SCENES

Fashioned from the story by Frances Marion, with dialogue by Miss Marion, Joe Farnum and Martin Flavin, who wrote "The Criminal Code," the picture has the benefit of an ample authority. George Hill was responsible for the direction and has given a note of high realism to many of the penitentiary scenes. Occasionally the fight at the finish becomes something of a jamboree, but even that is very effectively done in its larger values.

At the start of the story one picks up the character of one Kent—a chap sent to prison on a manslaughter charge. Not the criminal type, he reacts unhealthily to the environment, developing a yellow streak.

A crucial point is reached where he hides a knife in the coat of one of the men in his cell who is just about to be paroled. The search discloses the weapon and the victim of the trick is sent to the dungeon.

It is about this character of the prisoner thus double-crossed, played by Chester Morris, that most of the plot of "The Big House" really revolves. Secondarily introduced at the beginning, he becomes the main figure in the development when he escapes from the prison, falls in love with the weakling's sister, and is eventually brought back to the penitentiary. He refuses to take part in the jail-break, and helps to save the lives of the guards during the riot.

TRIO PROMINENT

There are really scant shades of difference between the importance of the roles played by Beery, Morris and Montgomery, despite that Morris is the virtual hero of the picture. He is the most sympathetic of the trio, necessarily. However, Beery is far from being an unlikeable sort, and certainly affords more genuine entertainment than anybody.

Lelia Hyams appears in the film obviously to give it some romantic appeal, although her introduction is fairly logical. Lewis Stone, as the warden, George Marion, Sr., as the old prison guard, and De Witt Jennings, as a rather remorseless overseer among the guards give portrayals of quality. The picture will doubtless hold interest for a large majority of picturegoers, and drew big crowds at the opening yesterday.

One of the funniest comedies of the year, called "Fast Work," with Charley Chase starred, also occupies a place of consequence on the bill. In this there are uproarious moments of an original kind when Charley invites an escaped lunatic to lunch, whom he takes to be the father of the girl that he is in love with, and is prevailed upon by the demented gentleman to waltz around with him on the dance floor of the cafe. The meal ordered by the presumed father is sufficient to feed an army.

Noted Baritone Portrays Bandit in 'Rogue Song'

Lawrence Tibbett in "The Rogue Song," Metro-Goldwyn-Mayer picture opening at Loew's State today in its first popular run, will be limited to one week.

In the role of a bandit chieftain, Tibbett presents a new type of screen hero and adds to his laurels as America's greatest baritone. The picture was directed by Lionel Barrymore.

Katherine Dale Owen has the leading feminine role and the comedy antics of Laurel and Hardy, as blundering Cossack followers of Tibbett, provide hilarious sequences. Fanchon and Marco will present a new stage idea.

Bennett Drama Reopens Tonight

An announcement from Ralph Culver Bennett, author of the play, "The Glory Declared," which closed after one performance Monday night, says that the drama will reopen at the Hollywood Music Box tonight and will continue for two weeks. Bennett indicated that the play was closed abruptly on account of illness.

COOPER VEHICLE TO START RUN TODAY

Gary Cooper in a film romance of the Civil War, "Only the Brave," starts a week's run today at Bard's downtown theater. Cooper has the role of a young Yankee soldier who finds his sweetheart unfaithful. As a result of this he volunteers for spy duty and is captured by the rebels, only to fall in love with the daughter of his captor, played by Mary Brian.

Conquest of South Pole Picturized

Rear-Admiral Richard E. Byrd

Who led a courageous band in the daring exploration of a new land. The entire trip was filmed by two Paramount camera men and will be shown starting today at the Paramount Theater. The picture is titled, "With Byrd at the South Pole."

Whispers in the Wings

BY MURIEL BABCOCK

DAVID BELASCO, dean of American showmen, I was told yesterday, is casting a wistful eye toward the Los Angeles production field.

In fact, Mr. Belasco has reached the point where he is murmuring things about doing a play in these parts in August or the early part of September.

NANCY WELFORD

A Mr. Richard Pitman, who is Mr. Belasco's casting representative in the East, recently dispatched Nancy Welford a long letter wherein he inquired if Miss Welford would be interested in appearing in a play for Mr. Belasco.

The part, the letter stated, was that of the flapper daughter of a titled English noblewoman. My informant neglected to find out the name of the play, but perhaps it isn't titled yet.

Would Miss Welford care to do the part? She gaily replied in a letter to Mr. Pitman that she would be delighted. According to the present status of things, the production should come along this fall. It will probably be done on the Coast.

From another source, I learn that if perchance the Nancy Welford vehicle opens in New York, Mr. Belasco will do here one of another four manuscripts which he now has on his desk.

Miss Welford, of course, is an experienced actress, both in musical comedy and the stage. She has played in a lot of shows here and in the East, scoring one of her biggest hits around here in "No, No, Nanette."

"All Quiet" to Pantages

"All Quiet on the Western Front," the Erich Remarque story of war which just ended a substantial run at the Carthay Circle Theater, moves next to the Hollywood Pantages. Although so far this piece of information has been guarded as a great secret, somebody who should know broke down yesterday and confessed that the picture opens almost immediately—on July 3, to be exact.

Vine Street Closes

"Under a Virginia Moon," Margaret Fawcett's show with Percy Haswell at the Vine Street Theater, will fold its wings Saturday evening.

With the closing, the Vine Street Theater will go dark for several weeks during which its interior will undergo remodeling and redecoration in the modernistic mode.

As things look now, it should reopen late in July or early in August with a brand-new musical comedy, now being written by a band of ambitious spirits including, George Denni, Gwen Meredith, George Boles and Edward Elsner. Denni, once musical conductor for Ziegfeld, is doing the music; the last-named three are preparing the book and lyrics. The piece is untitled as yet.

Forty-two Actors Get Jobs

Here's the complete cast of "Subway Express," the mellodramatic tale of a murder in the New York subway, which arrives at the Mason, Monday evening. There are only forty-two roles in the play.

LILLIAN RICH

Lillian Rich, once a motion-picture actress, and Leo Curley, seen here as the keeper in the cast of "The Criminal Code," with Fred H. Hargrave, Victor Rodman and Hugh Kidder, have the principal roles. The others to be seen, mostly in "bit" characterizations, include: Bertha Blackman, A. Rosenthal, Gust Dakes, Jimmy Dakes, William Humphrey, Lillian Stuart, Dorothy Bay, Bobby Linden, Virginia Crawford, Robert White, Helen L. Hinkel, Sebastian Mann, Harry Lee Ray, Eliot Duvey, C. Russell Sage, Etta Raynor, Harry E. Willard, Sam Morris, Mears Pitcher, Eugene Renard, Roland Hansen, Demetrius Alexis, Betty Todd, Evan Pearson, Viola Walton, Helen Lind, Olva Ellison, Harry Ellis, Josephine Branham, Margaret Armstrong, Richard Curtis, Al Hallert, Rand Barker, Roy Watson, Garland Kerry and Ralph Simone, who staged.

William Hart to be Honored at Late Show

William S. Hart will be accorded signal honors Saturday night when his friends in the motion-picture world will extend to him a formal tribute at the midnight matinee of "Hell's Angels" at Grauman's Chinese.

William S. Hart

A reception committee, headed by Sid Grauman, will welcome the celebrated western star at his first public appearance in many months. Hollywood and the film colony are making the event a semiolvic holiday, it is said. A master of ceremonies from among the industry leaders will be in charge of the celebration.

WOOLSEY IN OPERETTA

Robert Woolsey has been assigned the comedy lead in "Babes In Toyland," adapted from the Victor Herbert operetta.

PRESIDENT ANNOUNCES NEXT PLAY

"Square Crooks" Booked to Start July 6; Strong Cast Assembled

That the majority of audiences want plays devoid of smut is evidenced by the success of "Square Crooks," which ran on the New York stage all last season, according to producers at the President Theater here, where the play will be presented starting July 6, next. "Square Crooks" is said to be one of the half-dozen which lasted a full season in the eastern metropolis.

Henry Duffy, in presenting the comedy, has selected the cast carefully. In its roster are Kenneth Daigneau, Flora Bramley, Eddy Waller, Olive Cooper, Ben Taggart, Helen Keers, Harry Hollingsworth, Walter Marshall, Herbert Fortier and James Sergeant.

The underworld drama, "Crime," which has held the President Theater stage for the past few weeks, will terminate its engagement with a matinee and night performance July 5.

"FALL GUY" DUE TODAY AT R.-K.-O.

Jack Mulhall Featured in New Radio Picture; Vaudeville Changes

"The Fall Guy," featuring Jack Mulhall, starts at the R.-K.-O. Theater today. The film was produced by Radio Pictures from the play by George Abbott and James Gleason.

Credited with the record of forty-two weeks on Broadway, and a three years' run in all parts of the globe, the story is said to deal with the humorous complications that befall a white-collar man who loses his job and takes a fling at bootlegging in order to keep the home fires burning.

Handling prominent supporting roles are Mae Clarke, Ned Sparks, Pat O'Malley, Tom Jackson, Ann Brody, Wynne Gibson, Elmer Ballard and Alan Roscoe. Tim Whelan adapted the play to the screen, and Leslie Pierce directed.

Young Actress Has Cinderella Story to Tell

Growing tired of bridge and Junior League dances about two years ago, Dorothy Christy visited Florenz Ziegfeld's office in New York and was offered a part in one of his shows. She decided, however, to stick to dramatic acting, so declined the opportunity.

Then she went to the office of Schwab and Mandel and was told that there would be no casting that day. Schwab, it is said, happened to see her leaving the office and after a conference engaged her for a production. She later played important roles in "Follow Thru" and "The New Moon."

Following the advice of Horace Greeley, even though she was a girl, Miss Christy secured a part in "In His Arms" at a Los Angeles theater, where Fox officials signed her for films. The young lady is playing currently in "So This is London," showing at the Carthay Circle Theater.

REPAIRS MAKE BATTLERS NEW

Dreadnaughts' Modernization Details Disclosed

Range Increased to Twenty Miles by Tilting Guns

Little to Remind of Former Appearance When Done

Details of the $39,793,750 program for modernization of the battleships New Mexico, Idaho and Mississippi, which is expected to be recommended to Congress tomorrow for early authorization by the House Committee on Naval Affairs, were revealed at the local base yesterday.

The rebuilding of the three sister dreadnaughts, which will make them equal to any battleships in existence, will complete the $140,000,000 modernization program laid down by the Navy Department in 1924, as provided under the Washington treaty.

WILL BE MODERN

Upon completion of the modernization of the three ships the Navy will have a highly efficient, homogeneous battle line of twelve dreadnaughts having a fighting range of more than 30,000 yards, with the ships themselves strongly protected against attacks of submarines, aerial bombs and plunging shells. The older battleships New York, Texas and Wyoming, also to be retained under the London treaty, were not modernized so completely because they are nearing obsolescence.

While increase of the effective range of the battleship's main batteries from 24,000 to 35,000 yards by increasing their elevating radii from 15 to 30 deg. has been of major interest, other modernizations plans are of equal importance. These major items, as released yesterday, follow:

CHANGES STATED

(1.) Additional defense against submarine torpedoes and air attack by installation of "blisters" and protective decks. Removal of obsolete underwater torpedo tubes and installation of surface tubes.

(2.) Rebollering, installation of new turbines, improvement of oil-burning machinery and main engines.

(3.) Increasing elevation of turret guns from 15 deg. to 30 deg.

(4.) Replacing cage masts with tripod fire control masts.

(5.) Installing modern fire-control systems.

HEAVIER AIR GUNS

(6.) Installing new-type airplane and launching facilities.

(7.) Replacing three-inch anti-aircraft batteries with five-inch guns.

If Congress makes the expected authorization this month the U.S.S. Mississippi will begin her rebuilding at an east coast navy yard immediately after July 19. The battleships Oklahoma and Nevada, first American battleships to have their turret-gun elevation increased, have just rejoined the fleet here after completion of a $15,000,000 program, while the U.S.S. Arizona and U.S.S. Pennsylvania are in the midst of similar afterations at the Norfolk and Philadelphia navy yards. They will rejoin the battle fleet next winter.

CENTENARIAN HERMIT ALL AGOG

Civil War Veteran Awaits Son's Visit

[P. & A. Photo]

Alfred Louis Maddox

THE hermit of the Temecula River—as Alfred Louis Maddox is known—is policing up the little eight-by-twelve cabin the Indians built for him twenty-seven years ago in a narrow valley down near the southern border of Riverside county. Despite his failing eyesight brought on by the 103 years he has lived, he's shooing off the rattlesnakes and lizards that clutter up his front yard, herding his goats into an improvised corral so they'll not cross his doorstep for awhile and shaking the dust out of fleecy blankets to render them fit for a guest.

In short, Alfred is putting his house in order; for next week his son's coming from Texas to visit him for the first time in thirty years.

Alfred's homestead is two miles from Aguanga and twenty miles from the main highway. It is on a mountain road that many years ago served as a route between Los Angeles and St. Louis, and a few hundred yards away are the ruins of the old Butterfield stage depot, baking in the sun.

The aged hermit was born in Tennessee in 1827 and served as a scout in the Union Army during the Civil War. All other men folk of his family, except his father, were Johnny Rebs, he says.

Mr. Maddox says his most cherished companion every day is his copy of The Times.

LAST 'SMOKE' BLOWS UP PLANS FOR GAS SUICIDE

Bootlegging being in a condition of depression, Elmer Durr, 33 years of age, whom police accuse of having dealt in the liquor trade, yesterday decided to commit suicide. And this, according to his own story told through heavy bandages swathing his face at Georgia-street Receiving Hospital last night, was what happened.

"I'm living at 1318 South Los Angeles street, and I say to myself, why go on living? I think it all over, and decide to go by the gas route.

"I turn on the gas, and I'm sitting on the bed in my room, waiting for the end, and then I think 'Oh, well, I might as well have a last cigarette.'

"I put the cigarette in my mouth, light a match, and that's all I know."

The missing details were supplied by Detective Lieutenant Ellis, the fire department and terrified neighbors.

The moment Durr lit the match there was an explosion which all but tore off the entire top of the rooming-house, and set fire to what still stood. Durr himself was unconscious when rescued.

He has many major burns, and his recovery is doubtful, it was said at the psychopathic ward of General Hospital, to where he was removed from Georgia-street Receiving Hospital.

ICE-LUGGING DON JUANS TO BE BEAU BRUMMELS

Hereafter, if you see the quintessence of sartorial splendor lugging a cake of ice up your back steps, don't think a policeman has gone crazy with the heat! It'll only be the ice man; for smart blue uniforms with jaunty cape to match have been decreed as being what the well-dressed ice man will wear this season.

F. T. Merrihew, sales manager of the California Consumers' Company, distributors of Frozen Steam and Associated Ice, yesterday announced all the company's drivers are to be attired in the above-described garb, in a gesture of improved refrigeration service to housewives. The uniforms will be somewhat similar to those recently donned by officers of the law, but minus, of course, the Sam Brown belts.

TRIANGLE ROWS CAUSES ARREST

Husband Charges Attack to Suitor of Wife

Revolver Assertedly Used to Strike Blow

Suspect Held in Jail Under Bail of $5000

Accused of having attacked the husband of the woman with whom deputy sheriffs asserts he was keeping company, Leo R. Coe, 46 years of age, 433 South Washington street, Whittier, yesterday was held in the County Jail under bail of $5000 on a charge of assault with a deadly weapon.

Coe, a salesman, was arrested in Whittier yesterday morning following the complaint of George D. Winger, 802 Laurel avenue, Sunshine Acres. Winger charged that the salesman had come to his home early in the morning and during an argument with his wife struck him on the side of the head with a .45-caliber revolver.

The accused man was taken before Justice of the Peace Gamble of Artesia. His preliminary hearing was set for tomorrow morning.

According to Capt. Marty and Deputy Sheriffs Hudson and Stewart of the Norwalk substation, Coe and Mrs. Winger had been going out together for some time and had been together the previous night. The assault is asserted to have taken place when Coe came upon the husband and wife quarreling in the Winger home.

FILM COMIC DEFENDED IN STORY SUIT

Harold Lloyd Witnesses Deny He Plagiarized Plot Offered by Late Writer

Harold Lloyd, noted film comedian, "got the idea" and supervised the direction of the film story, "The Freshman," it was stated yesterday in testimony in United States District Judge Cosgrave's court in the trial of a case brought by Mrs. Sadie B. Witwer, executrix of the estate of her late husband.

MRS. SADIE B. WITWER

The statements were made by William R. Fraser, general manager of Lloyd's corporation and Sam Taylor, co-director of the picture.

Sam Taylor went into detail to tell of the locale, the theme and the characterization of the motion picture, which he concluded was "the story of the college life of an average boy bolstered up with gags."

Lloyd, himself, is expected to be called as a witness today.

Harold Pandler, attorney for Mrs. Witwer, in his opening statement to Judge Cosgrave, outlined the case and stated that Witwer's story "The Emancipation of Rodney," was submitted to Lloyd, and that the picture when released contained the story's basic idea.

The trial of the suit is expected to last until the middle of next week.

Edison Company Office Held Up

Two bandits who entered the office of the Southern California Edison Campany, 10722 South Broadway, soon after opening time yesterday morning held up the manager, E. T. Schluntz, and C. J. Flower, a patron, and escaped with approximately $300.

As the robbers entred, they covered the two victims with a gun and forced them into a room in the rear.

One of the bandits wore dark goggles and the other a green visor, Schluntz told police. Both were armed.

HUGE INVENTORY IN RATE HEARING

Thirty-four-Volume Exhibit Offered by Gas Company

Two Years' Work Involved in Property Compilation

Construction Cost Valuation Placed at $67,507,633

Thirty-four volumes, representing two years' work in cataloging the gas properties of the Los Angeles Gas and Electric Corporation, were introduced as an exhibit yesterday by counsel for the public-utility concern at a hearing before State Railroad Commissioner Carr, to determine whether the company is earning more than a fair return on its capital investment.

The mammoth inventory was introduced in connection with testimony of A. J. Luick, consulting engineer of the firm of Lucas & Luick of Chicago, appearing for the corporation, who gave the total value of the enumerated items as $67,507,633 from the point of view of the actual cost of construction.

Later, Luick testified that the replacement value of the company's gas properties, as of January 1, last, is $85,484,429.

Attorney Herman Phleger, acting for the gas company, led Engineer Luick through an analysis of the various features of the compilation, taking up overhead and other phases of the lengthy report. It was stated that 23,713 man-days were required in the making of the inventory.

Much of the testimony was of a technical nature, developing such matters as the percentages of general expenses that should be attributed to the company's gas operations.

It was stated that the two appraisals do not contain any going value; that is, the value of the plant as an operating concern. This value, it was contended, would increase the appraisal figures.

JURY FIXES BLAME FOR POISONINGS

Proctor Tells How Wife Attempted Death by Gas Before Family Tragedy

Mrs. Louise Theresa Proctor, 41 years of age, administered arsenic poisoning to her three children with homicidal intent and then committed suicide by taking a lethal dose herself. This was the substance of the verdict of a jury yesterday following an inquest at the Coroner's office.

Edward Proctor, 35, shipping clerk for a biscuit company, identified the bodies of his wife and children. The inquiry developed little in addition to that which had previously been brought out by investigating officers.

Under questioning by Deputy Coroner Monfort, Proctor said that his wife for some time before her death had been morose, and that a few days before he had frustrated her attempt to asphyxiate the family. He testified that his friendship for Mrs. Vera Capelin, 28, a divorcee, had resulted from an uncongenial atmosphere at home, but that he had discontinued it recently. Letters purporting to be from Mrs. Capelin to Proctor were found by deputy sheriffs with a suicide note.

Proctor said the note was left by his wife at the time she attempted the family's life with gas. He said he waved good-by to the children, Edwin Joseph, 3; Adeline Ann, 5, and James Edwin, 6, as he drove away to work with no thought of an impending tragedy.

Near death from the effects of arsenic, the mother and children were discovered in their home at 1337 Elm avenue, East San Gabriel, Monday, by a neighbor.

PROTESTS TO BE HEARD

Protests will be heard by the City Council today against the placing of new setback lines on Kingsley Drive between Eighth street and San Marino street and on Sixth avenue between Jefferson Boulevard and the Southern Pacific right of way.

"STRANGE INTERLUDE" REAL

Langdon Suit Testimony Outdoes Fiction Tale; O'Brien Relates Truce With Estranged Wife

Remorseful, self-reproaching letters of Thomas J. O'Brien to his former wife, now Mrs. Harry Langdon, yesterday were read into evidence at the trial of O'Brien's suit to collect on notes aggregating $11,500 which the film comedian gave to stave off a heart balm suit and later repudiated. The case is on trial before Superior Judge Blake.

Attorney Paul Schenck for Langdon introduced the letters in an effort to show that O'Brien had lost his wife's love before the film comedian won it. Before the missives were read O'Brien testified that he believed Harry Langdon stole his wife's affections, and he also denied in detail all of Mrs. Helen O'Brien Langdon's accusations of ill-treatment by him. O'Brien also detailed an amazing truce during the estrangement between his wife and himself.

REMORSE RELATED

O'Brien's letter to his wife, written from San Francisco November 1, 1926, addresses "My Dear Helen." He wrote:

"I would give my life to undo the unhappiness and suffering I have caused you . . . I did not realize until the past year just what I had done in killing the most wonderful love a man ever was blessed with. No one ever possessed a sweeter, purer and more innocent little girl. Is it any wonder that I suffer?

"Don't think that I don't realize how bitter you must feel in knowing that it was not your fault and that I am to blame.

"Way down in my heart I have always believed you to be the same pure, sweet, innocent little girl who gave herself to me thirteen years ago."

STRANGE INTERLUDE

Driving back from San Francisco to San Diego in the last week of 1926, O'Brien testified that he stopped at a Glendale hotel, where his wife called with their daughter Virginia. A five-day recess of their estrangement followed, the suing former husband related on the stand. Matters of most intimate nature were told. This interlude and the wife's reasons for acquiescing constitute one of the most bitterly contested points of the trial.

Mrs. Marie Firmin, a private detective, testified at the afternoon session that she was hired in 1927 by Langdon's former wife, Mrs. Rose Langdon, to watch the comedian, who then was living by himself in a nine-room house on Hollymont Drive.

ADMITTED FACTS

She testified that Mrs. O'Brien and her daughter Virginia were living in Langdon's house. This had been admitted by the Langdons, who testified that the comedian offered the comforts of his house to Mrs. O'Brien while she was convalescing from an operation some three months after her meeting with O'Brien.

Mrs. Firman, examined by Attorney Bayard Rountree for the plaintiff, read reports to show that Mrs. O'Brien and Langdon entered the house night after night and did not emerge until next day. The woman detective said she heard the children call Langdon "Daddy Harry." Attorney Schenck moved to strike out her testimony but was overruled.

CREAM PUFF DOES DUTY AS LIQUOR CHARGE ALIBI

A cream puff is dangerous when sandwiched between a cocktail and a glass of wine.

But it is highly effectual when used as an alibi, as Johnny Hines, film actor, proved yesterday when he was tried before Municipal Judge Egan on a charge of having been found drunk in an automobile on the morning of May 29. With him was Miss Pauline Holbrook who, Officers Wilson and Moyer declared, was lying in the street at Third and Serrano streets when the pair were discovered.

Testimony in court yesterday disclosed that Hines and Miss Holbrook had attended a party at the home of Hollywood friends where a predinner cocktail was served. The cream puffs were served during the dinner and later each guest was given a glass of wine.

Then the fun began, according to the actor. Miss Holbrook became ill and asked Hines to drive her home. That's what he was doing, the comedian said, when his companion became ill, reeled against the door of the car releasing the latch, and fell out.

"Naturally, I started to assist her," the actor said, "and as I got out of the machine, I tripped over the steering wheel and fell out, too. That's just when the police came along."

Dr. A. L. Severien, police surgeon, testified that because of her stupefied condition when she was treated at Georgia-street Receiving Hospital, he was unable to determine whether Miss Holbrook was intoxicated. Hines, who accompanied her to the hospital, was not given a sobriety test, he said.

Judge Egan ruled there was no proof that either the actor or his companion was intoxicated and dismissed the charges.

FIREMAN'S FUND SETS DATE AHEAD ON STOCK

Directors of Fireman's Fund Indemnity Company have voted to defer the date when payment of the second, third and fourth installments on stock subscribed will become due, to September 25, October 25 and November 25, respectively. This action has been taken for the convenience of prospective subscribers to the stock, it was stated.

THURSDAY MORNING, JUNE 26, 1930. C

WASHINGTON CREW FAVORED IN REGATTA TODAY

Wilson Quits S.C. Graduate Managership

WILL TAKE NEW OLYMPIC BERTH

Arnold Eddy Slated for Chief Position

Willis Hunter Will Make Sport Schedules

Trojan Personnel Shift to be Made July 1

Gwynn Wilson's connection with the University of Southern California as graduate manager will be terminated July 1. Arnold Eddy, now Wilson's assistant, will become the head of the office, while Willis O. Hunter, director of intercollegiate athletics, will assume the schedule - making tasks.

GWYNN WILSON

Although no official announcements have been made, this information comes from authentic sources. Wilson, although he refused to comment on the matter, tacitly admitted the truth when he declined to deny the statement last night.

"Where did you get the information?" was his parry.

Wilson is slated to join Zack Farmer's tenth Olympiad committee, according to the reports, and will be placed in an official capacity as builder and director of the Olympic village, which will house the thousands of athletes from all over the world who will be here for the Olympic Games in 1932.

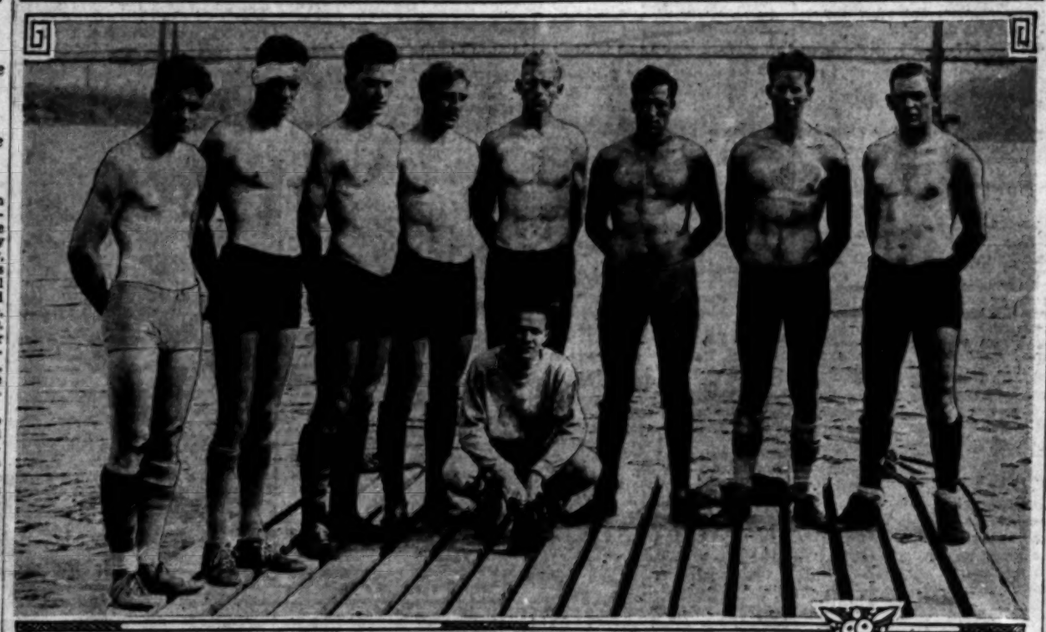
Wilson has held his present position since 1922, when he succeeded Henry Bruce, now controller of the university. Last year Wilson was elected president of the graduate managers' association of the Pacific Coast conference.

Eddy has been Wilson's assistant for the past five years. He has had complete charge of handling the tickets for the various Trojan athletic contests, and this will continue to be among his important duties. He will not, however, arrange the schedules as Wilson has done in the past, it is said. This duty will be turned over to Hunter.

Hunter has been assistant football coach, and director of intercollegiate athletics for several years. He recently was made a member of the national football rules committee.

WEST'S HOPES IN TITLE REGATTA TODAY

Here are the Washington and California crews, which will face seven other groups of oarsmen at Poughkeepsie today in the national championship boat race. Upper photo shows the Husky crew, left to right, Ginger, Odell, Reese, Schoel, Bowen, Phillips, Morris, Davis and Coxswain Curley Harris. In the lower photo, the California crew is taking a workout at the scene of today's classic. They are, stroke, Gregg; Caldwell, 7; Holman, 6; Dally, 5; Jastram, 4; Dunlap, 3; Brinck, 2; Granger, bow, and Logan, coxswain. [P. & A. Photos]



SERAPHS DEFEATED IN NINTH

Knothe's Double Conquers Angels in Last Frame by Score of 7 to 6

SEATTLE (Wash.) June 25. (AP)—Fritz Knothe, Seattle third baseman, knocked Los Angeles out of a chance to ride in first place in the Pacific Coast League today when he rapped a double to left field with the bases loaded in the ninth inning to give the Indians a 7-to-6 victory over the Angels. The hit scored two runs and brought Seattle from behind to victory. A win for Los Angeles would have put the Angels in a tie for first place with Sacramento as the Senators lost to Hollywood today.

FIVE AMERICAN STARS TRIUMPH

Tilden, Wilmer Allison, Johnny Doeg, George Lott and Mangin Advance in Wimbledon Tennis Tourney; Big Bill Trips Van Ryn; Cochet Humbles Bell

BY FRANK H. KING
Associated Press Staff Writer

WIMBLEDON (Eng.) June 25. (AP)—Five of America's foremost men tennis stars today stroked their way into the last sixteen in the Wimbledon men's singles championship along with eight players from the British Empire, two of the French aces and a representative from Czecho-Slovakia.

BILL TILDEN

Big Bill Tilden, Wilmer Allison, Johnny Doeg, George Lott and Gregory Mangin were the Americans to survive today's play, while Johnny Van Ryn and Berkley Bell were eliminated.

Accompanying the advance of the men stars were Mrs. Helen Wills Moody, the defending women's champion; Helen Jacobs, Mary Greef and Miss Elisabeth Ryan, an American resident of England.

Sarah Palfrey, 17-year-old Boston girl, was the only member of the United States women's squad to be defeated.

As the men's singles play swings into the fourth round tomorrow Great Britain will be represented by H. K. Lester, G. P. Hughes, H. F. David, H. W. Austin, E. J. Perry and J. C. Gregory in addition to P. D. B. Spence of South Africa and E. D. Andrews of New Zealand.

The French, although losing Christian Boussus and Pierre Landry today, still pack a threat in Henri Cochet, wiry little defending champion, and Jean Borotra, veteran of many a tennis tournament. Jan Koseluh of Czecho-Slovakia, brother of the world's professional titleholder, completed the list of survivors.

The all-American match in which Tilden defeated Van Ryn, 7-5, 6-4, 6-1 featured today's play. The young American Davis Cupper, who holds the Wimbledon doubles title together with Allison, fought gamely against the veteran, but Big Bill was in one of his finest tennis moods.

Playing beautifully throughout, Tilden climbed another step nearer

MARSHALL WINS WRESTLING GO

Lee Wycoff Defeated in Olympic Main Event

BY PAUL LOWRY

Don George beat Moose Norbeck. Ed (Strangler) Lewis defeated Marin Plestina, Everett Marshall subdued Lee Wykoff, and by popular acclaim Marshall will meet Joe Stecher in the main seance of Carnation Lou Daro's next mat show.

EVERETT MARSHALL

This was the sum and substance of last night's all-star card at the Olympic. At the finish Daro shooed the three winners into the ring, and called upon the bugs to vote for their hero.

Marshall won the call hands

ROSENBLOOM TAKES TITLE BY TROUNCING SLATTERY

BY WALTER TRUMBULL

(Copyright, 1930, by North American Newspaper Alliance.)

BISON PARK (Buffalo, N. Y.) June 25.—Maxie Rosenbloom, slapstick star, won a fifteen-round decision from Jimmy Slattery, the home-bred boy, here tonight and thus became the new light heavyweight champion of the world.

The decision was heartily booed by Slattery's supporters among the crowd of 20,000 which saw the bout, but it seemed to me that Maxie, the ring clown, was clearly entitled to all he received. I gave the New York boxer eight rounds, Slattery five rounds and scored two rounds even.

That the match was fairly close is attested by the fact that Patsy Haley, the referee, voted for Slattery, while the two judges, George Kelly of Yonkers and George Patrick of Brooklyn, decided Rosenbloom was the winner.

There were no fouls called in this

CALIFORNIA EXPECTED TO BE CLOSE UP AT FINISH

Nine Boats Will Tangle in Annual Championship Race; Columbia, Navy Are Eastern Hopes

POUGHKEEPSIE (N. Y.) June 25. (AP)—On the eve of the annual battle of oars on the Hudson, the word passed along from camp to camp on both banks of the river tonight was a warning to "watch Washington."

The slogan has a familiar ring. For nearly a decade the Huskies from Seattle have more than held their own against the combined assaults of rivals from the East, Middle West and even their own Pacific Slope.

COACH AL ULBRICKSON

First under Ed Leader, then under Rusty Callow and now under young Al Ulbrickson, the tall fir trees of the Northwest have rolled up a record of finishing either first or second every year but one since 1922, and they have come east this season with a varsity crew yet to taste defeat.

Probably never in the long history of this intercollegiate rowing association regatta, that goes back to 1895, has a crew appeared on the Hudson built on such gargantuan lines as this Washington varsity. Amazingly tall, the crew contains one man who is 6 feet 5 inches, another who is 6 feet 4, and none who is less than 6 feet 1½ inches. The average height is 6 feet 3 and the average weight in the pink of physical condition is 179.

This giant eight is boated in a super-shell that is regarded as the finest piece of rowing furniture ever launched. Built of polished Alaskan cedar, the craft rides low in the water and takes the wavelets like a bird. The Washington shell is almost white in color instead of the usual mahogany-red and its sides are so paper-thin as to be slightly translucent.

In this boat, dubbed the "pay

(Continued on Page 13, Column 3)

RUTH HITS TWO MORE LONG ONES

Bambino Clouts Pair as Yankees Take Twin Bill from St. Louis

NEW YORK, June 25. (AP)—Led once more by the one and only Babe Ruth, the Yankees swept both ends of their third double - header of the week with the St. Louis Browns, winning today's games, 5 to 4 and 16 to 4.

BABE RUTH

Ruth hit two home runs in the second game to bring his total for the season to twenty-six, while Gehrig, Cooke and Dickey got one apiece. Tony Lazzeri started New York off in the first game with a home run. Scores:

BAER KNOCKS OUT OWENS

OAKLAND, June 25. (AP)—Max Baer, most brilliant heavyweight prospect seen in Northern California rings since Jack Dempsey was getting his start in 1917, added rough, tough Ernie Owens to his long knockout string when he knocked the Los Angeles boy out tonight in the fifth round of their ten-round bout at Oakland Auditorium.

Baer floored Owens five times. He dropped the Angeleno once in the first round, and three times in the fourth, the bell saving him. Baer's first rush dropped Owens in the fifth, and although he came up, a right to the jaw finished him.

ATHLETICS COP OPENING GAME

Simmons Hits Fifteenth Homer of Season

Washington Slams Out 13-5 Win Over Cleveland

Pittsburgh Upsets Robins in 5-1 Contest

PHILADELPHIA, June 25. (AP)—The Chicago White Sox held the world's champion Athletics to an even split in a double-header here today taking the second game, 7 to 2, after the Athletics had an 8-to-1 romp in the opening contest.

Ted Lyons was walloped hard in the first affair while George Earnshaw was limiting the Sox to seven hits. The Mackmen solved Lyons for twelve hits, Haas, Foxx and Dykes, starring in an attack that netted six runs in the second and third innings.

Chicago finished Rube Walberg in four innings of the second game. Hunnefield hit the left-hander's first pitch for a home run. Al Simmons hit his fifteenth homer of the year off Caraway in the sixth. Score:

CUBS COLLECT

CHICAGO, June 25. (AP)—"Gabby" Hartnett swung the biggest club of all today as the Cubs won a free-hitting game from Philadelphia, 13 to 12, and advanced to within one game of the league-leading Brooklyn Robins.

Hartnett hit his fifteenth and sixteenth home runs of the season in succession to bring the Cubs into the lead and then capped his attack with a single in the ninth that brought home the winning run. With his other single he accounted for a grand total of six runs.

Brooklyn opens a four-game series here tomorrow with first place at stake. Score:

Hit by pitcher—Davis. Losing pitcher—Willoughby. Umpires—Klem, Rigler, Jorda and McGrew. Time of game—2h. 37m.

REDS COLLECT

CINCINNATI, June 25. (AP)—The Reds drew up to even terms for the four-game series with the New York Giants by slamming out an 11-to-3 victory in the final game today.

Cincinnati began hitting against a former Red, Pete Donahue, in the second inning, scoring two runs, and drove him from the mound after the fifth.

WEST'S TENNIS STARS ADVANCE

Robbins and Lewis Capture College Net Matches

HAVERFORD (Pa.) June 25. (AP) The Far West weathered the storm of the fourth round of the national intercollegiate singles tennis champions hip today, sending four players into the quarter finals while the East and South will have two men each.

ELBERT LEWIS.

Two seeded players, both from the East, were caught in the whirlwind of defeat. R. W. Ryan of Yale, seeded No. 4, was eliminated by Sherman Lockwood of the University of Oregon, after a gruelling three-set match under a broiling sun, 7-5, 6-8, 6-3.

Just prior to this upset Donald Strachan of Princeton, seeded No. 5, was vanquished by Clifford Robbins, University of California at Los Angeles, 3-6, 6-2, 7-5.

Elbert Lewis, also of University of California at Los Angeles, was another of the Pacific Coast stars to enter the quarter-final round. Lewis, who won the Pacific Coast intercollegiate singles championship, took the measure by Dennis L. Mitchell of Georgetown, 6-3, 6-4.

The fourth Far Western player jumped into the round of "eight" when Dolf Muehleisen, University of California, who is seeded No. 7, triumphed over Bertram Hammell, Swarthmore, 6-3, 6-2.

In the quarter-finals on the upper half of the draw tomorrow, Seligson meets Lewis and Jacobs clashes with Muehleisen. On the lower half, Gram encounters Robbins and Lockwood faces Sutter.

In the third round of the doubles Muehleisen and Robert Muench, University of California, at Berkeley, defeated Walter Swaybill and Stanley J. Harte, New York University, 6-1, 6-3.

Jack De Lara and Robert Gates, University of Southern California, defeated J. F. Beckman and R. J. Baker, College of Charleston, 7-5, 6-2.

M. T. Hill and Donald M. Frame, Harvard, defeated Lewis and Robbins, University of California at Los Angeles, 6-3, 2-6, 6-1.

Umpires—Hallin, Van Graflan and Dineen. Time of game—2h. 20m.

MARSHALL WINS WRESTLING GO

(Continued from Eleventh Page)

down, big Ed Lewis ran second best and George pulled up in the third spot.

The Marshall-Wykoff match stole the show, and had Wykoff been in on the voting he might have outscored the popular Marshall.

In losing to Marshall the southern boy showed the La Junta blond more real wrestling holds than he has had tossed at him in months.

He won one fall, and was way ahead on points when Marshall seduced him with an overhead body slam.

Marshall won the first fall with his airplane spin in 21m. 42s., and Wykoff took the second with a body slam following a tortuous toe hold which doubled one of Marshall's legs right against his back. Marshall took the last fall in 40m. 19s. after Wykoff made him look like a neophyte with his slick work.

Bigger than ever with 238 pounds of bone and muscle, Marin Plestina took a quick fall over Strangler Lewis with a body slam in 5m. 59s., and then lost two straight— a toe hold in 17m. 31s. and a headlock in 5m. 56s.

Don George put a reverse wrist-lock and a body scissors on Moose Norbeck to win one fall and the match in 7m. 12s.

The show played to approximately 8000 fans.

KENNETH LA SALLE DEFEATS BULAHAN

Kenneth La Salle took an eight-round decision over Battling Bulahan last night in the main event at the Ocean Park Stadium. Hymie Rudin outpointed K. O. Maples in the six-round special event. Vearle Whitehead beat Micky McLaughlin in the four-round special event. Joe Arcinega kayoed Frankie Lamarr in the first round. George Savage stopped Rollo Hess in the third round of the curtain-raiser.

MOSER IS DEFEATED BY FULLER

Allen Bows to Trojan Team-mate in College Golfing Tourney

OAKMONT (Pa.) June 25. (AP)—Two eighteen-hole rounds today swept twenty-four college golfers out of the intercollegiate championship and left a sturdy band of eight to carry on over the longer thirty-six-hole route, beginning with the quarter-finals tomorrow.

ALLEN MOSER

The competition continued to furnish wide variety with seven institutions represented in the last eight. Only Harvard had two players still in the running.

Phil Finlay and Charlie Eaton of the Crimson won two matches and the others to hurdle the two rounds were Sam Perry, Alabama; Larry Moller, Notre Dame; Marshall Forrest, runner-up last year, Yale; Winston Fuller, Southern California; George T. Dunlap, Princeton, and Sam Parks, Pittsburgh.

Winston Fuller and Allen Moser came all the way from Southern California to meet in the second round. Fuller winning with a sensational approach shot at the eighteenth hole.

Wykoff Will Officiate in Legion Race

Frank Wykoff, Glendale's great sprinter, will take a fling at a new type of racing game Sunday afternoon. The dash champion will act as referee at the six-event automobile racing program to be held at the Legion Ascot Speedway. He was appointed by A. C. Pillsbury of the American Automobile Association.

Pillsbury stated yesterday that a large number of entries have already been received for this week's program and all of the reigning favorites, including Jimmy Sharp, Francis Quinn, Walt May and "Speed" Hinkley have entered themselves and their mounts.

TOWNSEND WILL DISPLAY WARES

Vancouver Flash to Meet Medill July 8

Billy Townsend, who is helping Jimmy McLarnin make Vancouver famous for great fighters, will box at the Olympic July 8, next. His opponent will be Joey Medill, Chicago boy, who has recently whipped Stanislaus Loyaza and Kid Kaplan.

Medill and Townsend will meet at 140 pounds. Townsend was offered an overweight bout with Jack Thompson here, but cannot weigh quite enough. The most he ever tipped was 146 and he wasn't in his best condition at that heft.

The bout replaces the proposed Bud Taylor-Fidel La Barba match for that date. Taylor isn't available and no other suitable opponent could be secured for La Barba.

Townsend has fought at a terrific pace in recent months. He literally pulverized Wildcat Carter here, knocking him down a dozen times in a couple of rounds. He had previously kayoed the negro in Seattle in a punch.

The Olympic has three stellar bouts in the hopper for the next three weeks now. Johnny Lamar and Goldie Hess are paired at 135 pounds for the Pacific Coast lightweight title next Tuesday. On July 15 Benny Miller and Joe Dundee, ex-welterweight champion, meet in a ten-round bout.

Lamar came back from Murietta Hot Springs yesterday ready to taper off in training. He left for the springs immediately after his great fight at Hollywood a week ago against Teddy Palacios, when both were on the floor.

Hess worked in fine form yes

...ree Boats in Honolulu Classic Enter Race Around San Clemente Island Over Week-end

...FIELD TO ...K TROPHIES

...ntered to Date in ...Day Sailing Test

..., Contender and ...to Compete

...Year Last Year Will ...Start Saturday

...FRANK ROCHE

...the San Clemente Is... which takes place this ... a decided jump yes... terday with the announceme n t that in the field of Southland yachts that face the starter Saturday will be three boats entered in the Honolulu ocean classic. This announceme n t was made at a yachts m e n ' s luncheon held at the Los Angeles Athletic Club where it was stated that ...Enchantress, Wal... Contender and Lazard ...Tayahs will tune up for ... race via the cruise ... Clemente Island.

...there are twelve ...entered in the San ... event. Henry (Skip) ..., the man who started ... back in 1924, ex... five more before ... There was much en... drawn by the yachts... the field will be one of the ... in the history of the ... when the list closes.

Rex ... of the Lake Norconian ...known Southern Californ... has also put up a ... for the boat that finishes ...corrected time. The West... goes to the first boat ... line, regardless of her ... rating. The California ... under whose auspices ... is staged, will present ... to boats in three classes ... be figured out under the ... rule.

...for the popularity of ... Channel race among ... is that all sailing classes ... to participate in the ... big boats and the lit... alike are all part of the ... to start of this race al... presents a very picturesque ... from this very reason.

...drop Babe, winner of the ... last year, will not be a ... Saturday, it was learned ... Commodore Owen ... (tomorrow night ... host, and although he ... missed the boat over to ... Commodore Pierre Davis, the latter will not sail her as he had already planned to go along on the Pandora. Ted Conant, the man who sailed the Babe to her many victories last year, will handle the stick on the sloop Pandora Saturday, which may make that boat one of the favorites.

W. W. Pedder, owner of the schooner Diablo, the boat which has copped the San Clemente race three times, is out to score again if he can this week-end. The Diablo is in splendid shape and all set to go.

Among the boats entered in the race is a brand-new creation, launched recently by Don Douglas, airplane manufacturer and sportsman. She is the Endymion, a seventy-five-foot schooner, which was built at the Wilmington Boat Works. The San Clemente event will be her maiden cruise.

The complete entry list to date: Morgan Adams's Enchantress, Walter Horne's Contender, Lazard Lippman's Tayala, W. G. Lacey's Bonnie Doon, A. N. Kemp's Amorilla, Don Douglas's Endymion, Syl Spaulding's Westward, H. W. Kohl's Pandora, W. W. Pedder's Diablo, Smith and Angelman's Ocean Waif, Lewis Luckenbach's Marin, H. R. Waren's Ahmeek.

Of interest to yachtsmen is the appearance in competition of the Bonnie Doon, the famous schooner formerly named the Uncas, which was brought here some years ago by "Doc" Wilson. She is now the property of W. G. Lacey. She was built by A. Cary Smith, one of the best-known designers of boats in his day. There is a possibility that Lacey will start her in the Honolulu race on July Fourth. She is a sixty-seven-footer.

H. W. Kohl will attend the International Cup races in the East. For that reason he has withdrawn his sloop Pandora from the Honolulu race. There are four bona-fide entries in the ocean classic now. One more is a certainty before the boats get away, yachtsmen claim. The start is July Fourth.

The new officers in Newport Harbor star fleet are as follows: J. M. Webster, fleet captain and chairman fleet regatta committee; Walton Hubbard, first lieutenant; H. M. Manning, second lieutenant; H. M. Worcester, secretary-treasurer. The Newport fleet will stage its elimination series and fleet championships, consisting of five races, on July 6 13, 20 and 27. The winner in that series will represent Newport in the internationals at Chesapeake Bay next September. Newport, as everyone knows, is preparing for the Pacific Coast and Southern California yachting championships, which will be staged in that harbor from August 4 to August 9.

HAGEN, HERE, EXPRESSES CONFIDENCE OF OPEN WIN

Here on business for a day, Walter Hagen yesterday expressed confidence in his ability to lift the American open championship from the brow of Bobby Jones in the annual tournament this summer.

"Jones has made a wonderful record in England, but I think the strain of the competition will tell on him, and I'll be in shape to win," Hagen said.

The veteran professional star arrived here from the Orient, via Seattle and San Francisco. He will leave today for Detroit, where he will get his young son, Walter, Jr., and will return to Seattle where he plans to rest, and prepare for the open tournament.

HUSKY OARSMEN ARE FAVORITES

(Continued from Eleventh Page)

streak," six of the same men who rowed second to Columbia last year, reinforced by two giant sophomores, will defend their position of favorite against eight rivals, all of whom figure that to beat the Huskies is to win the race.

The Washington oarsmen feel their principal opposition will come from their old rivals from the naval academy, who have a perfectly balanced eight combining rugged power with fluid smoothness. There is little concern in the Washington camp over California, but the Golden Bears, with a crew that is brawny, if none too smooth, believe they can beat the Husky eight that trimmed them by a bare fifth of a second when they raced for Pacific Coast supremacy more than two months back.

Columbia, under young Rich Glendon, shares with the Navy, coached by his father, the honor of being the principal eastern standard bearer against the West. Four of last year's champions are still on deck, and with them are four members of the strong junior varsity of 1929.

Of the other five contestants, Cornell, Syracuse and Pennsylvania have not won here in a varsity event since the World War and Wisconsin and Massachusetts Tech have yet to finish first. A victory for any of the five would be an upset, but the general standard of rowing quality this year is high and there is not a really bad looking crew on the river. All the advance dope points to a close and hard-fought race in the four-mile main event.

Washington, unbeaten in junior varsity and freshman classes as well, is among the favorites in all three events and cherishes some hopes of achieving a clean sweep.

AMERICANS WIN AT WIMBLEDON

(Continued from Eleventh Page)

the anticipated final match with Cochet, who eliminated Bell, the Texan, in five sets, 6-2, 6-2, 5-7, 4-6 6-1.

Doeg, with his southpaw drives, and youthful Bounds held the famous center court until late in the evening in a slow, uninteresting contest, which, like Doeg's first Wimbledon encounter, saw the Californian pull from behind to win comfortably by the scores of 5-7, 6-1, 12-14, 6-3, 6-2.

Lott and Allison played convincing tennis to eliminate the Australian, Harry Hopman, and the Irishman, Lyttleton Rogers, respectively. Lott won 7-5, 6-3, 6-3, while Allison's score was 6-3, 6-3, 6-2. Mangin had little difficulty in disposing of R. Miki, the Japanese veteran, 6-4, 6-3, 6-2.

It took Mrs. Moody just twenty-four minutes to finish her match with Miss Elsie Goldsworth of England and enter the fourth round by the scores of 6-1, 6-2. Miss L. E. Messuries of Australia forced Miss Greef to three sets before the Kansas City girl won, 6-2, 2-6, 7-5.

Miss Palfry also battled youthful Joan Ridley for three sets, but the English girl played strong tennis in the last set to win, 3-6, 6-3, 6-1.

The second ranking American woman star, Helen Jacobs, advanced at the expense of Miss Mellows of England, winning, 6-3, 6-1, while Miss Ryan defeated Miss V. M. Montgomery, also of England, 6-2, 6-4.

SPARR AND REISTER MIX GLOVES TONIGHT

It will be ring generalship and experience against youth and punching power tonight at South Gate when Jack Sparr, veteran Lomita oil worker, steps out against the hard-hitting Bobby Reister in the eight-round main event. Fans have made Sparr a slight favorite, because of his long record, which includes bouts against such topnotchers as Sammy Mandell and Young Jack Thompson. Ritchie Thomas and Lupe Castro, fast-stepping junior lightweights, are down for the semi-wind-up tonight, while Matchmaker "Doc" Moffett has lined up a strong preliminary card.

TOMMY ELKS, BURNELL DRAW AT WILMINGTON

Tommy Elks and Frankie Burnell battled to an eight-round draw in the main event at the Wilmington Bowl last night. Irish Jerry Duffy won in the fifth round on a technical knockout over Johnny Chrisman. Joe Reese stopped Jimmy Hart in the fourth round of the special event. Jimmy Gonzales beat Jess Gabucco over six rounds. Sid Gridry outpointed Joe Kelly in a six-round battle. Jimmy Benway knocked out Hugh McArdle in the third round. Adrian Moniazo beat Harry Gray in the opener.

COCHRAN TO PLAY LOCAL CHAMPION

Continuing his string of local three-cushion exhibitions, Welker Cochran, the former 18.2 balk-line billiard champion, will face Bill Lane, Los Angeles three-cushion title-holder, in an exhibition tonight at the Cliff Jones parlors. Cochran is unbeaten in his local matches.

AQUATIC STARS READY FOR MERCURY TANKFEST

RAY RUDDY...

Swimming and diving champions from all parts of the United States are ready today for their first showing in Southern California before the 1930 National A.A.U. championships get under way at Recreation Park, Long Beach, July 3.

The first meet will be a preliminary affair at the L.A.A.C. tomorrow night and will bring out the great New York A.C. men's team, Helene Madison of Seattle, the New York Women's Association team, Buster Crabbe, Josephine McKim, Mickey Riley, Georgia Coleman and Dutch Smith of the L.A.A.C., Al Swartz of the Illinois A.C. and several others.

The New York women's team arrived from the East last evening and went straight to Long Beach. The girls, Eleanor Holm, Agnes Geraghty, Lisa Lindstrom, Adelaide Lambert, Catharine Ames and Constance Hanf, will be guests at the Hollywood Breakfast Club this morning and will then return to Long Beach for a work-out at Recreation Park. The complete team will compete at the L.A.A.C. tomorrow night, as will the entire New York A.C. team, composed of George Kojac, Ray Ruddy, Al Zorilla, Leonard Spence and George Fissler. Kojac will be after Weissmuller's 100-yard mark, while Ruddy will battle Buster Crabbe in a match 440 race. It was rumored yesterday that Al Swartz, the flashy Illinois sprinter, had agreed to meet Kojac in the 100.

Swimmers who entered yesterday follow: Chicago Athletic Association—Wally Colbath, diver; B. Petersen, 440 free style, 220-yard backstroke; Paul Corbett, 100-meters, 880-yard, 440-yard one-mile free style; Marion Wilcox, 100-meters, 440, 880, one-mile free style; R. T. Brewer, 100-meters, 440-yards; A. Highland, 100-meters; 880 relay, Corbett, Wilcox, Brewer, Highland.

St. Louis—Jane Waite, 440, 100-meters; Charlotte Moran, 220 backstroke.

Hollywood Athletic Club—Callahan, Walton, Harris, 100-meters; Walton, Clark, Harris, Booth, 220-yard backstroke; Varner, Drummond, Roberts, 440-yard breaststroke; Clapp, 440 free style; Clapp, Deats, 880 free style; Booth, Tuthill, one-mile free style; Clapp, Clark, 300-yard medley; Kurtz, ten 1000 diving; Simaika, tower diving; Clapp, Walton, Booth, Miller, 880-yard relay.

Boston—Joan McSheehy, 220-yard backstroke.

San Francisco Western Women's Club—Lois Grow, Doris Waite, 100-meters; Marion Gillman, 220 backstroke; Katharine Heartwell, 440 free style; Bunny Perkus, dives.

San Diego—Florence Chambers, Genevieve Scully, 220 breaststroke.

Venice—Hilda Curtis, 220 backstroke; 880 free style; Dot Justina, backstroke; Phil Daubenspeck, 100-meters.

Hufft's Homers Defeat Acorns

SAN FRANCISCO, June 25. (AP)—Fuzzy Hufft, squat Mission outfielder, put on an individual home-run hitting act today and batted the San Francisco team to a 4-3 win over Oakland's Oaks. Fuzzy's four-bagger in the sixth tied the score and he nicked Craighead for another in the eighth to put the locals in the lead. The Oaks scored all their runs in the second inning on four hits. Score:

OAKLAND	AB	R	H	O	A
Dean, 2b	3	1	1	0	4

JUNIOR OLYMPIC CHAMPS OF HAWAII REACH HERE

Glad to be on dry land again, the four Junior Olympic Games champions of Hawaii arrived in Los Angeles yesterday morning after docking at San Francisco on Tuesday. The boys are "Cupie" Yamamoto and Anthony Louis, senior stars, and Harou Ouchi and Kazuo Arakawa. Accompanying them are Mr. and Mrs. Ezra Crane, the former being director of the Junior Olympic Games program for the Hawaiian Islands.

Through the courtesy of Charley Keppen, the four champions worked out at the Los Angeles Athletic Club just before noon. The two seniors gave a convincing exhibition of their ability by shooting eighteen baskets each. All four boys are excellent chinners. Their speed is taken for granted, for any kid who hails from the Hawaiian Islands knows how to run.

Following lunch, the youngsters attended the Hollywood-Sacramento ball game as guests of Bill Lane, and during the evening they attended a Hollywood show. Crane got his exercise on the golf course.

This morning the boys will work out at Bovard Field and Dean Cromwell, coach of the national championship Trojans, has promised to be on hand to give them a few pointers.

The party will leave tomorrow night for Atlantic City where the Hawaiian youngsters are expecting to place high in the national championships. Following the meet there they will join with the Southern California delegation, which leaves Sunday for the East, and board a Panama Mail steamer for Latin America.

NAKAMURA MAY GET BOUT WITH MARTIN

Kaoh Nakamura, Japanese featherweight, who boxes Harry Grey in one half of the double main event at the Main-street Athletic Club Saturday night, may be matched with Andy Martin, the Boston featherweight, who won two bouts on Carlo Curtis's open-air cards. Martin has gone east, but expects to return to the Coast.

Pete Pacheco, Denver Mexican welterweight, who meets Howard Fritz in the second feature on the Saturday night card, is going after a match with Benny Miller. He has scored two knockouts in as many starts and is making a big bid for the favoritism of the Mexican fans.

Many Obstacles Arise in Path of Sharkey-Schmeling Rematch

MAX PLANNING GERMANY TRIP

Von Bulow, Cast-off Manager Causing Trouble

Garden Prexy Believes Bout Will be Held

Hope to Card Title Scrap for September

NEW YORK, June 28. (Exclusive) The rematching of Max Schmeling and Jack Sharkey for a September bout with the world's heavyweight title at stake is proceeding at the storied pace of that slow train through Arkansas. Considerable in the way of a hitch has developed from the pyramided demands of Arthur Von Bulow, the champion's cast-off manager, which the Madison Square Garden Corporation, through Sharkey must take care of ere path will be cleared to the big fistiana second meeting this summer.

Meanwhile, Max is planning for his return to Germany for a brief stay. He may go as early as next Saturday, via the liner Bremen, on which he engaged passage today after untold thousands jammed Broadway to see him as he entered or left the offices of the Hamburg-American Line. Depending on the developments of tomorrow and Friday Max may sail this week or defer his departure until next.

The demands of Joe Jacobs, who crowded out Von Bulow as Max's manager, were termed entirely equitable by Frank Bruen, president of the Garden, today, and Bruen declared the match for a September date may go through yet, if the wrinkles are smoothed out of the situation and the battlers signed up not later than Independence Day. The promoting concern figures a ten-week ballyhoo period an essential and unless the match is made pronto the fight will have to go over to the early summer of 1935.

Von Bulow's new attorney presented today a list of the terms on which he and his associates, including one suing him for $10,000, will agree to release Schmeling, but it promptly was turned back by the Garden folks for a downward revision.

AMERICAN ASSOCIATION TO CONSIDER SPLIT SCHEDULE

CHICAGO, June 28. (AP)—A meeting of American Association baseball magnates to consider the advisability of a split season was called for July 1 by President Thomas J. Hickey today. The meeting will be held at the Stevens Hotel, Chicago.

President Hickey said the proposal to divide the season had been suggested to him as having operated successfully in the Pacific Coast, the Texas and the Southern leagues.

HOCKEY PLAYERS END LONG SEASON TONIGHT

Hockey players wind up the season tonight at Winter Garden Ice Palace, when the Shell Oilers and Arrowhead Tigers clash in the fifth and final game championship of the Southern California summer ice hockey circuit. The clubs are out to make a determined bid for the title and the battle is expected to be one of the hardest-fought affairs of the year.

In the past four games played, each sextet has annexed two contests, with little advantage to either six. The two are in perfect condition and ready to go the full distance at top speed.

AMERICANS DEFEATED BY SWEDISH YACHT

GOTHENBURG (Sweden) June 28. (AP)—Sweden defeated the United States today in the first official race for the international gold cup, emblem of six-meter yacht supremacy. The American boat, after finishing first yesterday in a race which was ruled off for exceeding the maximum time limit of four hours, today trailed the Swedish entry by three minutes and ten seconds. Eight nations are competing for the trophy.

UNIVERSITY CLUB TO STAGE TOURNEY

Golfers from the University Club will gallop around the Bel-Air links today in the annual interclub team championship. Dr. Charles Hartley, who will captain one of the teams, expects between eighty and 100 mashie artists to compete. Reuben Larson will captain the opposing squad. Teams have not yet been selected, and this will be done when the group shows up this morning for the tournament.

ANDERSON FAVORITE IN CLASH

San Jose Clouter Picked to Take Hollywood Bout Tomorrow Night

Babe Anderson, the San Jose clouter, is being made favorite to defeat Benny Miller, the pride of Brooklyn avenue, when they clash tomorrow night at the Hollywood Legion Stadium. The Cauliflower Alley gang declares Anderson has too much on the ball at this stage of the going for Miller. Anderson, they point out, knocked out Oakland Jimmy Duffy, and Miller could only decision the veteran. In addition, Anderson beat Freddy Fitzgerald right after the Fighting Harp copped a verdict over Young Jack Thompson, before the black boy won the title.

In his only appearance here Anderson put Leo Hernandez to sleep in one round. It is a cinch that Miller, who has not as yet been in hot water, will have to prove himself when he faces Anderson, the railbirds declare.

In the semi-wind-up Bad News Johnson is being picked to beat Ray Spiker, the ex-marine. Most of the experts believe it will be a toe-to-toe slugging bee with Spiker catching one too many on the whiskers.

The special turns the spotlight on Young Papke, one of the Legion's favorites. He battles Jess Vasquez over the six-round route. There are two four-rounders on the program.

ROSENBLOOM IS BATTLE VICTOR

(Continued from Eleventh Page)

bout, but it was not what might be called a clean performance. Slattery held and hit on the breaks, and used his head and the palm of his glove. Rosenbloom made frequent use of his elbows and also did a little holding and hitting.

There were comparatively few straight hard punches landed. The bout consisted mainly of sling hooks, clubbing in the clinches, slapping and wuffing.

Rosenbloom was the aggressor most of the way. Except for the third round he had all the better of the going up to the ninth.

In the last seven rounds Slattery made a better showing, taking four of them, although in two of these Rosenbloom, who must have known he was way out ahead, appeared to be coasting. Neither man showed any serious signs of damage at the finish. Slattery's lips were puffed and Rosenbloom's right eye appeared to be a trifle swollen. Maxie's nose was skinned from contact with Slattery's head.

This was not the Slattery of comparatively few years ago, that fast clean-limbed young athlete appears to have vanished forever. The Slattery of today has neither the stamina nor the speed of the youngster who once beat Young Stribling.

Tonight's was the sixth meeting between these two men and only the second time out of the six that Rosenbloom ever took the decision.

The preliminaries were good. Ray Keller, a blond young heavyweight, stopped Nelson De Charles in the second round and while doing so showed a fine left hand. Johnny Spagnollius, who weighed 143 pounds, was by far the fastest boxer in the ring tonight. He knocked out Eddie Moore in the fifth round.

Three of the four preliminaries resulted in knockouts. Receipts were estimated at $60,000.

Slattery probably would rather have lost his title anywhere than in his own home town, where most of the First Ward was out to root for him loyally and consistently. His admirers constantly called to him in imploring tones, begging him to knock Rosenbloom out, but unfortunately Slattery was a long way from being man enough to do it.

Youth comes but once and, while Jimmy Slattery is only 25 years of age, his aim has been a gay life rather than a long one. Still, he is in a lot better condition than a lot of us around the ringside.

Poloists Mix at Uplifters

Summer polo is ready to make a strong bid for the fans' attention these Sunday afternoons. The Uplifters' Club is the scene of a special match game every week-end and slowly but surely they are picking up new followers each Sunday, those in charge claim.

Next Sunday's game brings out the Whites, captained by the sturdy southpaw, Hal Roach, against the Reds, led by Howland Paddock. Paddock, it will be remembered, is a member of the team which now holds two national championships and Dr. H. H. Wilson, another member of that same team, will ride No. 1 for the Whites in the ensuing match. In addition to Wilson and Roach, the Whites will have the able assistance of the veteran Snowy Baker and of John Brandeis from Omaha.

Paddock, who will captain his team from the No. 2 berth, will have Dr. Rex Duncan and the dashing Lyell Puckett as forwards and Clair Brunson, a real corner, at back.

Westsmith in Semifinals of Net Play

Frank Westsmith won his way into the semifinals of the men's singles of the San Gabriel open tennis tourney being staged at San Marino grammar school by defeating Clay Mahoney yesterday rather easily, 6-2, 6-2. Ellsworth Vines is expected to join Westsmith in the semifinal group today. The Pasadena youngster is a heavy favorite over R. Johnson, whom he meets at 11 o'clock this morning.

Westsmith and his partner Manna advanced a step in the men's doubles by defeating Rowley and Graves, 6-3, 6-2. They will take on Roberts and Pedersen, who, yesterday, upset Mahoney and Keith, 6-7, 7-5, 8-6.

Yesterday's results:

MEN'S SINGLES

Vines defeated Pelzer, 6-4, 6-3; Westsmith defeated W. Hall, 6-3, 6-2; Bottrill defeated W. Hall, 6-4, 6-4.

MEN'S DOUBLES

Westsmith and Manna defeated Rowley and Graves, 6-3, 6-2; Roberts and Pedersen defeated Mahoney and Keith, 6-7, 7-5, 8-6.

WOMEN'S SINGLES

Jane Sharp defeated Agnes Curtis, 6-1, 6-4; Helen Bernard defeated Mary Hardy, 6-3, 6-4; Shirley Pels defeated Ruth Gibson, 6-3, 6-3.

JUNIOR BOYS' SINGLES

Gregory defeated Lay, 6-1, 6-1; Ben Dolgen defeated Fox, 6-4, 6-1; Underwood defeated Osborne, 6-1, 6-1.

BOYS' DOUBLES

Gregory and Ryan defeated Hunsacker and Pedersen, 6-3, 6-2.

Today's Schedule

10 A.M.—Jane Sharp vs. Peggy Hearst; Del Westsmith vs. Mark; Ben Dolgen vs. Bob Hunsacker; Mary Hardy vs. Helen Bernard; Vines vs. Bottrill; Peggy Hearst and Sharp vs. Westsmith and Manna; Pelzer and Pedersen vs. Westsmith and Manna; Roberts and Pedersen vs. Westsmith and Manna; Del Westsmith and Mahoney vs. Bob Hunsacker and Ben Dolgen; Mahoney and Keith vs. Rowley and Graves; Bottrill vs. Johnson and Osborne; Underwood and Russell vs. Lay and Dolan.

TURNER TURNS BACK SENATORS

(Continued from Eleventh Page)

idea was he was mad at something. Possibly young Mr. Smith is still sore because his folks named him Rufus.

Hollywood nicked Thomas for a total of twelve hits before he took his early shower. Most pleasing to Skipper Vitt was the fact that Mickey Heath rapped out three of the Shelk safeties, including a homer, double and a single. If Heath gets started hitting in his 1929 stride Vitt won't be able to keep from getting enthusiastic about the Stars' pennant chances in the second half. Bud Lee also got three hits, while Jesse Hill and Turner got two each.

SCORE FOUR IN FIRST

The Stars began hammering Thomas right off the reel, Hill settling the question as to what happens when Trojan meets Trojan by slapping a single to center. Lee's double to right center sent Hill to third. Thomas then walked Brannan to load the bases. Barbee delivered a single to left, scoring Hill and Lee, and Dave moved to second and Brannan to third when Steinbacher kicked the ball. Carlyle fanned but Heath similed a single over second and Brannan and Barbee romped across the plate to make it four for the round.

With one away in the second Hoag doubled and scored on Osborn's single but Steinbacher immediately hit into a double-play to end the round.

Turner's single, a walk to Hill and Lee's one-base shot to right gave the Sheiks another run in their half of the second.

Hollywood's next two runs, arriving in the third and fourth, were the result of home-run clouts by Heath and Turner. Both blows cleared the right-field barrier, Heath's soaring clear out of the lot with plenty of altitude to spare.

The eighth and final Shelk score came in the sixth, infield hits by Lee and Brannan, their double steal of third and second and Barbee's infield out accounting for the counter.

HOAG SCORES AGAIN

Hoag scored for the Stars again in the seventh when he singled, advanced to third on an infield out and a sacrifice fly and scored on Kettle Wirta's one-base poke to right.

Frank Shellenback will be on the mound for the Stars today to help the Vittmen attempt to make it three straight. Either Lefty Flynn or Ed Bryan is due to do the receiving for the visitors. Score:

ERNIE HOOD, IMPERIAL TO TANGLE TONIGHT

When Ernie Hood and Alfredo Imperial meet for the fourth time in the ten-round main event of the Pasadena Arena ring show tonight more gloves are likely to fly than the spectators can see. For these flyweights are indulging in a real grudge fight, with a fight against Speedy Dado as the added prize.

Chalky Wright, San Bernardino colored flash, and Ray Navarro, tough Mexican, may steal the show with their six-round semifinal at 130 pounds. Three four-rounders will be Trench King vs. Johnny Martinez, 135 pounds; Fred Burke vs. Paul Chaney, 130 pounds; Stafford McCoy vs. Al Hamilton, 138 pounds.

TARZAN AND THE JEWELS OF OPAR — By Edgar Rice Burroughs

...upon his cot, Albert Werper's imagination ...ve him the charms of the young woman in the ... He had noted Mohammed Beyd's ... in her and he began to fear that the ... forestall him in encompassing his base ... a sudden resolution came to him. ... on his cartridge-belt and revolver, ... his tent flap and looked out. Strange! ... no guard before the prisoner's tent! ... mean?

Boldly he walked to the entrance and stepped within. Dimly the moonlight illumined the interior. Across the tent a figure bent over the cot. A man's figure, and he guessed the truth of the nocturnal visitor's identity. A sullen, jealous rage enveloped him. He took a step forward just as a frightened cry rang out. The girl awakened, recognized the features of the man above her and Werper saw Mohammed Beyd seize her by the throat and bear her back upon the cot.

...ted patois cast a red blur before the Belgian's ... The man should not have her. She was ... alone. Quickly he sprang forward and ... himself upon Mohammed Beyd. The Arab ... Belgian's fingers from his throat and ... upon him. Blow upon blow the two battered the small interior, while the girl, wide-... terror and astonishment, watched the duel ... silence. Again and again Werper struggled to draw his revolver. Mohammed Beyd was ... save for a long knife.

And now Fate ordained that he should draw it as he stood panting during the first brief rest of the encounter. "Dog of a Christian," he hissed. "Look well upon this knife in the hands of Mohammed Beyd. It is the last thing that you shall see or feel," and with that he rushed viciously upon the Belgian, his knife raised high above his head. Werper was still dragging futilely at his weapon. The Arab was almost upon him. In desperation the European waited until Mohammed Beyd was all but against him.

BOOM!
SAY - WHAT'S THAT AWFUL NOISE I HEAR EVERY ONCE IN AWHILE?
THAT'S A YOUNG BRICKLAYER WHO'S WORKIN' ON TH' NEW BUILDIN' NEXT DOOR - THROWIN' KISSES TO WINNIE!
BOOM
YE GODS! I NEVER HEARD ANYBODY MAKE SO MUCH NOISE. JUST THROWIN' KISSES!!
BOOM

Life of Riley — By D. T. Carlisle

Dear Pat:
Ship me the pup and if he's the dog that I lost I will pay all expenses and give you the reward offerth of $50.00. That roughy brat looking pup I ever fred.
Your brother, Mike
?
"Now thin, me foin pup, this letter from me brother Fites it! Yez leave here in a crate tomorrow!"

...G'LAR FELLERS — Too Much is Plenty — By Gene Brynes

MOM! CAN I HAVE ANOTHER PIECE OF PIE?
NO!
AW-W-W PLEASE! JUS' A LIL' TEENY WEENY PIECE!
I SAID NO!
YOU'VE HAD PLENTY!
I DON'T WANT PLENTY! I WANT TOO MUCH!

ELLA CINDERS — Making the Rounds — By Bill Conselman and Charlie Plumb

Bailed out by a lawyer representing Betty Cole, mother of Giggles, Ella faces freedom with a deep, glad breath. She was falsely charged with stealing the baby by Betty's step-mother-in-law.
GOOD-BY, OLD BRICKS AND BARS! NO MORE ROOM SERVICE FOR ME UNLESS I HAVE MY OWN KEY! IT'S BETTER TO BE LOCKED OUT THAN LOCKED IN, AND FROM NOW ON I'LL TAKE MY JAILS ON THE BUNGALOW PLAN OR I WON'T PLAY!
DON'T FORGET TO MEET BETTY COLE AT HER FATHER-IN-LAW'S HOME THIS EVENING! IT'S IMPORTANT!
YOU CAN COUNT ON ME ONE HUNDRED PER CENT., LAWYER NASH AND THAT'S PURE PROFIT! WITH ME FRIENDSHIP IS A BUSINESS!
THE FIRST THING IS TO SEE BLACKIE AND HURRY HIS WORRIES AWAY! I HOPE MRS. BOOTH, THE LANDLADY, HAS TAKEN GOOD CARE OF HIM! I HAVE ONLY ONE HEART TO GIVE TO MY LITTLE BROTHER, BUT IT'S BEATING WITH SISTERLY LOVE!
—AND THE COP ON THE BEAT TOLD THE COOK, WHO TOLD ME, THAT THE TRUANT OFFICER HAD FOUND BLACKIE ROAMING THE STREETS AND PUT HIM IN THE CHILDREN'S HOME!
MERCY! SEE, IF YOU CAN GET THE COP ON THE BEAT TO TELL THE COOK TO TELL YOU TO TELL ME JUST WHERE IT IS AND WHAT'S THE QUICKEST WAY TO GET THERE! I'VE GOT TO GET BLACKIE OUT —AND SHAPPY!

PETEY— — Foul Ball — By C. A. Voigt

FAIRFAX READY FOR EXERCISES

Graduation Ceremony Will Be This Afternoon

Education Board's Head to Present Diplomas

Belmont Class of 277 Gets Reward Tonight

Fairfax High School has departed this year from the usual practice of conducting commencement exercises in the evening. The graduation class will receive diplomas at the close of the program which will begin at 4 p.m. today, in the school auditorium. J. L. Van Norman, president of the Board of Education, will present the diplomas. Those graduating are:

Edgardo Acosta, Charles Anderson, Clarence Arnold, Margaret Ashmead, Clara Ashton, Theresa Averette, Gervacio Bagasao, Clara Bagwell, Richard Bailey, Jack Baird, Rudolf Becker, Robert Beecher, Gurney Bell, Carmel Bernstein, Aloha Bishop, Gwynn Bland, Ann Blasdel, Dorotha Boatman, Sarah Boatright, Robert Boe, Robert Bostwick, Robert Boykin, Gene Boynton, Coralee Bozman, Ralph Brodek, Gus Brown, Jean Brown, Allen Burs, Virginia Burress, Carl Burmahlin, Mary Bush, Leonardo De Morsies, Violet Capps, James Carroll, Edward Carter, Huston Cartmell, Helen Case, Altha Chandler, Milford Childers, Grayce Christianson, Ernest Christopher, Audrey Clark, Dorothy Coffman, Mabel Coffman, Katherine Comes, James Conaway, Stella Condon, Stanley Crane, Angela Dach, Charles Darrow, Ellen Davies, Helen Davis, Yee De Guchi, Mafalda De Rubbio, Jack Dillon, Patrick Dinan, Lawrence Distance, George Downs, Mary Drennan, Reba Edison, Theodore Elman, Herbert Engel, Beatrice Enastrom, Harold Epstein, Charles Ertek, Paul Evans, Jacquelin Fabiger, Wray Featherstone, Roy Ferren, Eric Firth, Anne Fish, Kenneth Fisher, Evelyn Fiscalia, Inge Foerster, Bruce Forward, Craig Frasher, Jr., Frank Freeman, Jessie Freeman, John Freeman, Margaret Freeman, Adele Galliver, Galloway, Kathryn Gehring, Theos George, Jean Getze, Minnie Ginsberg, Jean Glass, Gladys Glassford, Louise Glenn, Amador Gomez, Minnie Gordon, Charles Gorman, Gladys Gorman, Ruth Gottlieb, Robert Gravatt, Gordon Grimm, Elza Grothers, Theodore Haight, Dorothy Haley, Margaret Hansberg, Charles Hanna, Mary Harris, Stephen Harrod, Hazel Hastings, Ralph Hathaway, Catherine Haslehurst, Dorothy Henderson, Louise Henry, Una Henry, Ruth Hensmet, Margaret Herring, Cecelia Hines, Alice Hoaglund, Florence Howze, Wilma Hosley, Harold Hostetter, Ida Husbands, Frank Irvine, Raymond Jackson, Ralph Johnson, Sidney Johnson, Janet Johnston, Willene Jordan, Boris Kamischer, Arthur Kaplan, Dorothy Karn, David Katzenstein, Anna Katz, Stuart Kelman, Hazel Kinder, Nancy King, Mable Knudson, George Kreil, Rose Krich, William Kuckenbecker, Sidney Lambert, Gladys Leahy, Ernest Lee, Albert Leigh, Harry Lenard, Morris Lerner, Jack Levin, Sara Levy, Jack Lewis, Lewis Lewis, Harry Lisk, Bessie Lipson, Theodore Lord, Rosalia Lord, Irene Lover, Frank McDonald, Virginia McBurney, Richard McComas, Donald McEntyre, Lucille McMahon, Thomas McQuattie, Jr., Henry Malm, Edna Manchester, Alice Manchester, Mary Mastrobuono, Russell Mathewson, Alice Matrick, Melvin Maxwell, Gladys May, Vera Mayer, Sarah Mayer, Sarah Mercerow, Catherine Miller, Genevieve Miller, Gertrude Milstein, Merle Moffet, Helene Monard, Virginia Monroe, Margaret Moore, Eleanor Muncy, Howard Nichols, Isabel Nicholson, Marcy Nicol, Martha Norman, Myrtle Oakes, James O'Neil, Lillian O'Neil, Goldie Otters, Rosamond Pailler, Lawrence Paul, Velela Pepper, Fred Perry, Anna Peterson, Violet Peyton, Mary Pfeiffer, Carolynne Price, Myrtle Radasch, Frances Rammage, Beatrice Raser, Homer Reinschmidt, Marian Rhine, Milton Richbers, Richard Roberts, Paul Robinson, Henrietta Roche, Henry Rollins, Emma Rosenbaum, Sarah Rosenfeld, Phillip Rosenfield, Nora Rosenthal, Florence Rosenthal, Karl Ruess, Roger Rush, George Sanders, Lucile Sands, Robert Sands, Harvey Sandstone, Helen Sarrella, Clyde Schellberg, Sylvan Schiffman, August Schneider, Kenneth Schofield, Edward Schottland, Leona Schramm, Martine Schreiber, Lillian Shapiro, Edward Sharp, Elizabeth Sharpman, Albert Shebby, Violet Sherr, Clifton Sherwood, Alice Sholtzer, Harry Showman, Herbert Shultis, Roberta Siberts, Jeanette Sidell, Rebecca Silver, Mario Silvestri, Ruth Simmons, Jane Smalley, Harry Smith, Robert Smith, Robert Sokolove, Ray Spencer, Dorothy Sorr, Clair Standish, Virginia Stanley, Elmer Stephens, Wilton Stillwell, Lillian Stone, Dorothy Stoner, Harry Sugarman, Paul Sweeney, Barbara Taylor, Richard Thomas, Mildred Thompson, Dewey Thompson, Harlan Turner, Helen Van Meter, Ray Vogel, Edythe Walker, Nancy Walters, Francis Wardall, Dorothy Warren, Evelyn Watson, George Wells, Jessie Welsh, Margaret Werling, Clinton White, George White, William Whitney, Richard Wilcox, Ruth Williamson, Margaret Wilson, Vera Wing, Clyde Winston, Clarence Wolcott, Arthur Wold, Frank Wong, Joseph Wood, Frances Woods, Evangeline Wunsch, Isadore Zudiek.

BELMONT HIGH SCHOOL
Belmont High School will conduct commencement exercises at 8 o'clock tonight when a class of 277 will be given diplomas. Those graduating are:

Rosemary Abdgn-Nur, Lois Adams, Elizabeth Aldridge, Jane Allen, Rosemary Anderson, Dee Austin, Catherine Avery, Charles Bagbi, Shirle Bailey, Phyllis Balmonbe, Frank Baldridge, Hermenon Bandini, Leora Bank, Alexis Basinski, Fattie Jo Beal, Dorothy Bennett, Charles Berdrow, Evelyn Berg, Genevieve Bierly, Blake, Selma Bornfriend, Henry Brill, Marcia Brodie, Helen Brown, Kenneth Brown, Betty Buckley, Virginia Caldwell, Marv Jean Burns, Virginia Caldwell, Bill Calvert, Phyllis Carter, Jessie Castleberry, Capps, James Carroll, Edward Carter, Huston Cartmell, Helen Case, Altha Chandler, Milford Childers, Grayce Christianson, Ernest Christopher, Audrey Clark, Dorothy Coffman, Mabel Coffman, Katherine Comes, James Conaway, Stella Condon, Stanley Crane, Angela Dach, Charles Darrow, Ellen Davies, Helen Davis, Yee De Guchi, Mafalda De Rubbio, Jack Dillon, Patrick Dinan, Lawrence Distance, George Downs, Mary Drennan, Reba Edison, Theodore Elman, Herbert Engel, Beatrice Enastrom, Harold Epstein, Charles Ertek, Paul Evans, Jacquelin Fabiger, Wray Featherstone, Roy Ferren, Eric Firth, Anne Fish, Kenneth Fisher, Evelyn Fiscalia, Inge Foerster, Bruce Forward, Craig Frasher, Jr., Frank Freeman, Jessie Freeman, John Freeman, Margaret Freeman, Adele Galliver, Galloway, Kathryn Gehring, Theos George, Jean Getze, Minnie Ginsberg, Jean Glass, Gladys Glassford, Louise Glenn, Amador Gomez, Minnie Gordon, Charles Gorman, Gladys Gorman, Ruth Gottlieb, Robert Gravatt, Gordon Grimm, Elza Grothers, Theodore Haight, Dorothy Haley, Margaret Hansberg, Charles Hanna, Mary Harris, Stephen Harrod, Hazel Hastings, Ralph Hathaway, Catherine Haslehurst, Dorothy Henderson, Louise Henry, Una Henry, Ruth Hensmet, Margaret Herring, Cecelia Hines, Alice Hoaglund, Florence Howze, Wilma Hosley, Harold Hostetter, Ida Husbands, Frank Irvine, Raymond Jackson, Ralph Johnson, Sidney Johnson, Janet Johnston, Willene Jordan, Boris Kamischer, Arthur Kaplan, Dorothy Karn, David Katzenstein, Anna Katz, Stuart Kelman, Hazel Kinder, Nancy King, Mable Knudson, George Kreil, Rose Krich, William Kuckenbecker, Sidney Lambert, Gladys Leahy, Ernest Lee, Albert Leigh, Harry Lenard, Morris Lerner, Jack Levin, Sara Levy, Jack Lewis, Lewis Lewis, Harry Lisk, Bessie Lipson, Theodore Lord, Rosalia Lord, Irene Lover, Frank McDonald, Virginia McBurney, Richard McComas, Donald McEntyre, Lucille McMahon, Thomas McQuattie, Jr., Henry Malm, Edna Manchester, Alice Manchester, Mary Mastrobuono, Russell Mathewson, Alice Matrick, Melvin Maxwell, Gladys May, Vera Mayer, Sarah Mayer, Sarah Mercerow, Catherine Miller, Genevieve Miller, Gertrude Milstein, Merle Moffet, Helene Monard, Virginia Monroe, Margaret Moore, Eleanor Muncy, Howard Nichols, Isabel Nicholson, Marcy Nicol, Martha Norman, Myrtle Oakes, James O'Neil, Lillian O'Neil, Goldie Otters, Rosamond Pailler, Lawrence Paul, Velela Pepper, Fred Perry, Anna Peterson, Violet Peyton, Mary Pfeiffer, Carolynne Price, Myrtle Radasch, Frances Rammage, Beatrice Raser, Homer Reinschmidt, Marian Rhine, Milton Richbers, Richard Roberts, Paul Robinson, Henrietta Roche, Henry Rollins, Emma Rosenbaum, Sarah Rosenfeld, Phillip Rosenfield, Nora Rosenthal, Florence Rosenthal, Karl Ruess, Roger Rush, George Sanders, Lucile Sands, Robert Sands, Harvey Sandstone, Helen Sarrella, Clyde Schellberg, Sylvan Schiffman, August Schneider, Kenneth Schofield, Edward Schottland, Leona Schramm, Martine Schreiber, Lillian Shapiro, Edward Sharp, Elizabeth Sharpman, Albert Shebby, Violet Sherr, Clifton Sherwood, Alice Sholtzer, Harry Showman, Herbert Shultis, Roberta Siberts, Jeanette Sidell, Rebecca Silver, Mario Silvestri, Ruth Simmons, Jane Smalley, Harry Smith, Robert Smith, Robert Sokolove, Ray Spencer, Dorothy Sorr, Clair Standish, Virginia Stanley, Elmer Stephens, Wilton Stillwell, Lillian Stone, Dorothy Stoner, Harry Sugarman, Paul Sweeney, Barbara Taylor, Richard Thomas, Mildred Thompson, Dewey Thompson, Harlan Turner, Helen Van Meter, Ray Vogel, Edythe Walker, Nancy Walters, Francis Wardall, Dorothy Warren, Evelyn Watson, George Wells, Jessie Welsh, Margaret Werling, Clinton White, George White, William Whitney, Richard Wilcox, Ruth Williamson, Margaret Wilson, Vera Wing, Clyde Winston, Clarence Wolcott, Arthur Wold, Frank Wong, Joseph Wood, Frances Woods, Evangeline Wunsch, Isadore Zudiek.

EL MONTE MAN FINED ON PROWLER CHARGE
Pleading guilty to a charge of disturbing the peace, Natividad Vaquez, 30 years of age, El Monte, yesterday was sentenced to pay a fine of $100 or serve 100 days in the County Jail by Justice of the Peace Wilson of El Monte. Vaquez was arrested yesterday morning following an attempt to break into the Shamrock Cafe, 2608 Valley Boulevard, according to a Sheriff's report. He first was held as a burglar suspect, the charge subsequently being reduced.

PARK TRACT ACQUIRED AT HALF PRICE

Local Men Who Released Yosemite Holdings Gave Up Assured Profits

Arthur H. Fleming, Pasadena capitalist, and Robert C. Gillis of this city are the men who lately sold to the government the 11,300 acres of privately owned timber in Yosemite National Park, it was made known yesterday. Incidentally, it developed that the price paid, $3,150,000, jointly contributed by John D. Rockefeller, Jr., and the government, was only about half the recognized market rate for such holdings. Their potential profit constituted the contribution of the local men to the park.

"In the acreage acquired is 510,000,000 feet of timber," said Mr. Fleming. "In the case of an ordinary sale we would have been entitled to reasonable severance damage, which at low estimate would be $3 per thousand stumpage, and also a fair profit by reason of the market value, which would probably have given us $3 per thousand more, or a total of $3,060,000."

Mr. Fleming added that the price paid represented the exact cost to them of the tract when they purchased it, together with interest since the date of purchase, taxes, and a relatively small amount for the amortization of railway lines, sawmill and equipment abandoned, which originally had cost $1,700,000.

CRAWFORD MAY SPEAK AS WITNESS

Prosecution in Extortion Trial Hints Politician Will Take Stand Today

Charles H. Crawford, Los Angeles politician, and Jacob Berman, prominent figure in the Julian Petroleum crash investigation, may be called today as the principal prosecution witnesses at the trial of Morris Lavine, newspaper man, and Leontine Johnson, charged with extorting $75,000 from Crawford.

This intimation was given last night before adjournment in Superior Judge Schauer's court by William McKay, deputy District Attorney prosecuting the case.

The indictment against the two defendants accuses them of extorting $
